Research Memorandum on the Family in the Depression Samuel A. Stouffer, Paul Felix Lazarsfeld, Abram J. Jaffe (démographe.), 1937 **Census of Population, 1960**, 1963 **Research Memorandum on the Family in the Depression** Samuel Andrew Stouffer, 1972 **Motherhood in Black and White** Ruth Feldstein, 2018-09-05 The apron clad white stay at home mother Black bus boycotters in Montgomery Alabama Ruth Feldstein explains that these two enduring yet very different images of the 1950s did not run parallel merely by ironic coincidence but were in fact intimately connected What she calls gender conservatism and racial liberalism intersected in central yet overlooked ways in mid twentieth century American liberalism *Motherhood in Black and White* analyzes the widespread assumption within liberalism that social problems ranging from unemployment to racial prejudice could be traced to bad mothering This relationship between liberalism and motherhood took shape in the 1930s expanded in the 1940s and 1950s and culminated in the 1960s Even as civil rights moved into the mainstream of an increasingly visible liberal agenda images of domineering black matriarchs and smothering white moms proliferated Feldstein draws on a wide array of cultural and political events that demonstrate how and why mother blaming furthered a progressive anti racist agenda From the New Deal into the Great Society bad mothers black or white were seen as undermining American citizenship and as preventing improved race relations while good mothers responsible for raising physically and psychologically fit future citizens were held up as a precondition to a strong democracy By showing how ideas about gender roles and race relations intersected in films welfare policies and civil rights activism as well as in the assumptions of classic works of social science *Motherhood in Black and White* speaks to questions within women s history African American history political history and cultural history Ruth Feldstein analyzes representations of black women and white women as well as the political implications of these representations She brings together race and gender culture and policy vividly illuminating each *Paul F. Lazarsfeld, An Empirical Theory of Action* Christian Fleck, Nico Stehr, 2025-11-18 This book provides a critical introduction to the key writings of Paul Lazarsfeld 1901 1976 edited by two prominent sociologists It includes Lazarsfeld s early work on youth and occupation which shows the intellectual influences of Austro Marxism academic psychology and the philosophy of the Vienna Circle and how they were applied to specific social issues They also show how Lazarsfeld s concerns about the intellectual and methodological aspects of sociology which foreshadowed some of the major issues in current sociological methods played an important role in shaping the direction of the discipline in the United States The essays demonstrate how Lazarsfeld laid many of the foundations for reliable social survey techniques and qualitative methods for understanding key aspects of contemporary society Some examples of these aspects are voting studies opinion polling occupational research and mass media research Lazarsfeld s early work in administrative research laid the groundwork for a lot of market and business research The essays in this book are accompanied by a detailed and illuminating biographical introduction by the editors This collection is an

important addition to the history of 20th century sociology It is also the only English language source of Paul Lazarsfeld's early writings *Regulating the Lives of Women* Mimi Abramovitz, 2025-09-23 In the fourth edition of *Regulating the Lives of Women* Social Welfare Policy from Colonial Times to the Present Abramovitz traces how the welfare state regulated the lives of women from colonial times to the present Drawing on important feminist concepts social reproduction the gender division of labor and patriarchy Abramovitz successfully exposes the gendered and racialized myths and stereotypes built into welfare state programs The book carefully explains the contextual conditions that contributed to the precursors of the modern welfare state its rise and expansion after World War II and the recent neoliberal effort to dismantle the cash assistance programs most likely to lift women out of poverty This edition marks the most extensive overhaul to date It revises the conceptual and background chapters discusses cash assistance programs and considers emerging ideas such as the role of economic crises in the development of the US welfare state It also considers the future of the welfare state under the second Trump Presidency *Regulating the Lives of Women* is an essential resource for all students of social work sociology history political science public policy and gender studies *Domestic Revolutions* Steven Mintz, Susan Kellogg, 1989-04-03 An examination of how the concept of family has been transformed over the last three centuries in the U S from its function as primary social unit to today's still evolving model Based on a wide reading of letters diaries and other contemporary documents Mintz an historian and Kellogg an anthropologist examine the changing definition of family in the United States over the course of the last three centuries beginning with the modified European model of the earliest settlers From there they survey the changes in the families of whites working class immigrants and middle class and blacks slave and free since the Colonial years and identify four deep changes in family structure and ideology the democratic family the companionate family the family of the 1950s and lastly the family of the 80s vulnerable to societal changes but still holding together

Contemporary Marriage Kingsley Davis, 1986-08-20 This fascinating symposium is based on an assumption that no longer seems to need justification that the institution of marriage is today experiencing profound changes But the nature of those changes their causes and consequences is very much in need of explication The experts contributing to this volume bring a wide range of perspectives sociological anthropological economic historical psychological and legal to the problem of marriage in modern society Together these essays help illuminate a form of relationship that is both vulnerable and resilient biological and social a reflection of and an influence on other social institutions

Contemporary Marriage begins with an important assessment of the revolution in marital behavior since World War II tracing trends in marriage age cohabitation divorce and fertility The focus here is primarily on the United States and on industrial societies in general Later chapters provide intriguing case studies of particular countries There is a recurrent interest in the impact on marriage of modernization itself but a number of essays probe influences other than industrial development such as strong cultural and historical patterns or legislation and state control Beliefs and expectations about marriage are explored and human sexuality and gender roles are also considered as factors in the nature of marriage

Contemporary Marriage offers a rich spectrum of approaches to a problem of central importance The volume will reward an equally broad spectrum of readers interested in the meaning and future of marriage in our society
