siddhesh chindarkar , People have a wide range of beliefs and attitudes about death Some may view it as a natural part of life while others may fear it Many religious or spiritual beliefs involve an afterlife while others view death as the end of consciousness Some people may find comfort in knowing that death is a release from suffering while others may find solace in the idea of being reunited with loved ones who have passed away Grief and mourning are common reactions to the death of a loved one and people may also experience feelings of fear anxiety or uncertainty about their own mortality Ultimately people s thoughts and feelings about death are deeply personal and can be influenced by a variety of factors including culture religion and individual life experiences Invisible Footprints in Time? Irwin Wislesky,2020-02-01 Maxine Samuels is a research scientist who is driven to answer a single burning question why has humanity s spiritual connection to a higher power practically disappeared Furthermore what will happen if this connection can t be restored As she examines her world for an answer she realizes that power fear greed corruption and shame have been used throughout history to control people and to prevent them from connecting to the oneness of the world This is the cause of all the conflict anger war and strife we observe and will eventually lead to the demise of humanity However she strongly believes that a flicker of spirituality still exists She hopes to fan it into flame before it goes out and humanity is lost in the dark Maxine is certain that the keys to the future lie in the past She engineers a means to time travel by combining modern science with spirituality and then travels back to places where humanity lost its way She hopes to use this knowledge to nudge civilization back into spiritual alignment in the present The deeper she delves into these mysteries the more she begins to wonder if it s possible to travel to the past without leaving any footprints and she realizes she may be in danger of irreversibly altering the very future that she is trying to save At the same time she realizes that others may already be traveling to the past but with a desire to change things for their own benefit Mirror of the Eye Bob Frank,2013-10-13 Mirror of the Eye concludes the Third Eye Trilogy with continued switchbacks turns and action all the way to the end A twist leads Clay and Shali in a totally different direction with the regression protocols Gaining experience from the past they discover new ways to combat the Illuminati like organization that has been trying to destroy them and their work for years The dichotomy of their quest not only counters

Inner Paths to Outer Space Rick Strassman,Slawek Wojtowicz,Luis Eduardo Luna,Ede Frecska,2008-03-27 An investigation into experiences of other realms of existence and contact with otherworldly beings Examines how contact with

alien life forms can be obtained through the inner space dimensions of our minds Presents evidence that other worlds experienced through consciousness altering technologies are often as real as those perceived with our five senses Correlates science fiction s imaginal realms with psychedelic research For thousands of years voyagers of inner space spiritual seekers shamans and psychoactive drug users have returned from their inner imaginal travels reporting encounters with alien intelligences Inner Paths to Outer Space presents an innovative examination of how we can reach these other dimensions of existence and contact otherworldly beings Based on their more than 60 combined years of research into the function of the brain the authors reveal how psychoactive substances such as DMT allow the brain to bypass our five basic senses to unlock a multidimensional realm of existence where otherworldly communication occurs They contend that our centuries old search for alien life forms has been misdirected and that the alien worlds reflected in visionary science fiction actually mirror the inner space world of our minds The authors show that these alien worlds encountered through altered states of human awareness either through the use of psychedelics or other methods possess a sense of reality as great as or greater than those of the ordinary awareness perceived by our five senses
