Popular Science, 1951-06 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **HSA Heritage Auctions Rare Books Auction Catalog #6030** James Gannon, 2009-09 **An Uncommon Union** John D. Hannah, 2009-10-24 Dallas Theological Seminary is often viewed as a bastion of conservative evangelicalism marked by an unswerving devotion to theological positions of fundamentalism biblical inerrancy and dispensational premillennialism An Uncommon Union the first book length history of Dallas Theological Seminary written by a graduate and veteran faculty member of DTS provides a necessary corrective to such a simplistic assessment Using the tenures of the school's five presidents as the backbone for his narrative John D. Hannah reveals the tensions that DTS has experienced in its eighty plus years of existence Each successive president of DTS brought his own unique style and perceptions to the school even as he dealt with the changing religious and cultural milieu that swirled around it Hannah argues that rather than being a monolithic institution Dallas Theological Seminary is a unique blend of differing heritages and of opposing traditions a place that defies easy categorization A keenly insightful and thoughtful work An Uncommon Union illuminates the path charted by the leaders of a prominent American seminary in a rapidly changing world All readers interested in the history and future of evangelicalism regardless of their theological persuasion will benefit from this book **The Publishers' Circular and Booksellers' Record**, 1928 **Catalogue of Copyright Entries** Library of Congress. Copyright Office, 1941 *COVID-19 and Climate Change in BRICS Nations* Ndivhuho Tshikovihi, Andréa Santos, Xiaolong Zou, Fulufhelo Netswera, Irina Zotovna Yarygina, Sriram Divi, 2023-12-29 This book provides a quantitative and qualitative overview of the overall impact that the COVID 19 pandemic had on the capacity of Brazil Russia India China and South Africa BRICS countries to reshape global climate governance and explore areas for mutual cooperation BRICS countries account for nearly 40% of the total world population and are thus intrinsic to the global efforts and results for Agenda 2030 the Sustainable Development Goals the Paris Agreement and beyond The outbreak of the COVID 19 pandemic does not at first appear to be directly related to BRICS policies to address climate change but it has influenced the pace and nature of climate action due to the loss of human and financial capital This book examines this correlation and raises awareness of the COVID 19 pandemic's impacts and potential solutions on BRICS climate strategies Drawing on case studies from each country the authors use examples from urban governance energy transition strategy foreign investment and more to illustrate how COVID 19 has negatively or positively impacted climate data and draw wider conclusions about the long term climate policies that may be implemented This volume will be of great interest to students and scholars of climate change environmental politics and governance and global development studies Bookseller and the Stationery Trades' Journal, 1891 **European Powers in the First World War** Spencer Tucker, 2018-12-07 First published

in 1996 The First World War was the single most important event of the twentieth century This volume concentrates on non U S aspects of the conflict Organized alphabetically its more than 600 detailed entries offer information and insight on such subjects as the causes of the conflict major battles and campaigns weapons systems including military aviation chemical warfare the submarine and the tank and the terms of the peace Some 350 biographies provide information on the roles played in the conflict by generals admirals and civilian leaders There are also biographies of individuals who were shaped by the war such as Charles De Gaulle Adolf Hitler Benito Mussolini and Joseph Stalin essays on each of the countries involved in the conflict new appraisals of such subjects as military medicine and artillery tactics and essays on such diverse subjects as art literature and music in the war Each entry has references for additional reading and a subject index provides easy access The volume is an excellent reference source for scholar and neophyte alike **Catalog of Copyright Entries. Stearns,2020-12-29 Happiness in World History traces ideas and experiences of happiness from early stages in human history to the maturation of agricultural societies and their religious and philosophical systems to the changes and diversities in the approach to happiness in the modern societies that began to emerge in the 18th century In this thorough overview Peter N Stearns explores the interaction between psychological and historical findings about happiness the relationship between ideas and popular experience and the opportunity to use historical analysis to assess strengths and weaknesses of dominant contemporary notions of happiness Starting with the advent of agriculture the book assesses major transitions in history for patterns in happiness including the impact of the great religions the unprecedented Enlightenment interest in secular happiness and cheerfulness and industrialization and imperialism The final contemporary section covers fascist and communist efforts to define alternatives to Western ideas of happiness the increasing connections with consumerism and growing global interests in defining and promoting well being Touching on the experiences in the major regions of Asia Africa Latin America Europe and North America the text offers an expansive introduction to a new field of study This book will be of interest to students of world history and the history of emotions **White Men's Magic** Vincent L. Wimbush,2012-05-02 In this text the author ties the life of the Bible to the wider history of slavery and transatlantic movements by studying the encounter between the North Atlantic and Black African worlds **Hearings** United States. Congress Senate,1956 **The Regional Economics of Technological Transformations** Roberta Capello,Camilla Lenzi,2021-08-30 The Regional Economics of Technological Transformations provides a comprehensive overview of 4 0 technological transformations in Europe and their socio economic impact with a particular emphasis on the regional dimension of the phenomena The authors employ extensive original data and robust quantitative methods to analyse technological change in all regions of the 27 EU countries plus the UK and shed light on this trend for Europe and beyond

