The Bible and Catholic Ressourcement: Essays on Scripture and Theology William M. Wright IV, 2019-09-12 The essays in this collection all concern the interpretation of Scripture in relation to the Catholic Ressourcement A theological renewal movement that began in the early twentieth century the Ressourcement movement centered on a return to the sources such as Scripture the Church Fathers and liturgy The point of such a return was to discover in these sources the wisdom truth and spiritual insight which could speak meaningfully to contemporary challenges William M Wright first focuses on three major Ressourcement figures Henri de Lubac Yves Congar and Joseph Ratzinger and considers aspects of their theological thinking about Scripture or how Scripture is employed as a theological resource Next Wright examines Benedict XVI's *Jesus of Nazareth* books showing how they put into practice for a general readership many of the theological insights characteristic of the Ressourcement movement Last Wright considers how the theological insights of the Ressourcement movement can be used to as a resource for the interpretation of Scripture He uses characteristic Ressourcement concerns such as the relationship between the testaments the theology of history and liturgy to help illumine the biblical text Wright not only provides substantive examination of the place of the Bible in this important theological movement but also shows how the insights of the Ressourcement can be helpful for the interpretation of Scripture today

Introduction to Phenomenology Robert Sokolowski, 2000 Introductory volume presenting the major

philosophical doctrines of phenomenology Categories Michael Gorman, Jonathan J. Sanford, 2004-11 This volume addresses the subject of categories What are they How are they used in speaking and thinking What role do they play in our moral deliberations Why are there different sorts of categories And are categories independent of our thinking and speaking giving objective form to the world we aim to think and speak about These and other questions concerning categories have been part of philosophy from the very beginning and they raise foundational issues in metaphysics epistemology ethics and other branches of philosophy Yet pursuing answers to these questions has proven difficult because investigations into categories push us to the very limits of what we can know The essays in this volume written by a mix of well established and younger philosophers bridge divides between historical and systematic approaches in philosophy as well divides between analytical continental and American traditions They offer new interpretations of Aristotle Confucius Aquinas Buridan Kant Pierce Husserl and Wittgenstein and they challenge received views on normativity the value of set theory the objectivity of category schemes and other topics This volume the first to offer a comprehensive examination of the subject challenges mainstream positions on category theory It will be of particular interest to philosophers and others concerned with how the world is divided ABOUT THE EDITORS Michael Gorman is assistant professor of philosophy at the Catholic University of America Jonathan J Sanford is assistant professor of philosophy at Franciscan University of Steubenville THE CONTRIBUTORS In addition to the editors Michael Gorman and Jonathan J Sanford the contributors are C Wesley DeMarco Dagfinn Føllesdal Newton Garver Jorge J E Gracia Carl Hausman Helen Lang William E McMahon Timothy S Quinn May Sim Barry Smith Robert Sokolowski Eleonore Stump Mariam Thalos and David Weissman PRAISE FOR THE BOOK All of the essays in this collection are new written especially for this volume Many of them do a wonderful job of showing the similarities and differences between the major thinkers on the nature of categories This book will serve as a valuable and informative tool to the specialist and non specialist alike Lloyd Newton *Review of Metaphysics* *Phenomenology in a New Key: Between Analysis and History* Jeffrey Bloechl, Nicolas de Warren, 2015-01-19 In this collection of essays the sophistication and vibrancy of contemporary phenomenological research is documented including both its engagement with key figures in the history of philosophy and with critical problems defining future directions of philosophical investigations It honors the writings of Richard Cobb Stevens whose work in phenomenological philosophy analytic philosophy and the history of philosophy has served as model for generations of philosophers working between these three fields of research The essays collected in this volume provide a unique window on the contemporary state of the art in phenomenological philosophy by leading scholars of international reputation from North America and Europe Historical figures such as Aristotle and Hobbes are innovatively brought into dialogue with phenomenological thinking Phenomenological thinking is brought to bear on a wide variety of problems from the nature of artworks and photography to questions concerning consciousness and knowledge Among the topics discussed in these specially commissioned essays phenomenology and Aristotle the nature of the primal

Sokolowski,2008-05-12 In this book Robert Sokolowski argues that being a person means to be involved with truth He shows that human reason is established by syntactic composition in language pictures and actions and that we understand things when they are presented to us through syntax Sokolowski highlights the role of the spoken word in human reason and examines the bodily and neurological basis for human experience Drawing on Husserl and Aristotle as well as Aquinas and Henry James Sokolowski here employs phenomenology in a highly original way in order to clarify what we are as human agents

Gadamer's Hermeneutics Robert J. Dostal,2022-01-15 In Gadamer s Hermeneutics Robert J Dostal provides a comprehensive and critical account of Hans Georg Gadamer s hermeneutical philosophy arguing that Gadamer s enterprise is rooted in the thesis that being that can be understood is language He defends Gadamer against charges of linguistic idealism and emphasizes language s relationship to

understanding though he criticizes Gadamer for too often ignoring the role of the prelinguistic in our experience Dostal goes on to explain the concept of the inner word for Gadamer's account of language The book situates Gadamer's hermeneutics in three important ways in relation to the contestability of the legacy of the Enlightenment project in relation to the work of his mentor Martin Heidegger and in relation to Gadamer's reading of Plato and Aristotle Dostal explores both Gadamer's claim on the Enlightenment and his ambivalence toward it He considers Gadamer's dependence on Heidegger's accomplishment while pointing out the ways in which Gadamer charted his own course rejecting his teacher's reading of Plato and his antihumanism Dostal points out notable differences in the philosophers' politics as well Finally Dostal mediates between Gadamer's hermeneutics and what might be called philological hermeneutics His analysis defends the civic humanism that is the culmination of the philosopher's hermeneutics a humanism defined by moral education common sense judgment and taste Supporters and critics of Gadamer's philosophy will learn much from this major achievement

Phenomenology of the Icon Stephanie Rumpza, 2023-08-31 How can something finite mediate an infinite God Weaving patristic theology art history aesthetics and religious practice with the hermeneutic phenomenology of Hans George Gadamer and Jean Luc Marion Stephanie Rumpza proposes a new answer to this paradox by offering a fresh and original approach to the Byzantine icon She demonstrates the power and relevance of the phenomenological method to integrate hermeneutic aesthetics and divine transcendence notably how the material and visual dimensions of the icon are illuminated by traditional practices of prayer Rumpza's study targets a problem that is a major fault line in the continental philosophy of religion the integrity of finite beings in relation to a God that transcends them For philosophers her book demonstrates the relevance of a cherished religious practice of Eastern Christianity For art historians she proposes a novel philosophical paradigm for understanding the icon as it is approached in practice

Miravalle, 2018-10-18 God and fictional objects are central topics within philosophy but rarely do the respective discussions overlap Until now the two fields have remained independent Applying the debate about fictional objects to issues of theology for the first time John Mark L Miravalle bridges these two fields and presents a new approach to notions of God creatures and existence Miravalle explains why meinongianism which holds that certain things can serve as intentional objects with properties even though they do not exist can facilitate talk of nonexistence better than other metaphysical viewpoints such as platonism modal realism and pretense theory He identifies points of connection between theology and nonexistents and uses meinongianism to buttress the cosmological and ontological arguments for God s existence As a result he is able to explore fresh solutions to problems of classical theism from the necessary existence of God and creation ex nihilo to free will and the problem of evil By revealing how a particular

account of fictional objects is especially harmonious with and supportive of the major claims of traditional theism Miravalle makes a major contribution to theistic metaphysics
