Sanctions Beyond Borders Multinational Corporations And U S Economic Statecraft:

Sanctions Beyond Borders Kenneth Aaron Rodman, 2001 Rodman government Colby College examines the use of sanctions from the early Cold War era through the 1990s including the Helms Burton Law and the Iran Libya Sanctions Act. He argues that sanctions are weak and costly measures that damage diplomatic relations particularly when used to prevent key multinational corporations from undertaking economically significant transactions with proscribed nations. Courts without Borders Tonya L. Putnam, 2016-08-04 *Courts without Borders* is the first book to examine the politics of judicial extraterritoriality with a focus on the world's chief practitioner the United States. For much of the post World War II era the United States has been a frequent yet selective regulator of activities outside its territory and US federal courts are often on the front line in deciding the extraterritorial reach of US law. At stake in these jurisdiction battles is the ability to bring the regulatory power of the United States to bear on transnational disputes in ways that other states frequently dislike both in principle and in practice. This volume proposes a general theory of domestic court behavior to explain variation in extraterritorial enforcement of US law emphasizing how the strategic behavior of private actors is important to mobilizing courts and in directing their activities.

US Economic Statecraft for Survival, 1933-1991 Alan P. Dobson, 2002-04-25 This study explains how US policy makers crafted and used instruments of economics statecraft against states that posed vital threats to the survival of the USA.

East Asia and Iran Sanctions Shirzad Azad, 2022-05-17 This book explores how international sanctions on Iran reshaped the contours of East Asia's interactions with the Middle Eastern state. Almost all East Asian political entities from the industrialized and developed nations of Japan and South Korea to the communist and developing countries of China and North Korea have become major international partners of Iran over the past several decades. In addition, East Asian states were by and large thought to be among leading foreign beneficiaries of Iran sanctions and the overall impacts of sanctions in transforming both the scope and size of their rather multifaceted connections to the Middle Eastern country have been consequential. Despite its significance, academic studies about this topic have remained sparse and scattered. This book aims to partially fill that research lacuna by surveying all relevant information and data available in the archives of several languages including Chinese, English, Japanese, Korean, and Persian. While the book strives to cover the entire sanctions period, most of the analysis focuses on the past one and a half decades when Iran came under the severest sets of international sanctions. It was during this particular time period that international quandary over the Iranian nuclear program led to a slew of far-reaching penalties and stringent restrictions levied against Iranians by the United Nations and the United States. These recent waves of international sanctions and limitations transformed many quintessential characteristics of East Asia's interactions with Iran. Such sanctions induced critical developments and changes; moreover, they are bound to play an instrumental role in the direction and volume of exchanges between East Asian states and Iran in the coming years and decades.

Well-Oiled Diplomacy Adam N. Stulberg, As a window into understanding the relationship between globalization and the pursuit of national security, Adam N. Stulberg examines Russia's mixed success at leveraging energy advantages in Eurasia from 1992 to 2002. Stulberg supplements traditional analyses of statecraft by highlighting indirect market and regulatory mechanisms for altering the behavior of foreign and subnational actors as well as by demonstrating the usability of soft power and global networks. The power of this new theory of strategic manipulation is illustrated in several case studies, including Russia's successful natural gas diplomacy toward Turkmenistan and Kazakhstan, Russia's troubled oil diplomacy toward Azerbaijan and Kazakhstan, and Russia's mixed success with commercial nuclear diplomacy toward Kyrgyzstan and Kazakhstan.

The Russia-Ukraine War from an African Perspective Artwell Nhemachena, 2023-09-30 In the Russia-Ukraine war, attention has been focused on the Special Military Operation. This book argues that there are many other special operations in various other arenas in the world that deserve equal and urgent attention. Connecting special military operations to what it calls special economic operations, special cultural operations, special technological operations, special sexual operations, and special political operations, the book argues that special operations are not exclusive. Also drawing on topical debates about technoscience, the book critically examines invasive technologies in relation to bodily autonomy.

China and Iran Readjust Relations Shirzad Azad, 2024-01-16 The conclusion of the multilateral agreement about the Iranian nuclear issue in June 2015 was widely predicted to accelerate both the scope and size of commercial interactions between China and Iran As a result the two countries talked about the prospect of increasing their bilateral commerce from less than 50 billion to 600 billion within a short period of time Later Beijing and Tehran moved to sign a 25 year strategic agreement partly to achieve that critical objective The American withdrawal from the nuclear deal under the Trump administration in May 2018 however put a halt to the rosy trade prospect of 600 billion between China and Iran The contentious 25 year pact laid in the limbo in the wake of the crippling regime of international sanctions in which Washington spearheaded against Iran upon quitting the Joint Comprehensive Plan of Action Shirzad Azad argues how China's overall commercial relationship with Iran has turned out to be unusually asymmetrical and lopsided over the past several years In some areas Sino Iranian business partnership surprisingly dwindled to a trickle while in several other fields the presence of Chinese brands and technological expertise in Iran unexpectedly reached an all time high

Targeting Peace Mikael Eriksson, 2016-04-01 In recent years the international community has increasingly come to abandon the use of comprehensive sanctions in favour of targeted sanctions Unlike adopting a coercive strategy on entire states actors like the United Nations UN and the European Union EU have come to resort to measures that are aimed at individuals groups and government members Targeted sanctions involve adopting measures such as asset freezes travel bans commodity sanctions as well as arms embargoes Eriksson argues that recent changes in the practice of sanctions from comprehensive to targeted sanctions requires a new
