New Science Journalists

Chris Peters, Marcel Broersma

New Science Journalists:

Insights on Science Journalism Felicity Mellor, 2024-03-14 Bringing together experts from a range of disciplines this collection critically examines science journalism paying special attention to the points of tension that science journalists navigate in their work today Faced with the twin crises of climate change and a global pandemic science journalism has never before been so prominent This book showcases perspectives that transcend the particulars of the specific news events and outlets studied in order to provide an overview of the key areas of scholarly interest regarding the nature of science journalism The volume is organised into three sections the first provides historical case studies illustrating the demarcation of science journalism from science as science journalism emerged as a recognisable news beat in the twentieth century the second examines the relationship between science journalists and their sources particularly scientists and the mediation of this relationship through organisations foreign journalism and political constraints and the final section considers the style and voice of science journalism content Case studies and original empirical research are compiled from across the globe including the UK US Germany Vietnam and Russia and are synthesised to offer a readable and engaging insight into the beat Insights on Science Journalism is recommended reading for advanced students and researchers of science journalism and communication and will also appeal to those working in the fields of science and technology studies and risk communication

The New Science Journalists Ted Anton, 1995 In *The New Science Journalists* Editors Ted Anton and Rick McCourt have gathered the best of the new science writing into one illuminating volume What is new about the work of these journalists lies in the scale pace and uses of their writing These writers bridge the gap between members of the science community and a society hungry for news about their work acting not only as reporters and commentators but also as investigators researchers detectives and storytellers The editors have showcased three very different kinds of writers The first group explores the complexities of our universe with childlike wonder and includes Diane Ackerman John Seabrook and Elisabeth Rosenthal The second group relentless investigators who expose the inside stories of scientific research includes Deborah Blum Robert Capers Eric Lipton and John Crewdson And the third group of writers who dig through data uncovering trends that researchers themselves miss features Timothy Ferris E O Wilson James Gleick and many more These writers are helping to broaden the very boundaries of science by making complex topics such as chemistry physics biotechnology and ecology accessible and entertaining to readers of every kind Combining superb prose and compelling subjects *The New Science Journalists* examines some of the most fascinating issues of our times

Encyclopedia of Journalism Christopher H. Sterling, 2009-09-23 Written in a clear and accessible style that would suit the needs of journalists and scholars alike this encyclopedia is highly recommended for large news organizations and all schools of journalism Starred Review Library Journal Journalism permeates our lives and shapes our thoughts in ways we've long taken for granted Whether we listen to National Public Radio in the morning view the lead story on the Today show read the morning newspaper headlines stay up

to the minute with Internet news browse grocery store tabloids receive Time magazine in our mailbox or watch the nightly news on television journalism pervades our daily activities The six volume Encyclopedia of Journalism covers all significant dimensions of journalism including print broadcast and Internet journalism U S and international perspectives history technology legal issues and court cases ownership and economics The set contains more than 350 signed entries under the direction of leading journalism scholar Christopher H Sterling of The George Washington University In the A to Z volumes 1 through 4 both scholars and journalists contribute articles that span the field s wide spectrum of topics from design editing advertising and marketing to libel censorship First Amendment rights and bias to digital manipulation media hoaxes political cartoonists and secrecy and leaks Also covered are recently emerging media such as podcasting blogs and chat rooms The last two volumes contain a thorough listing of journalism awards and prizes a lengthy section on journalism freedom around the world an annotated bibliography and key documents The latter edited by Glenn Lewis of CUNY Graduate School of Journalism and York College CUNY comprises dozens of primary documents involving codes of ethics media and the law and future changes in store for journalism education Key Themes Consumers and Audiences Criticism and Education Economics Ethnic and Minority Journalism Issues and Controversies Journalist Organizations Journalists Law and Policy Magazine Types Motion Pictures Networks News Agencies and Services News Categories News Media U S News Media World Newspaper Types News Program Types Online Journalism Political Communications Processes and Routines of Journalism Radio and Television Technology

The SAGE Encyclopedia of Journalism Gregory A. Borchard, 2022-02-22 Journalism permeates our lives and shapes our thoughts in ways that we have long taken for granted Whether it is National Public Radio in the morning or the lead story on the Today show the morning newspaper headlines up to the minute Internet news grocery store tabloids Time magazine in our mailbox or the nightly news on television journalism pervades our lives The Encyclopedia of Journalism covers all significant dimensions of journalism such as print broadcast and Internet journalism U S and international perspectives and history technology legal issues and court cases ownership and economics The encyclopedia will consist of approximately 500 signed entries from scholars experts and journalists under the direction of lead editor Gregory Borchard of University of Nevada Las Vegas

