The New Poets. American and British Poetry Since World War II. Macha Louis ROSENTHAL,1967      **The New Poets**

*British Poetry of the Second World War* L. Shires,1985-06-03      *American Poetry since 1945* Eleanor  
Spencer-Regan,2017-09-16 This book features a collection of essays on some of the key poets of post war America written by  
leading scholars in the field All the essays have been newly commissioned to take account of the diverse movements in  
American poetry since 1945 and also to reflect retrospectively on some of the major talents that have shaped its development  
In the aftermath of the Second World War American poets took stock of their own tumultuous past but faced the future with  
radically new artistic ideals and commitments More than ever before American poetry spoke with its own distinctive accents  
and declared its own dreams and desires This is the era of confessionalism beat poetry protest poetry and avant garde  
postmodernism This book explores the work of John Berryman Robert Lowell Elizabeth Bishop Adrienne Rich and Sylvia Plath  
as well as contemporary African American poets and new poetic voices emerging in the 21st century This New Casebook  
introduces the major American poets of the post war generation evaluates their achievements in the light of changing critical  
opinion and offers lively incisive readings of some of the most challenging and enthralling poetry of the modern era

**British Poetry Since 1939** Bruce K. Martin,1985      *Irish Poetry Since 1950* John Goodby,2000-12-15 Irish Poetry since  
1950 is a survey of poetry from Northern Ireland the Republic Britain and the US covering the 1950s the 1960s the early  
period of the Troubles up to 1976 the 1980s and the 1990s      **The Movement Reconsidered** Zachary Leader,2009-05-07  
The Movement was the preeminent poetical grouping of post war Britain This collection of original essays by distinguished  
poets critics and scholars from Britain and America provides new accounts not only of the best known of Movement writers  
Philip Larkin Kingsley Amis Thom Gunn and Donald Davie but of less familiar contemporaries      "Strange Prophecies Anew"  
Tony Trigilio,2000 This book revives questions of religious and political authority in poetic prophecy It argues that modern  
prophecy operates within a dynamic of continuity and estrangement that combines immanent and transcendent modes of  
representation creating a poetry that revises the very tradition that authorizes it      *Between(s) and Beyond(s) in*  
*Contemporary Albanian Literature* Bavjola Shatro,2016-09-23 This book focuses on contemporary Albanian poetry given the  
important role it has continuously played in Albanian literature as a whole It analyses particular literary periods and their  
representative poets from a comparative perspective It raises meaningful questions that point to particularly interesting  
features of Albanian literature that call for in depth study taking into account research conducted in this field over the years  
by both Albanian and foreign scholars However this book s focus on comparative literature and the perspectives that this  
academic practice offers for so called small marginal literatures in the realm of European literatures allows for a different  
and unique analysis It provides both an introduction and a well structured approach to contemporary Albanian literature and

to some of the problems that it faces in today's global context when national literatures and especially those from the margins have to reconsider their role and position in world literature. As such, the book will be of interest to scholars in the fields of comparative literature, East and South Eastern European literature, Albanian literature, Balkan studies, poetry studies, and cultural studies among others.

**The Oxford Handbook of Walt Whitman**, 2024-01-17 More than a century after his death, Walt Whitman remains a fresh phenomenon. Startling discoveries and massive transcription efforts are enabling new insights into his life and achievements. In the past few years, new breakthroughs have proliferated, including the publication of a long lost Whitman novel, Jack Engle, along with a hitherto unknown health guide for urban men and previously undiscovered poems. Myriad other documents have become more readily available, including largely unmined troves of journalism, narrative, and documentary prose. Keeping Leaves of Grass and Whitman's literary life as a whole are thus ripe for reconsideration. The Oxford Handbook of Walt Whitman embraces this expanded view of Whitman and charts new pathways in Whitman Studies by bringing in new perspectives, methods, and contexts.

**New British Poetries**, Robert Hampson, 1995 This collection of essays covers the wide range of innovative but neglected poetry which flourished in journals and presses outside the mainstream during the period 1970-1990.

