Hillard, 2014-11-01 Before the West Was West examines the extent to which scholars have engaged in depth with pre 1800 western texts and asks what we mean by western American literature in the first place and when that designation originated Calling into question the implicit temporal boundaries of the American West in literature a literature often viewed as having commenced only at the beginning of the 1800s Before the West Was West explores the concrete meaningful connections between different texts as well as the development of national ideologies and mythologies Examining pre nineteenth century writings that do not fit conceptions of the Wild West or of cowboys cattle ranching and the Pony Express these thirteen essays demonstrate that no single unified idea or geography defines the American West Contributors investigate texts ranging from the Norse Vinland Sagas and Mary Rowlandson s famous captivity narrative to early Spanish and French exploration narratives an eighteenth century English novel and a play by Aphra Behn Through its examination of the disparate and multifaceted body of literature that arises from a broad array of cultural backgrounds and influences Before the West Was West apprehends the literary West in temporal as well as spatial and cultural terms and poses new questions about westernness and its literary representation

Acts of Modernity David Buchanan, 2017-09-01 In Acts of Modernity David Buchanan reads nineteenth century historical novels from Scotland America France and Canada as instances of modern discourse reflective of community concerns and methods that were transatlantic in scope Following on revolutionary events at home and abroad the unique combination of history and romance initiated by Walter Scott s Waverley 1814 furthered interest in the transition to and depiction of the nation state Established and lesser known novelists reinterpreted the genre

to describe the impact of modernization and to propose coping mechanisms according to interests and circumstances Besides analysis of the chronotopic representation of modernity within and between national contexts Buchanan considers how remediation enabled diverse communities to encounter popular historical novels in upmarket and downmarket forms over the course of the century He pays attention to the way communication practices are embedded within and constitutive of the social lives of readers and more specifically to how cultural producers adapted the historical novel to dynamic communication situations In these ways *Acts of Modernity* investigates how the historical novel was repeatedly reinvented to effectively communicate the consequences of modernity as problem solutions of relevance to people on both sides of the Atlantic
