Turkish Art of Illumination Mine Esiner Ozen,2020-01-01 Before printing books were written with reed pens using black ink and Arabic letters on papers that were polished with ahar Mixture made with cornstarch and egg white for polishing the paper and m hre a device made of glass used to make paper smooth and shiny Important ones were written in beautiful writing H sn i Hat and embellished with illuminations marblings engravings and miniatures The books prepared in such artistic ways were generally given to Padishahs lady sultans and notable people of the time and were dedicated to libraries founded by those who are interested in books Manuscript libraries that contain the old waqf libraries are today centres of illumination examples However it is not that easy for people who would like to see the examples of specific time or illuminator since a catalogue system has not been made yet It is often not allowed to get pictures from manuscripts because it will give damage to the books Therefore students are not able to see as many examples as they like or they need Illumination is the name given to the embellishments which are made with paints and gold of manuscript books Consequently the art of illumination started to disappear as printing came into our country School of Calligraphers Medreset l Hattat n which was set up in 1914 put the arts of manuscript books into action again The aim of this book is to constitute a collection of precious examples chosen from unique manuscripts for the learners of illumination All photos in the book were taken at Suleymaniye Library In order to reach this goal the text is meant to be short and examples are chosen from the works most of which have copying dates listed and they are chosen especially from the Seljuk Beylik and Ottoman periods Collection name of the book from which the example is taken and its recording number name of the book and writer if any outer measure copying date page number name of its illuminator or miniature house if known and appropriate short information about it are written under the pictures We hope this album of Turkish Illumination Art in which we tried to give as many examples as possible will be beneficial especially for students The book also offers techniques and space for practising
