New Wars:

New Wars and New Soldiers Paolo Tripodi, Jessica Wolfendale, 2011 New military technologies the rise of private military companies and the increasing involvement of the military in counterterrorism and humanitarian operations all pose challenges to traditional ideas about the ethics of war the relevance of current international law governing armed conflict and Just War theory This book brings together experts on military ethics to discuss the changing nature of the military s role New and Old Wars Mary Kaldor, 2013-04-26 Mary Kaldor's New and Old Wars has in the contemporary world fundamentally changed the way both scholars and policy makers understand contemporary war and conflict In the context of globalization this path breaking book has shown that what we think of as war that is to say war between states in which the aim is to inflict maximum violence is becoming an anachronism In its place is a new type of organized violence or new wars which could be described as a mixture of war organized crime and massive violations of human rights The actors are both global and local public and private The wars are fought for particularistic political goals using tactics of terror and destabilization that are theoretically outlawed by the rules of modern warfare Kaldor's analysis offers a basis for a cosmopolitan political response to these wars in which the monopoly of legitimate organized violence is reconstructed on a transnational basis and international peacekeeping is reconceptualized as cosmopolitan law enforcement This approach also has implications for the reconstruction of civil society political institutions and economic and social relations This third edition has been fully revised and updated Kaldor has added an afterword answering the critics of the New Wars argument and in a new chapter Kaldor shows how old war thinking in Afghanistan and Iraq greatly exacerbated what turned out to be in many ways archetypal new wars characterised by identity politics a criminalised war economy and civilians as the main victims Like its predecessors the third edition of New and Old Wars will be essential reading for students of international relations politics and conflict studies as well as to all those interested in the changing nature and prospect of warfare

Icons of War and Terror John Tulloch, Richard Warwick Blood, 2012 This book explores the ideas of key thinkers and media practitioners who have examined images and icons of war and terror Icons of War and Terror explores theories of iconic images of war and terror not as received pieties but as challenging uncertainties in doing so it engages with both critical discourse and conventional image making The authors draw on these theories to re investigate the media global context of some of the most iconic representations of war and terror in the international risk society Among these photojournalistic images are Nick Ut s Pulitzer Prize winning photograph of a naked girl Kim Phuc running burned from a napalm attack in Vietnam in June 1972 a quintessential ethnic cleansing image of massacred Kosovar Albanian villagers at Racak on January 15 1999 which finally propelled a hesitant Western alliance into the first of the new humanitarian wars Luis Simco s photograph of marine James Blake Miller the Marlboro Man at Fallujah Iraq 2004 the iconic toppling of the World Trade Centre towers in New York by planes on September 11 2001 and the Falling Man icon one of the most controversial

images of 9 11 the image of one of the authors of this book as close up victim of the 7 7 terrorist attack on London which the media quickly labelled iconic This book will be of great interest to students of media and war sociology communications studies cultural studies terrorism studies and security studies in general New and Old Wars Mary Kaldor, 1999 Since 1989 and the breakup of the Soviet Union both the threat of nuclear war and the threat of large scale interstate conventional war have receded Yet during the 1990s millions have died in wars in Africa Eastern Europe and Asia and millions more have become refugees from war torn regions In this pathbreaking book the author argues that in the context of globalization what we think of as war war between states in which the aim is to inflict maximum violence is becoming an anachronism In its place is a new type of organized violence which she calls new wars a mixture of war organized crime and massive violations of human rights The actors are both global and local public and private These wars are fought for particular political goals using tactics of terror and destabilization that are theoretically outlawed by the rules of modern warfare an informal criminalized economy is built into the functioning of these new wars The author asserts that political leaders and international institutions have been unable to deal with the spread of these wars mainly because they have not come to terms with their logic wars are treated either as old wars or as anarchy Her analysis offers a basis for a cosmopolitan political response to these wars in which the monopoly of legitimate organized violence is reconstructed on a transnational basis and international peacekeeping is reconceptualized as cosmopolitan law enforcement. The author shows how this approach has profound implications for the reconstruction of civil society political institutions and economic and social relations

