Sanctity Of Life Doctrine In Medicine A Critique:

The Sanctity-of-life Doctrine in Medicine Helga Kuhse,1987 Examining and refuting the sanctity of life view in medical decision making Kuhse argues for a quality of life ethic based on the belief that there is a profound difference between merely being alive and life being in the patient's interest

Sanctity of Life and Human Dignity K. Bayertz,2012-12-06 Sanctity of life and human dignity are two bioethical concepts that play an important role in bioethical discussions Despite their separate history and content they have similar functions in these discussions In many cases they are used to bring a difficult or controversial debate to an end They serve as unquestionable cornerstones of morality as rocks able to weather the storms of moral pluralism This book provides the reader with analyses of these two concepts from different philosophical professional and cultural points of view Sanctity of Life and Human Dignity presents a comparative analysis of both concepts

Terminal Sedation: Euthanasia in Disguise? Torbjörn Tännsjö,2004-06-01 TERMINAL SEDATION DURING THE 1990s During the 1990s a discussion took place in scholarly journals concerning a measure within palliative care that had earlier attracted little attention to wit the sedation of dying patients There seem to have been two main reasons why the practice came under debate On the one hand some people felt that when palliative medicine had advanced and methods to control symptoms had improved it was no longer justified to sedate the patients in a manner that had often been done in the past The system of 1 terminal sedation had turned into euthanasia in disguise or slow euthanasia On the other hand there were people sympathetic to the recently established Dutch system of euthanasia people who agreed that terminal sedation was euthanasia in disguise but who felt that if it is not objectionable to sedate dying patients at their request then why should it not be permitted for doctors to kill dying patients at 2 request From these two motives a discussion about terminal sedation gained momentum The intention behind this anthology is to continue and deepen this discussion The anthology starts off with a chapter where an influential article from the 1990s has been reprinted

Is Death Ever Preferable to Life? Ian Olver,2013-06-29 This is an original contribution to the much debated area of the value that we should place on human life With the euthanasia issue highlighted in the public arena this book argues for a non absolutist highest value on life ethic and how that fits with society's current emphasis on individual autonomy Not only are the arguments for and against placing a highest value on life explored but the way of arguing particularly the use of slippery slopes is discussed By the use of everyday examples the impact of placing a high value on life is explored A futuristic intensive care ward round illustrates the ethical and resource issues with which we would be challenged in adopting a highest value on life policy for medical decisions This book will be useful for students of ethics nursing and medicine as well as those engaged in the public debate on euthanasia

Bioethics Megan-Jane Johnstone,2019-05-31 Written by Australia's foremost nursing ethics scholar Bioethics A Nursing Perspective comprehensively addresses the ethical challenges obligations and responsibilities nurses will encounter in practice With a strong emphasis on the principles and standards of human rights and social justice the 7th