Structured in four parts the book first looks at conceptual definitions empirical measurements and expected impacts on both the economic performance GDP and productivity growth and the labour market and then moves on to analyse where 4 0 technological transformation actually takes place in Europe and the reasons for this Next it offers original empirical evidence on the impacts of the different transformations and of their intertwined effects on both the economy and the society Finally the book explores the policy implications of this technological transformation This book will be valuable reading for advanced students researchers and policymakers working across regional economics industrial economics and innovation policy It will be of primary interest to regional scientists interested in the field who may enjoy the conceptual and empirical solutions to the study of a very complex timely and still largely unexplored theme Sociologists engineers and political economists can benefit from the book s analysis noting the urgency of the development of new ethical rules governing the new digital and labour markets Finally the book may appeal to policymakers interested in opportunities to increase regional competitiveness and sustainability goals through the advent of 4 0 technologies

The Moral Compass Lindsay J. Thompson, 2009-06-01

The Moral Compass presents a model of morality as a guide to values based leadership In a free pluralist society diverse stakeholders with competing moral claims present serious challenges to the strategic momentum of business government NGOs and community organizations Leaders need to know how to manage these challenges effectively The Moral Compass is their guide As recent history has repeatedly demonstrated leaders who avoid impose or gloss over the centrality of values in realizing a strategic vision can produce severely flawed outcomes such as loss of confidence corruption and market failure The Moral Compass provides leaders with effective tools to manage this complex strategic environment by engaging directly with stakeholders to clarify and articulate normative values without privileging or diminishing specific moral traditions The Moral Compass is rich blend of scholarship practical wisdom and usable tools It is a readable accessible book that draws from a range of scholarship in humanities business science and social sciences to explain the dynamics of human morality Academically oriented readers will find intellectually challenging resources and references Pragmatic readers will be able to use this knowledge to cultivate a robust personal moral compass as a leadership tool for building ethical teams practice groups and organizational cultures for framing and managing moral dilemmas and for conducting an ethical discernment and decisionmaking process Ethics in business and leadership studies is emerging as a rich field for scholarship As an active business faculty member in the field Dr Thompson is familiar with the published literature of colleagues in the Society for Business Ethics the International Society for Business Ethics and Economics the Academy of Management and the American Philosophical Association As a blend of theory and practice The Moral Compass is unique among business ethics books in providing a framework for including and managing the volatility of ethical issues arising from tensions between traditional religious and modern secular morality Rather than avoid these conflicts the book anchors their source in the inherent complexity of human neurochemistry individuation and socialization as a context for moral meaning and conscience The book

includes numerous exercises in reflection dialogue and discernment that enable readers to find common moral ground with people from divergent wisdom traditions The book synthesizes a wide range of knowledge in a presenting practical model for moral discernment dialogue and decision making *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1895 *Philippine Holdings in the Library of Congress, 1960-1987* Library of Congress,1993 *China's Road to Disaster: Mao, Central Politicians and Provincial Leaders in the Great Leap Forward, 1955-59* Frederick C Teiwes,Warren Sun,2016-07-01 This text analyzes the dramatic shifts in Chinese Communist Party economic policy during the mid to late 1950s which eventually resulted in 30 to 45 million deaths through starvation as a result of the failed policies of the Great Leap Forward Teiwes examines both the substance and the process of economic policy making in that period explaining how the rational policies of opposing rash advance in 1956 57 gave way to the fanciful policies of the Great Leap and assessing responsibility for the failure to adjust adequately those policies even as signs of disaster began to reach higher level decision makers In telling this story Teiwes focuses on key participants in the process throughout both rational and utopian phases Mao other top leaders central economic bureaucracies and local party leaders The analysis rejects both of the existing influential explanations in the field the long dominant power politics approach focusing on alleged clashes within the top leadership and David Bachman s recent institutional interpretation of the origins of the Great Leap Instead this study presents a detailed picture of an exceptionally Mao dominated process where no other actor challenged his position where the boldest step any actor took was to try and influence his preferences and where the system in effect became paralyzed while Mao kept changing signals as disaster unfolded Privatization United States.
