New Model Thai-English Dictionary: Desk Edition SO SETHAPUTRA., Sethaputra,1952 New Model English-Thai Dictionary Sō Sētthabut,1958 **New Model English-Thai Dictionary So Thailand** David Smyth,1998 Since c1970 Thailand's position in the world has changed from potential communist domino to one of the world's most dynamic economies. The confrontational politics of the 1970s with the student led revolution of 1973 and the bloody right wing backlash. In 1976 were replaced by a new consensus in the following decade. A concerted export drive sparked off a tremendous economic boom during the 1980s and early 1990s. Tourism also expanded rapidly and is now the single largest foreign exchange earner. Economic Success has however been at a cost. Each year Bangkok has become more chaotic in the face of increased traffic and an Unprecedented building boom and nationally there has been a widening gap between the haves and the have nots. Moreover Thailand is experiencing a potential AIDS time bomb and serious environmental degradation. Despite Such pressures and the sudden economic crisis of mid 1997 Thailand has enjoyed an enviable record of stability in recent years.

But who makes dictionaries shapes both how they are constructed and how they are used. Tracing the craft of dictionary making from the fifteenth century to the present day this book explores the vital but little known significance of women and gender in the creation of English language dictionaries. Women worked as dictionary patrons collaborators readers compilers and critics while gender ideologies served at turns to prevent secure and veil women's involvements and innovations in dictionary making. Combining historical rhetorical and feminist methods this is a monumental recovery of six centuries of women's participation in dictionary making and a robust investigation of how the social life of the genre is influenced by the social expectations of gender.
