variety of people dogs other animals sounds and environments at an early age A socialized Keeshond is a happier more confident dog and less prone to hypersensitivity to loud and or unfamiliar sounds Keeshonds in particular are naturally cautious and sensitive to loud and or unfamiliar sounds so its imperative that you devote plenty of time to the socialization process from an early age The process of socializing your Keeshond should begin by introducing him to many different people One trick is to ask strangers to pet him and offer a small treat that you give them The people you introduce your puppy to should also include well behaved children although such interactions should always be properly supervised
