Modernism Leonard Diepeveen, 2013-10-18 In *The Difficulties of Modernism* Leonard Diepeveen examines how difficulty became central to our encounters with modern literature and culture Literary modernism's first readers often complained

that difficulty was running rampant in literature that art had become a plague of unintelligibility Diepeveen argues that the simultaneous appearance of modernism and discussion about difficulty was not coincidental difficulty allowed modernism to rise to the status of high art and it was fundamental to how modernism shaped the canon not only of twentieth century literature but of the literature that preceded it He argues that modernism can be best understood as the moment when knowing how to maneuver through difficult art became the central sign of one's ability to participate in high culture