**Robert Lowell**, Jay Martin, 1970 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible to scholars, students, researchers, and general readers. Rich with historical and cultural value, these works are published unaltered from the original University of Minnesota Press editions. The books offered through Minnesota Archive Editions are produced in limited quantities according to customer demand and are available through select distribution partners.

**A Reference Guide for English Studies**, Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students, teachers, and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature. Within each of 24 major sections, Marcuse lists and annotates bibliographies, guides, reviews of research, encyclopedias, dictionaries, journals, and reference histories. The annotations and various indexes are models of clarity and usefulness, and cross references are liberally supplied where appropriate. Although cost-conscious librarians will probably consider the several other excellent literary bibliographies in print, such as James L. Harner's *Literary Research Guide* (Modern Language Assn of America, 1989), larger academic libraries will want Marcuse's volume.

[Censorship and the Limits of the Literary](#), Nicole Moore, 2015-08-27 Though literature and censorship have been conceived as long-time adversaries, this collection seeks to understand the degree to which they have been dialectical terms, each producing the other coeval and mutually constitutive. On the one hand, literary censorship has been posited as not only inescapable but definitive, even foundational to speech itself. On the other, especially after the opening of the USSR's *spekstrahn*, those enormous collections of literature forbidden under the Soviets, the push to redefine censorship expansively

has encountered cogent criticism Scholars describing the centralised control of East German print publication for example have wanted to insist on the difference of pre publication state censorship from more mundane forms of speech regulation in democracies Work on South African apartheid censorship and book banning in colonial countries also demonstrates censorship s formative role in the institutional structures of literature beyond the metropole Censorship and the Limits of the Literary examines these and other developments across twelve countries from the Enlightenment to the present day offering case studies from the French revolution to Internet China Is literature ever without censorship Does censorship need the literary In a globalizing era for culture does censorship represent the final failed version of national control

**Predicting the Past** Michael Boyden, 2009 Drawing from the social theories of Niklas Luhmann and Mary Douglas Predicting the Past advocates a reflexive understanding of the paradoxical institutional dynamic of American literary history as a professional discipline and field of study Contrary to most disciplinary accounts Michael Boyden resists the utopian impulse to offer supposedly definitive solutions for the legitimation crises besetting American literature studies by going beyond its inherited racist classist and sexist underpinnings Approaching the existence of the American literary tradition as a typically modern problem generating diverse but functionally equivalent solutions Boyden argues how its peculiarity does not as is often supposed reside in its restrictive exclusivity but rather in its massive inclusivity which drives it to constantly revert to a self negating beyond perspective Predicting the Past covers a broad range of literary histories and reference works from Rufus Griswold s 1847 Prose Writers of America to Sacvan Bercovitch s monumental Cambridge History of American Literature Throughout Boyden focuses on particular themes and topics illustrating the self induced complexity of American literary history such as the early Anglocentric roots theories of American literature the debate on contemporary authors in the age of naturalism the plurilingual ethnocentrism of the pioneer Americanists of the mid twentieth century and the genealogical misrepresentation of founding figures such as Jonathan Edwards Emily Dickinson and Robert Lowell

*Denise Levertov* Audrey T. Rodgers, 1993 Through careful analysis of Levertov s social verse she demonstrates that there is a consistency and pattern in what the artist herself has termed the poems of engagement Denise Levertov began her career in England as a lyric poet in the Romantic mode but even then was touched by the reductive nature of war revealed in her first published poem Listening to Distant Guns During the mid 1960s Levertov s social conscience notably her strong antiwar sentiment was reawakened by the Vietnam War This reawakening resulted in several volumes of poetry that mirrored her concerns with the war and political activism at home and her perplexity at the nature of human beings often great and compassionate but at times cruel and insensitive There exists a common thread in Levertov s pilgrimage from her beginning as a lyric poet to her status as an artist definitively in the world she has always responded to everything within the compass of her experience