Rethinking Insecurity, War and Violence Damian Grenfell, Paul James, 2008-07-25 Rethinking Insecurity War and Violence Beyond Savage Globalization is a collection of essays by scholars intent on rethinking the mainstream security paradigms Overall this collection is intended to provide a broad and systematic analysis of the long term sources of political military and cultural insecurity from the local to the global The book provides a stronger basis for understanding the causes of conflict and violence in the world today one that adds a different dimension to the dominant focus on finding proximate causes and making quick responses Too often the arenas of violence have been represented as if they have been triggered by reassertions of traditional and tribal forms of identity primordial and irrational assertions of politics Such ideas about the sources of insecurity have become entrenched in a wide variety of media sources and have framed both government policies and academic arguments Rather than treating the sources of insecurity as a retreat from modernity this book complicates the patterns of global insecurity to a degree that takes the debates simply beyond assumptions that we are witnessing a savage return to a bloody and tribalized world It will be of particular interest to students and scholars of international relations security studies gender studies and globalization studies

Globalization East and West Bryan S Turner, Habibul Haque Khondker, 2010-04-14 Do we confuse globalization for Americanization What are the distinctive elements in the interplay of the local and the global This book examines globalization from the perspective of both the West and the East It considers

globalization as a general social and economic process and the challenges it presents for Western social science The meaning of a global perspective is explored through various concrete examples religion migration medicine terrorism global disasters citizenship multiculturalism media and popular culture <u>Chechnya</u> Richard Sakwa,2005-04-15 Chechnya from Past to Future creates a historical framework against which the most pressing issues raised by the Chenchen struggle are considered including the rights and wrongs of Chechen secessionism the role of Islamic and Western international agencies in defending human rights the conduct of the war changing perceptions of the war against the backdrop of international terrorism democracy in Chechnya itself and the uncertain fate of democracy in Russia as a whole **Violent Societies** C. Steenkamp,2014-10-15 This book investigates the relationships between political violence social violence and economic violence using examples from South Africa Northern Ireland Lebanon and Syria It examines the cultural impact of war and argues that a culture of violence can explain the high levels of violence which are frequently found in post war societies

African Realism? Errol A. Henderson, 2015-03-19 African Realism explains Africa's international conflicts of the post colonial era through international relations theory It looks at the relationship between Africa's domestic and international conflicts as well as the impact of factors such as domestic legitimacy trade and regional economic institutions on African wars Further it examines the relevance of traditional realist assumptions e g balance of power the security dilemma to African international wars and how these factors are modified by the exigencies of Africa's domestic institutions such as neopatrimonialism and inverted legitimacy This study also addresses the inconsistencies and inaccuracies of international relations theory as it engages African international relations and especially its military history **Security Studies** Paul D. Williams, 2012-05-23 Security Studies is the most comprehensive textbook available on security studies Comprehensively revised for the new edition including new chapters on Polarity Culture Intelligence and the Academic and Policy Worlds it continues to give students a detailed overview of the major theoretical approaches key themes and most significant issues within security studies Part 1 explores the main theoretical approaches currently used within the field from realism to international political sociology Part 2 explains the central concepts underpinning contemporary debates from the security dilemma to terrorism Part 3 presents an overview of the institutional security architecture currently influencing world politics using international regional and global levels of analysis Part 4 examines some of the key contemporary challenges to global security from the arms trade to energy security Part 5 discusses the future of security Security Studies provides a valuable teaching tool for undergraduates and MA students by collecting these related strands of the field together into a single coherent textbook Contributors Richard J Aldrich Deborah D Avant Sita Bali Michael N Barnett Alex J Bellamy Didier Bigo Pinar Bilgin Ken Booth Barry Buzan Stuart Croft Simon Dalby John S Duffield Colin Elman Louise Fawcett Lawrence Freedman James M Goldgeier Fen Osler Hampson William D Hartung Michael Jensen Adam Jones Danielle Zach Kalbacher Stuart J Kaufman Michael T Klare Peter Lawler Matt McDonald Colin McInnes Cornelia Navari Michael Pugh Paul R Pillar