The Craft of Science Writing: Selections from The Open Notebook Siri Carpenter, 2020-02 Science journalism has perhaps never been so critical to our world and the demands on science journalists have never been greater On any given day a science journalist might need to explain the details of genetic engineering analyze a development in climate change research or serve as a watchdog helping to ensure the integrity of the scientific enterprise And science writers have to spin tales seductive enough to keep readers hooked to the end despite the endless other delights just a click away How does one do it Here for the first time is a collection of indispensable articles on the craft of science writing as told by some of the most skillful science journalists working today These selections are a wealth of journalistic knowledge from The Open Notebook the online community that has been a primary resource for

science journalists and aspiring science writers for the last decade *The Craft of Science Writing* gives you a crew of accomplished encouraging friends to whisper over your shoulder as you work In these pages you ll find interviews with leading journalists offering behind the scenes inspiration as well as in depth essays on the craft offering practical advice including How to make the transition into science writing How to find and pitch a science story to editors How to wade through a sea of technicalities in scientific papers to spot key facts How to evaluate scientific and statistical claims How to report on controversial topics How to structure a science story from short news to long features How to engage readers in a science story and hold their attention to the end

Reporting on Risks Albert Okunade, Jim Willis, 1997-07-30 Health and safety risk issues such as AIDS hazardous waste disposal airline disasters and health care policy frequently dominate the news and require a new level of sensitivity and expertise on the part of journalists This volume focuses on a study of the trends in risk reporting and offers guidelines on how to report the dangers of these risks more accurately It also examines the ethical implications of reporting risks to the public This work will be of interest to those studying communication specifically in the areas of ethics in journalism and public health and medical reporting

A Journalism of Humanity Steve Weinberg, 2008 Founded by Walter Williams a newsman who lacked a college education the University of Missouri s School of Journalism is regarded as among the best in the world Weinberg uncovers the history of the school s first 100 years revealing the flaws as well as the virtues of the Missouri Method Provided by publisher

Making Journalists Hugo de Burgh, 2006-03-13 At a time when the media s relation to power is at the forefront of political discussion this book considers how journalists can affect public discourse on politics economy and society at large From well known and respected authors providing all new material *Making Journalists* considers journalism education training practice and professionalism across a wide range of countries including Saudi Arabia Africa India USA and the UK The book offers insights into what journalism is how education makes the journalist and therefore the news models of journalism taught and practised across the globe the ethical implications of the process When news reporting can lead to decisions on whether or not to go to war everything can be affected by journalists and their mediation of the world This text brings these present issues together in one invaluable resource for all students of journalism politics and media studies

Nuclear Public Relations Campaign United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Energy Conservation and Power, 1983

Environment Reporters in the 21st Century James Simon, JoAnn Myer Valenti, David B. Sachsman, 2011-12-31 *Environment Reporters in the 21st*

Century is the story of a relatively new journalistic beat environmental reporting This book explores the development of the environmental beat as a specialty during the last thirty years It also discusses broader trends within American journalism resulting from technological changes that challenge traditional mediums especially newspapers and magazines The book is divided into three parts The first reviews the literature and explains the methodology The second describes the results of the authors research The third provides in depth accounts of environment reporters at work A final chapter puts the research in historical perspective viewing it in terms of the economic decline of the newspaper business and of local television news Journalists mediate a constant struggle among thousands of environmental activists corporate public relations people government officials and scientists to shape environmental reporting This volume tells the story of environmental reporting imaginatively and innovatively

STEM Education Approaches and Challenges in the MENA Region Alhashem, Fatimah,Pacheco-Guffrey, Heather,Boivin, Jacquelynne Anne,2023-08-03 In the Middle East and North Africa MENA region recent long term policy plans emphasize the ever increasing need to transition to 21st century skills and achieve sustainable development goals by preparing highly qualified nationals with credentials in STEM fields relevant to the current and future needs of the labor market Yet despite multiple educational reforms and substantial resources national and international indicators of student performance still demonstrate insignificant improvement in MENA students achievement in STEM subjects STEM Education Approaches and Challenges in the MENA Region contributes to the existing STEM literature by exploring factors that influence student participation in STEM in MENA countries The book also identifies the gaps in STEM education research in MENA countries and presents the current practices and challenges Covering key topics such as gender equity school administration and education systems this premier reference source is ideal for administrators policymakers researchers scholars academicians practitioners instructors and students

