Transforming the Face of Depression & Anxiety (Kivler Communications) Carol Kivler, 2011-04-05 Blessed with a loving family a successful business as an executive coach and money in the bank Carol Kivler was suddenly and unexpectedly brought to her knees by The Beast clinical depression The story of her journey to recovery from medication resistant depression is not only informative but inspires hope in others who suffer from this debilitating illness Kivler's book is written for multiple audiences especially individuals who are suffering from major depression and their loved ones It is also for health care providers who often make the difference between giving up and recovery for those suffering from mental illness Her Courageous Recovery Wellness Model provides a roadmap for recovery while addressing the misconceptions and stigma associated with depression Major depression is not an attitude It is not a personality dysfunction It is not a flaw in character It is not laziness or a call for attention It is not hurt feelings or a reaction to a bump in the road It is not contagious Depression is not something that can be brought on or fought off by self will Depression is not something to be ashamed of And most importantly it is not something that should be ignored Left untreated serious depression can be life crippling and even lead to death by suicide Because medication did not work for her and despite serious reservations Kivler eventually agreed to ECT electroconvulsive therapy or shock therapy The treatment not only gave her back the desire to live but the ability to thrive in her personal and professional life Electroconvulsive therapy became her ladder out of the depression pit Much of Kivler's apprehension toward ECT was based on stigma and misinformation Say the words shock therapy to ten people and nine of them will respond with the movie title One Flew Over the Cuckoo's Nest The movie made in 1975 won five academy awards but left a wretched taste in our mouths about ECT That movie as well as The Snake Pit made in 1945 both depict earlier developments of the treatment not the modernized procedure that provides relief to countless patients every day Unfortunately they have left a deep impression on society that ECT is not only painful barbaric and inhumane but something to be ashamed of In her opinion the stigma associated with ECT deprives severely depressed individuals the right to potential recovery Consequently the section of her book on Demystifying ECT provides accurate up to date information about today's modernized procedure answers common questions such as Does it hurt No and discusses possible side effects which Kivler found to be no worse than those from medication In addition the success rate of ECT according to the American Psychiatric Association is 80 percent This is considerably higher than 45 to 50 percent success rate of most anti depressants

Plus the effects of ECT are generally felt as early as the third or fourth treatment while medications can take as long as six weeks to take effect *Will I Ever Be the Same Again* puts the face of hope on depression providing information and inspiration to reach beyond the myths and stigma surrounding ECT and mental illness It was an Award Winning Finalist in the Health Psychology Mental Health category of the Best Books 2010 Awards sponsored by USA Book News Kivler's book was also awarded Finalist Self Help Category 2011 Next Generation Indie Book Awards *Home Will Never Be the Same Again* Carol R. Hughes, Bruce R. Fredenburg, 2020-06-22 Adult children are often overlooked and forgotten when their parents divorce later in life but in these pages they will find comfort and understanding for the many feelings frustrations and challenges they face For more than two decades a silent revolution has been occurring and creating a seismic shift in the American family and families in other countries It has been unfolding without much comment and its effects are being felt across three to four generations more couples are divorcing later in life Called the gray divorce revolution the cultural phenomenon describes couples who divorce after the age of 50 Overlooked in the issues that affect couples divorcing later in life are the adult children of divorcing parents Their voices open this book and they are the voices of men and women 18 to 50 years old Some of them are single some are married Some have children of their own All of them are in different stages of shock fear and sudden dramatic change In *Home Will Never Be the Same A Guide for Adult Children of Gray Divorce* Carol Hughes and Bruce Fredenburg share their deep understanding gained during the innumerable hours they have spent with these women and men in their clinical practices The result is a valuable resource for these too often forgotten adult children many of whom find that whenever they express their feelings and experiences the most important people in their lives frequently ignore and dismiss them As the divorce rate for older adults soars so too does the number of adult children who are experiencing parental divorce Yet these adult children frequently say that they are the only ones who are aware of what they are going through no one understands what they are experiencing and they feel painfully alone **The Essential LDS**