edition examines the spectrum of bioethical issues in health care with a focus on patients rights cross cultural ethics vulnerability ethics mental health ethics professional conduct patient safety and end of life ethics Coverage of the moral terrain of everyday practice including Codes of Ethics and Codes of Conduct End of life care directives and legislation Moral disengagement Prejudice discrimination and vulnerable populations Elder abuse and child abuse Future nursing ethics challenges Case scenarios and critical questions to encourage reflection on key issues in practice Additional resources on Evolve eBook on VitalSource Concepts and Measurement of Quality of Life in Health Care L.Y Nordenfelt,2013-11-11 Questions concerning the notion of quality of life its definition and its applications for purposes of assessment and measurement in social and medical contexts have been widely discussed in Scandinavia during the last ten years To a great extent this discussion mirrors the international development in the area Several methods for the assessment and measurement of quality of life have been borrowed from the UK and the US and then further developed in northern Europe But there has also been an internal development This holds in particular for the social arena where Scandinavia has had a special tradition both in theory and practice In this volume an attempt is made to illustrate some aspects of the philosophical and in general theoretical discussion concerning quality of life in Scandinavia In addition some prominent scholars from other parts of Europe i e France the Netherlands the UK and Italy have been invited to contribute The volume is divided into three sections The first contains philosophical analyses of the general notion of quality of life and proposes a number of different explications The second section considers various applications of the notion of quality of life in health care The papers serve to disentangle some intellectual and ethical problems that stem from these applications The third section is more practical and focuses on methods of measuring quality of life in medicine and health care Practical Ethics Peter Singer,1993-01-29 First published in 1979 *Personal Identity as a Principle of Biomedical Ethics* Michael Quante,2017-05-24 This book brings together the debate concerning personal identity in metaphysics and central topics in biomedical ethics conception of birth and death autonomy living wills and paternalism Based on a metaphysical account of personal identity in the sense of persistence and conditions for human beings conceptions for beginning of life and death are developed Based on a biographical account of personality normative questions concerning autonomy euthanasia living wills and medical paternalism are dealt with By these means the book shows that personal identity has different meanings which have to be distinguished so that human persistence and personality can be used to deal with central questions in biomedical ethics A Time to Die Charles F. McKhann,2000-07-11 An examination of the dying process as it is experienced in painful and debilitating diseases from the point of view of the sufferers and their families The author considers the idea of assisted suicides and also reflects on religious moral and legal issues involved in someone's death *A Companion to Bioethics* Helga Kuhse,Peter Singer,2013-04-16 This second edition of A Companion to Bioethics fully revised and updated to reflect the current issues and developments in the field covers all the material that the reader needs to thoroughly grasp the ideas

and debates involved in bioethics Thematically organized around an unparalleled range of issues including discussion of the moral status of embryos and fetuses new genetics life and death resource allocation organ donations AIDS human and animal experimentation health care and teaching Now includes new essays on currently controversial topics such as cloning and genetic enhancement Topics are clearly and compellingly presented by internationally renowned bioethicists A detailed index allows the reader to find terms and topics not listed in the titles of the essays themselves *Killing and Letting Die* Bonnie Steinbock, Alastair Norcross, 2024-10-22 Available in a new digital edition with reflowable text suitable for e readers This collection contains twenty one thought provoking essays on the controversies surrounding the moral and legal distinctions between euthanasia and letting die Since public awareness of this issue has increased this second edition includes nine entirely new essays which bring the treatment of the subject up to date The urgency of this issue can be gauged in recent developments such as the legalization of physician assisted suicide in the Netherlands how to manuals topping the bestseller charts in the United States and the many headlines devoted to Dr Jack Kevorkian who has assisted dozens of patients to die The essays address the range of questions involved in this issue pertaining especially to the fields of medical ethics public policymaking and social philosophy The discussions consider the decisions facing medical and public policymakers how those decisions will affect the elderly and terminally ill and the medical and legal ramifications for patients in a permanently vegetative state as well as issues of parent infant rights The book is divided into two sections The first Euthanasia and the Termination of Life Prolonging Treatment includes an examination of the 1976 Karen Quinlan Supreme Court decision and selections from the 1990 Supreme Court decision in the case of Nancy Cruzan Featured are articles by law professor George Fletcher and philosophers Michael Tooley James Rachels and Bonnie Steinbock with new articles by Rachels and Thomas Sullivan The second section Philosophical Considerations probes more deeply into the theoretical issues raised by the killing letting die controversy illustrating exceptionally well the dispute between two rival theories of ethics consequentialism and deontology It also includes a corpus of the standard thought on the debate by Jonathan Bennet Daniel Dinello Jeffrie Murphy John Harris Philipa Foot Richard Trammell and N Ann Davis and adds articles new to this edition by Bennett Foot Warren Quinn Jeff McMahan and Judith Lichtenberg **Ethics of Procreation and the Defense of Human Life** Martin

