### **Sampling Inspection Tables Single Doub:**

**Sampling Inspection Tables** Harold F. Dodge, Harry G. Romig, 1959 The sampling inspection tables presented in this book were developed for use in the manufacture of communication apparatus and equipment for the Bell Telephone System. It assembles under one cover the three papers of original publication and adds a brief introduction. The papers have been reproduced with no modifications but the material has been rearranged in chapters. Chapter 1 outlines some of the factors to be considered in setting up inspection plans and develops a basis for minimizing the amount of inspection. Chapter 2 covers double sampling, the average outgoing quality limit (AOQL) concept and the mathematical background of the tables. Chapter 3 is a reproduction by permission which outlines the shop procedures for applying the tables. Sampling Inspection Tables. Single and Double Sampling. (Second Printing.). Harold French DODGE (and ROMIG (Harry Gutelius)), 1945 **Sampling Inspection Tables** Harold French Dodge, Harry Gutelius Romig, 1944 **Sampling Inspection** Columbia University. Statistical Research Group, 1948 Handbook of Cellular Manufacturing Systems Shahrukh A. Irani, 1999-04-15 Cellular manufacturing (CM) is the grouping of similar products for manufacture in discrete multi-machine cells. It has been proven to yield faster production cycles, lower in-process inventory levels, and enhanced product quality. Pioneered on a large scale by Russian, British, and German manufacturers, interest in CM methods has grown steadily over the past decade. However, there continues to be a dearth of practical guides for industrial engineers and production managers interested in implementing CM techniques in their plants. Bringing together contributions by an international team of CM experts, the Handbook of Cellular Manufacturing Systems bridges this gap in the engineering literature. **MATERIALS MANAGEMENT** DATTA, A.