Srinath Raghavan Paul Rogers Waheguru Pal Singh Sidhu Joanna Spear Caroline Thomas Thomas G Weiss Nicholas J Wheeler Sandra Whitworth Paul D Williams Phil Williams and Frank C Zagare Civilian Casualties in War Barbara Krasner, 2018-07-15 According to UNICEF the number of civilian casualties in war climbed from 5 percent at the turn of the twentieth century to more than 90 percent at the end of that century Additionally the current war against ISIS has racked up a staggering number of civilian deaths including children The days when professional armies fought in contained areas are long gone having been replaced by drone strikes neighbors shooting at neighbors from apartment windows and massacres in rural villages. The viewpoints in this resource examine this byproduct of modern war and explore strategies for reducing **Understanding Boko Haram** James J. Hentz, Hussein Solomon, 2017-05-08 The primary objective of civilian casualties this book is to understand the nature of the Boko Haram insurgency in northeast Nigeria Boko Haram's goal of an Islamic Caliphate starting in the Borno State in the North East that will eventually cover the areas of the former Kanem Borno Empire is a rejection of the modern state system forced on it by the West The central theme of this volume examines the relationship between the failure of the state building project in Nigeria and the outbreak and nature of insurgency At the heart of the Boko Haram phenomenon is a country racked with cleavages making it hard for Nigeria to cohere as a modern state Part I introduces this theme and places the Boko Haram insurgency in a historical context There are however multiple cleavages in Nigeria ethnic regional cultural and religious and Part II examines the different state society dynamics fuelling the conflict Political grievances are common to every society however what gives Boko Haram the space to express such grievances through violence Importantly this volume demonstrates that the insurgency is in fact a reflection of the hollowness within Nigeria s overall security Part III looks at the responses to Boko Haram by Nigeria neighbouring states and external actors For Western actors Boko Haram is seen as part of the global war on terror and the fact that it has pledged allegiance to ISIS encourages this framing However as the chapters here discuss this is an over simplification of Boko Haram and the West needs to address the multiple dimension of Boko Haram This book will be of much interest to students of terrorism and political violence insurgencies African politics war and conflict studies and IR in general Global Problems, Global Solutions JoAnn Chirico, 2024-03-08 A global look at social problems using the UN s 2030 Agenda for Sustainable Development as a framework Leashing the Dogs of War Chester A Crocker, Fen Osler Hampson, 2007 The definitive volume on the sources of contemporary conflict and the array of possible responses to it **Uniting Africa** David J. Francis, 2017-05-15 Plagued by bloody wars and armed conflicts political instability communal violence and displaced persons and at the mercy of natural catastrophes such as drought and famine it is not surprising that the Western press has long dismissed Africa as the hopeless continent In the face of these challenges Africa today is faced with a stark choice either unite or perish The debate on why and how the continent should unite in terms of co operative peace security and development is more urgent than at any other time in Africa's post colonial history Moving forward from the failure of the

