We appreciate your support of the

The authors' critical readings of two centuries of texts that have made use of Robinson Crusoe undermine the pervasive belief of mainstream economics that Robinson Crusoe is a benign representative of economic agency and that he like other economic agents can be understood independently of historical and cultural specificity. The book provides a detailed account of the appearance of Robinson Crusoe in the economics literature and in a plethora of modern economics texts in which for example we find Crusoe is portrayed as a schizophrenic consumer-producer trying to maximize his personal well-being. Using poststructuralist, feminist, postcolonial, Marxist, and literary criticism approaches, the authors of the fourteen chapters in this volume examine and critique some of the deepest fundamental assumptions neoclassical economics hold about human nature, the political economy of colonization, international trade, and the pervasive gendered organization of social relations. The contributors to this volume can be seen as engaging in the emerging conversation between economists and literary scholars known as the New Economic Criticism. They offer unique perspectives on how the economy and economic thought can be read through different disciplinary lenses. Economists pay attention to rhetoric and metaphor deployed in economics and literary scholars have found new areas to explore and understand by focusing on economic concepts and vocabulary encountered in literary texts. **NEW ROBINSON CRUSOE** Gilson 1869-1935 Gardner, Alexander 1676-1721 Selkirk, 2016-08-29 **The New Robinson Crusoe**, 1806 **Rewriting Crusoe** Jakub Lipski, 2020-09-17 Published in 1719 Defoe's Robinson Crusoe is one of those extraordinary literary works whose importance lies not only in the text itself but in its persistently lively afterlife. German author Johann Gottfried Schnabel, who in 1731 penned his own island narrative, coined the term Robinsonade to characterize the genre bred by this classic, and today hundreds of examples can be identified worldwide. This celebratory collection of tercentenary essays testifies to the Robinsonade's endurance, analyzing its various literary, aesthetic, philosophical, and cultural implications in historical context. Contributors trace the Robinsonade's roots from the eighteenth century to generic affinities in later traditions, including juvenile fiction, science fiction, and apocalyptic fiction, and finally to contemporary adaptations in film, television, theater, and popular culture. Taken together, these essays convince us that the genre's adaptability to changing social and cultural circumstances explains its relevance to this day. Published by Bucknell University Press. Distributed worldwide by Rutgers University Press. *The New Robinson Crusoe* Joachim Heinrich Campe, 1823 **A New Robinson Crusoe ... Illustrated** William Livingston ALDEN, 1925 *The New Robinson Crusoe* Joachim Heinrich Campe, Alexander Anderson, 1810 **The New Robinson Crusoe** Joachim Heinrich Campe, 1846 **Didactics and the Modern Robinsonade** Ian Kinane, 2019 *Didactics and the Modern Robinsonade* examines modern and contemporary Robinsonade texts written for young readers, looking specifically at the ways in which later

adaptations of the Robinson Crusoe story subvert both traditional narrative structures and particular ideological codes within the genre This collection redresses both the gender and geopolitical biases that have characterized most writings within the Robinsonade genre since its inception and includes chapters on little known works of fiction by female authors as well as works from outside the mainstream of Anglo American culture
