New Shorter Oxford English Dictionary Volume 2 Onl:

The Definition of Subsidy and State Aid Luca Rubini, 2009-12-24 This book presents a conceptual framework for analysing the definitions of State aid and subsidy in EC and WTO law This is done through a comparative analysis examining the coherence of the conceptual understanding of the crucial but still elusive issue of the definition of subsidy The first important finding is that the topic is not only technical but raises more fundamental questions about the objectives of subsidy control in a given legal system and more radically about the goals of that system itself The analysis does not only concentrate on the state of the law but critically looks forward offering suggestions for new interpretations and law reform The book focuses on the substantive provisions of the EC and WTO relating to what are identified by the author as the core properties of a notion of subsidy ie a form of public action the grant of an economic advantage and the ensuing impact on the competitive process The current regulation in EC and WTO law is analysed compared and assessed in depth and tested against a baseline represented by of a notion of subsidy inserted in a subsidy regulation pursuing certain objectives Drawing on the results of the comparative exercise the book argues that both systems can learn valuable lessons from each other to achieve a greater coherence and a more efficient regulatory system

Fontane and Cultural Mediation Robertson

Ritchie, White Michael, 2017-07-05 In the mid 1880s the Realist author and Anglophile Theodor Fontane observed nowhere is so much translation done as in Germany Characterizing Germany as a special locus of literary translation and reception Fontane contests a prejudice which has since become a significant problem for nineteenth century German studies namely the frequent assessment of the epoch as narrowly national The present collection of essays by thirteen eminent literary scholars and historians is intended to correct this prejudice it demonstrates that literary life and production in the nineteenth century were governed by complex networks of intercultural exchange influence and translation and it does justice to this complexity through its range of complementary critical approaches focussing on Fontane Anglo German relations translation and European reception In so doing this book not only offers a nuanced appreciation of literary production and reception in the nineteenth century but also demonstrates the continued relevance of that period for Germanists today

Dining On Turtles D. Kirkby, T. Luckins, 2007-11-13 As gentlemen of the Royal Society in London sat down to their turtle dinner in 1793 they were participating in an historical event an act simultaneously of fine dining and colonialism Feasting and drinking the

communities in which they occurred and larger themes of historical significance are explored here offering new insights into the past

Humanization of Arms Control Daniel Rietiker, 2017-07-06 Despite clear legal rules and political commitments no significant progress has been made in nuclear disarmament for two decades Moreover not even the use of these weapons has been banned to date New ideas and strategies are therefore necessary The author explores an alternative approach to arms control focusing on the human dimension rather than on States security humanization of arms control The book explores the preparatory work on arms control treaties and in particular the role of civil society It analyzes the positive experiences of the movements against chemical weapons anti personnel mines and cluster munitions as well as the recent conclusion of the Arms Trade Treaty The author examines the question of whether civil society will be able to replicate the success strategies that have been used in particular in the field of anti personnel mines Ottawa Convention and cluster munitions Oslo Convention in the nuclear weapons field Is there any reason why the most destructive weapons should not be outlawed by a legally binding instrument The book also explains the effects of weapons especially nuclear weapons on human beings the environment and global development thereby focusing on vulnerable groups such as indigenous peoples women and children It takes a broad approach to human rights including economic social and cultural rights The author concludes that the use of nuclear weapons is illegal under international humanitarian and human rights law and moreover constitutes international crimes under the Rome Statute of the International Criminal Court In his general conclusions the author makes concrete proposals for the progress toward a world without nuclear weapons

Dialogue in Early South Asian Religions Brian Black, Laurie Patton, 2016-03-09 Dialogue between characters is an important feature of South Asian religious literature entire narratives are often presented as a dialogue between two or more individuals or the narrative or discourse is presented as a series of embedded conversations from different times and places Including some of the most established scholars of South Asian religious texts this book examines the use of dialogue in early South Asian texts with an interdisciplinary approach that crosses traditional boundaries between religious traditions The contributors shed new light on the cultural ideas and practices within religious traditions as well as presenting an understanding of a range of dynamics from hostile and competitive to engaged and collaborative This book is the first to explore the literary dimensions of dialogue in South Asian religious sources helping to reframe the study of other literary traditions around the world

Günther Anders' Philosophy of Technology Babette Babich, 2021-10-21 Gunther Anders Philosophy of Technology is the first comprehensive exploration of the ground breaking work of German thinker Gunther Anders Anders philosophy has become

increasingly prescient in our digitised technological age as his work predicts the prevalence of social media ubiquitous surveillance and the turn to big data Anders oeuvre also explored the technologies of nuclear power and the biotech concerns for the human and transhuman condition which have become so central to current theory Babette Babich argues that Anders offers important resources on streaming digital media through his writings on radio television and film and is unusually both a comprehensive and profound thinker Anders relationship with key philosophers like Hannah Arendt and Walter Benjamin and his thinking on Goethe Nietzsche and Rilke is also explored with a focus on the deep impact he made on his peers It reflects specifically on the intersection of Anders thought Heidegger and the Frankfurt school and how influential a figure he was on the landscape of 20th century philosophy A compelling rehabilitation of a thinker with profound contemporary relevance

Whaling Diplomacy Alexander Gillespie, 2005-01-01 Whaling Diplomacy is the only book that addresses all of the substantive issues relating to the conservation of whales through the International Whaling Commission IWC It covers the law policy science and philosophy at the heart of each element of the debate discussing how it has developed the current problems that beset it and what is necessary for the future Together all of the issues involved in whaling form a single crucible through which the future of conservation in international environmental law is being debated Students of law politics environmental economics and philosophy will find this book of great value for its cutting edge relevance over the three disciplines Policymakers will also find it of interest for the insight into one of the most controversial conservation debates of our time **BOOK JACKET** The Soviet Passport Albert

Baiburin, 2021-11-03 In this remarkable book Albert Baiburin provides the first in depth study of the development and uses of the passport or state identity card in the former Soviet Union First introduced in 1932 the Soviet passport took on an exceptional range of functions extending not just to the regulation of movement and control of migrancy but also to the constitution of subjectivity and of social hierarchies based on place of residence family background and ethnic origin While the basic role of the Soviet passport was to certify a person s identity it assumed a far greater significance in Soviet life Without it a person literally disappeared from society It was impossible to find employment or carry out everyday activities like picking up a parcel from the post office a person could not marry or even officially die without a passport It was absolutely essential on virtually every occasion when an individual had contact with officialdom because it was always necessary to prove that the individual was the person whom they claimed to be And since the passport included an indication of the holder s ethnic identity individuals found themselves accorded a certain rank in a new hierarchy of nationalities where some ethnic categories were normal and others were stigmatized Passport systems were used by state officials for the deportation of entire population categories the so called former people those from the pre revolutionary elite and the relations of enemies of the people But at the same time passport ownership became the signifier of an acceptable social

existence and the passport itself the information it contained the photographs and signatures became part of the life experience and self perception of those who possessed it This meticulously researched and highly original book will be of great interest to students and scholars of Russia and the Soviet Union and to anyone interested in the shaping of identity in the modern world *Dispute Settlement Reports 2008: Volume 6, Pages 2011-2382* World Trade Organization,2010-05-06