Rethinking Journalism Again Chris Peters,Marcel Broersma,2016-09-13 It s easy to make a rhetorical case for the value of journalism Because it is a necessary precondition for democracy it speaks to the people and for the people it informs citizens and enables them to make rational decisions it functions as their watchdog on government and other powers that be But does rehashing such familiar rationales bring journalism studies forward Does it contribute to ongoing discussions surrounding journalism s viability going forth For all their seeming self evidence this book considers what bearing these old platitudes have in the new digital era It asks whether such hopeful talk really reflects the concrete roles journalism now performs for people in their everyday lives In essence it poses questions that strike at the core of the idea of journalism itself Is there a singular journalism that has one well defined role in society Is its public mandate as strong as we think The internationally renowned scholars comprising the collection address these recurring concerns that have long defined the profession and which journalism faces even more acutely today By discussing what journalism was is and possibly will be this book highlights key contemporary areas of debate and tackles on going anxieties about its future

The Ethical Journalist Gene Foreman,Daniel R. Biddle,Emilie

Lounsberry, Richard G. Jones, 2022-05-25 *The Ethical Journalist* Praise for the Third Edition of *The Ethical Journalist* A riveting examination of journalism ethics updated for the seismic change that is now an industry constant *The Ethical Journalist* is written to fortify journalism students but real life examples of everything from faked photographs to reporting on presidential lies make it valuable to all of us who care about the news ANN MARIE LIPINSKI CURATOR OF THE NIEMAN FOUNDATION AT HARVARD UNIVERSITY AND FORMER EDITOR OF THE CHICAGO TRIBUNE Praise for the Earlier Editions The book is superb the definitive work on journalism ethics and practices It should be a basic text in every school of journalism GENE ROBERTS FORMER EXECUTIVE EDITOR OF THE PHILADELPHIA INQUIRER AND FORMER MANAGING EDITOR OF THE NEW YORK TIMES At a time when the internet has turned journalism inside out and blown up long held traditions the need for media ethics is even more critical This is the book to help guide students and the rest of us through the revolution ALICIA C SHEPARD FORMER NPR OMBUDSMAN The third edition of *The Ethical Journalist* is a comprehensive examination of current issues in the field of journalism ethics researched and written by four journalists with experience in both the newsroom and the classroom It gives students and professionals the tools they need to navigate the challenges of journalism today first explaining the importance of ethics in journalism and then putting a decision making strategy to work The text is supplemented by case studies and essays and two companion websites provide additional materials for educators and a forum for all users to discuss new topics in journalism ethics as they arise **The Handbook of Journalism Studies** Karin Wahl-Jorgensen, Thomas Hanitzsch, 2009-01-13 This Handbook charts the growing area of journalism studies exploring the current state of theory and setting an agenda for future research in an international context The volume is structured around theoretical and empirical approaches and covers scholarship on news production and organizations news content journalism and society and journalism in a global context Emphasizing comparative and global perspectives each chapter explores Key elements thinkers and texts Historical context Current state of the art Methodological issues Merits and advantages of the approach area of studies Limitations and critical issues of the approach area of studies Directions for future research Offering broad international coverage from top tier contributors this volume ranks among the first publications to serve as a comprehensive resource addressing theory and scholarship in journalism studies As such the Handbook of Journalism Studies is a must have resource for scholars and graduate students working in journalism media studies and communication around the globe *The Craft of Science Writing* Siri Carpenter, 2024-11-05 A deeply sourced inclusive guide to all aspects of science writing with contributions from some of the most skilled and award winning authors working today Science writing has never been so critical to our world and the demands on writers have never been greater On any given day a writer might need to explain the details of AI analyze developments in climate change research or serve as a watchdog helping to ensure the integrity of the scientific enterprise At the same time writers must spin tales that hook and keep readers despite the endless other demands on their attention How does one do it *The Craft of*

Science Writing is the authoritative guide With pieces curated from the archives of science writers go to online resource The Open Notebook this book explores strategies for finding and shaping story ideas pitching editors and building a specialty in science writing It delves into fundamental skills that every science writer must learn including planning their reporting identifying interviewing and quoting sources organizing interview notes and crafting stories that engage and inform audiences This expanded edition includes new introductory material and nine new essays focusing on such topics as how to establish a science beat how to find and use quotes how to critically evaluate scientific claims how to use social media for reporting and how to do data driven reporting In addition there are essays on inclusivity in science writing offering strategies for eradicating ableist language from stories working with sensitivity readers and breaking into English language media for speakers of other languages Through interviews with leading journalists offering behind the scenes inspiration as well as in depth essays on the craft offering practical advice readers will learn how the best science stories get made from conception to completion Contributors Humberto Basilio Siri Carpenter Jeanne Erdmann Dan Ferber Tina Casagrand Foss Geoffrey Giller Laura Helmuth Jane C Hu Alla Katsnelson Roxanne Khamsi Betsy Ladyzhets Jyoti Madhusoodanan Amanda Mascarelli Robin Meadows Kate Morgan Ti n Nguy n Michelle Nijhuis Aneri Pattani Rodrigo P rez Ortega Mallory Pickett Kendall Powell Tasneem Raja Sandeep Ravindran Marion Renault Julia Rosen Megha Satyanarayana Christina Selby Knvul Sheikh Abdullahi Tsanni Alexandra Witze Katherine J Wu Wudan Yan Ed Yong Rachel Zamzow Sarah Zhang and Carl Zimmer