earlier typically idealistic Africa unity project David Francis demonstrates how peace and security challenges have created the imperative for change He argues that a series of regional peace and security systems are emerging and that states that have participated in practical experiments in regional peacekeeping peace support operations conflict stabilization management and preventive diplomacy are building de facto systems of peace and security that could be institutionalized and extended The War Lawyers Craig Jones, 2020-11-26 Over the last 20 years the world's most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders These professionals trained and hired to give legal advice on an array of military operations have become known as war lawyers. The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza Drawing on interviews with military lawyers and others this book explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked whether by manned aircraft drones and or ground forces and with what results This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable contending that the involvement of war lawyers in targeting operations enables legitimises and sometimes even extends military violence *Rethinking the Nature of War* Isabelle Duyvesteyn, Jan Angstrom, 2005 Have globalization virulent ethnic differences and globally operating insurgents fundamentally changed the nature of war in the last decade Interpretations of war as driven by politics and state rationale formulated most importantly by the 19th century practitioner Carl von Clausewitz have received strong criticism Political explanations have been said to fall short in explaining conflicts in the Balkans Africa Asia and the attacks of 11 September 2001 in the United States This book re evaluates these criticisms not only by scrutinising Clausewitz s arguments and their applicability but also by a careful reading of the criticism itself In doing so it presents empirical evidence on the basis of several case studies addressing various aspects of modern war such as the actors conduct and purposes of war A Theory of Catastrophe Bryan S. Turner, 2023-05-08 Sociology has developed theories of social change in the fields of evolution conflict and modernization viewing modern society as essentially unstable and conflict driven However it has not seriously studied catastrophe A Theory of Catastrophe develops a sociology of catastrophes comparing natural social and political causes and consequences and the social theories that might offer explanations A catastrophe is a general and systematic breakdown of social and political institutions resulting among other things in what we could call a catastrophe consciousness The Greek cata strophe formed the conclusion to a dramatic sequence of strophes The cata strophe was the final act of a drama namely its denouement Catastrophic denouements are without hope genocides military occupations plagues famines and earthquakes A Theory of Catastrophe analyzes Pompeii the Black Death colonial genocide in North America WWI and the

Spanish Flu and Nazi Germany and finally this century terrorism new wars climate change and pandemics As a study of sociological theory Bryan Turner discusses Spengler's Decline of the West Marxism as a theory of catastrophic capitalism messianic movements Weber on modernity and risk society He concludes by comparing optimism and pessimism and the idea **International Conflict Management** Michael J. Butler, 2009-05-07 This new textbook of inter generational justice provides students with an accessible overview of the logic evolution application and outcomes of the five major approaches of the growing field of international conflict management traditional peacekeeping peace enforcement and support operations negotiation and bargaining mediation adjudication. The book aims to provide the student with a fuller understanding of the strengths and weaknesses of these five techniques within the dynamic context of the contemporary security environment especially in relation to recent and ongoing case studies of inter-state and intra-state conflict. To demonstrate the changing nature of security in the post Cold War world the text contrasts this with competing visions of security during the Cold War and earlier periods and provides numerous points of comparison with the dominant causes types strategy and prosecution of warfare in other eras International Conflict Management will be essential reading for all students of conflict management mediation peacekeeping peace and conflict studies and international security in general Michael J Butler is an Assistant Professor in the Department of Government and International Relations at Clark University USA On Small War Sibvlle Scheipers, 2018-02-09 Carl von Clausewitz has long been interpreted as the paradigmatic thinker of major interstate war This book challenges this assumption by showing that Clausewitz was an ardent analyst of small war and integrated many aspects of his early writings on partisan warfare and people s war into his magnum opus On War It reconstructs Clausewitz s intellectual development by placing it in the context of his engagement with the political and philosophical currents of his own times German Idealism Romanticism and Humanism The central question that Clausewitz and his contemporaries faced was how to defend Prussia and Europe against Napoleon's expansionist strategy On the one hand the nationalization of war that had occurred as a result of the French Revolution could only be countered by drawing the people into the defence of their own countries On the other this risked a descent into anarchy and unchecked terror as the years 1793 and 1794 in France had shown Throughout his life Clausewitz remained optimistic that the institution of the Prussian Landwehr could achieve both an effective defence of Prussia and a social and political integration of its citizens Far from leaving behind his early advocacy of people s war Clausewitz integrated it systematically into his mature theory of war People s war was war in its existential form it risked escalating into absolute war However if the threat of defensive people s war had become a standard option of last resort in early nineteenth century Europe it could also function as a safeguard of the balance of power