Communities of Journalism David Paul Nord, 2001 Widely acknowledged as one of our most insightful commentators on the history of journalism in the United State David Paul Nord offers a lively and wide ranging discussion of journalism as a vital component of community In settings ranging from the religion infused towns of colonial America to the rapidly expanding urban metropolises of the late nineteenth century Nord explores the cultural work of the press *Imagenation* José Van Dijck, 1998-01-31 Genetics seems more popular then ever DNA technology not only sustains large areas of biomedicine and business but also prevails in social and legal practices and takes root in cultural products Since the late 1950s the public image of genetics metamorphosed from a suspect branch of research into a thriving well funded field of biomedicine Images and imaginations have played a crucial role in the popularization of genetic knowledge The media played up images of engineered bugs scientists promoted images of selfish genes and science fiction writers infested the imagination with stories of cloned monsters Imag e nation examines the role of science journalism and fiction in the popularization of genetics Quackonomics! Ethan L. Welch M.D., 2020-04-05 Fake news is bad enough We cannot allow ourselves to be buried in fake medicine This book looks at quackery practiced under the cover of CIM Complementary and Integrative Medicine Why To inform the consumer that there is a better way to spend their health care dollar How By a better understanding of science and the scientific method A brief summary of the development of science is given from early Greece through the Dark Ages and into the twenty first century This history emphasizes that the development of the

scientific method originated purely in Western culture contrary to other interpretations by Islam and the Chinese It traces the origins of anti science in the United States The placebo effect an essential part of the science of medicine is clearly defined The absence of science is documented in twenty five examples of CIM from acupuncture to homeopathy from herbal medicine to aromatherapy from spiritual healing to iridology The history and the departure from science are emphasized The weakness of the literature supporting these frauds is cited as are the politics of reimbursement A section on marijuana stresses the need to take a hard look at the perils of legalization While researching the cost of unscientific health care over 40 billion I discovered quackery embedded in the system over 100 billion including fraud in the scientific literature fraud in the medical profession in Big Pharma s pricing of drugs and hospital billing fraud The extent to which legislatures are influenced by the money pharma spends on campaigns on an annual basis was tabulated It exposes the weakness of our response to the opioid crisis This book will be of interest to everyone in the United States interested in the quality of their health care The aim is not to be all inclusive but to stimulate national dialogue

Routledge Handbook of Environmental Journalism David B. Sachsman,JoAnn Myer Valenti,2020-05-14 The Routledge Handbook of Environmental Journalism provides a thorough understanding of environmental journalism around the world An increasing number of media platforms from newspapers and television to Internet social media networks are the major providers of indispensable information about the natural world and environmental risk Despite the dramatic changes in the news industry that have tended to reduce the number of full time newspaper reporters environmental journalists remain key to bringing stories to light across the globe With contributions from around the world broken down into five key regions the United States of America Europe and Russia Asia and Australia Africa and the Middle East and South America this book provides support for today s environment reporters the providers of essential news in the 21st century As a scholarly and journalistic work written by academics and the environmental reporters themselves this volume is an essential text for students and scholars of environmental communication journalism and global environmental issues more generally as well as professionals working in this vital area

Professional Feature Writing Bruce Garrison,2023-05-30 Professional Feature Writing provides an essential introduction to the basics of news media feature writing and establishes a solid foundation for students and writers making feature writing their careers This sixth edition offers a thorough and up to date look at newspapers magazines newsletters and online publications with emphasis on daily newspapers consumer magazines and online news Special attention is paid to writing skills feature story types and the collegiate and professional writing life and the text is filled with practical guidance for writing a wide variety of features drawing on insights from both junior and experienced writers editors and publishers Alongside a solid tour of forms and approaches to feature writing the author includes lists of tips observations guidelines sources and story ideas New to this edition are Three chapters covering interviewing and observation in features social media in feature writing and writing social trends features Updated international examples of feature writing

integrated throughout the text Additional and expanded discussion about writing features for online publications and the uses of social media in gathering information and reporting Increased attention to multimedia and the impact of new technologies on the industry Building on introductory writing and reporting skills this text is appropriate for upper division journalism students learning feature writing and advanced writing topics It will also serve as a valuable resource for freelance writers

Whispering the Techniques of Language: An Emotional Journey through **New Science Journalists**