Rhonheimer, 2010-02 A rigorous philosophical analysis of some of the most disputed questions in Catholic sexual ethics

Personhood and Health Care David C. Thomasma, David N. Weisstub, Christian Hervé, 2013-04-17 PERSONHOOD AND HEALTH CARE This book arose as a result of a pre conference devoted to the topic held June 28 1999 in Paris France The pre conference preceded the Annual Congress of the International Academy of Law and Mental Health Other chapters were solicited after the conference in order to more completely explore the relation of personhood to health care The pre conference was held in honor of Yves Pelicier who led so many of our French colleagues in medicine philosophy and ethics as Christian Herve notes in his Tribute As health care is aimed at healing persons it is important to realize how difficult it is to

construct a theory of personhood for health care and thus a theory of how healing in health care comes about or ought to occur The book is divided into four parts Concepts of the Person Theories of Personhood in Relation to Health Care and Bioethics Person and Identity and Personhood and His Relations Each section explores a critical arena in constructing the relation of personhood to health care Although no exploration of this nature can be exhaustive every effort was made to present both conflicting and complementary views of personhood from within similar and different philosophical and religious traditions PART ONE CONCEPTS OF THE PERSON Tracing the origins of the concept of person from antiquity through present day Jean Delemeau provides an historical sketch of the development of a wide range of meanings

Voluntary Euthanasia and the Common Law Margaret Otowski,1997 Margaret Otowski investigates the complex and controversial issue of active voluntary euthanasia She critically examines the criminal law prohibition of medically administered active voluntary euthanasia in common law jurisdictions and carefully looks at the situation as handled in practice The evidence of patient demands for active euthanasia and the willingness of some doctors to respond to patients requests is explored and an argument for reform of the law is made with reference to the position in the Netherlands where active voluntary euthanasia is now openly practiced

The Contribution of Natural Law Theory to Moral and Legal Debate Concerning Suicide, Assisted Suicide, and Euthanasia Craig Paterson,2010-05-13

[The Contribution of Natural Law Theory to Moral and Legal Debate Concerning Suicide, Assisted Suicide, and Voluntary Euthanasia](#) Craig Paterson,2001

Writings on an Ethical Life Peter Singer,2015-04-14 The essential collection of writings by one of the most visionary and daring philosophers of our time Since bursting sensationally into the public consciousness in 1975 with his groundbreaking work Animal Liberation Peter Singer has remained one of the most provocative ethicists of the modern age His reputation built largely on isolated incendiary quotations and outrage of the moment news coverage has preceded him ever since Aiming to present a more accurate and thoughtful picture of Singer s pioneering work Writings on an Ethical Life features twenty seven excerpts from some of his most lauded and controversial essays and books The reflections on life death murder vegetarianism poverty and ethical living found in these pages come together in a must read collection for anyone seeking a better understanding of the issues that shape our world today This ebook features an illustrated biography of Peter Singer including rare photos from the author s personal collection

Euthanasia, Ethics and the Law Richard Huxtable,2007-11-20 Euthanasia Ethics and the Law argues that the law governing the ending of life in England and Wales is unclear confused and often contradictory It shows that the rules are in competition because the ethical principles underlying them are so diverse and conflicting This book covers topics including the Diane Pretty litigation Lord Joffe s Assisted Dying for the Terminally Ill Bill the advent of death tourism and the real status of involuntary and passive euthanasia in English law

Law, Palliative Care and Dying John Lombard,2018-05-16 Law Palliative Care and Dying critically examines the role of the legal framework in shaping the boundaries of palliative care practice The work underlines the importance of a distinct

legal framework for specialist palliative care which can provide clarity for both the healthcare professional and the patient It examines the legal and ethical justifications for specialist palliative care practices and in doing so it questions the legitimacy of the distinction between euthanasia and practices such as palliative sedation Moreover this work discusses the influence of a human rights discourse on palliative care and examines the contribution of autonomy dignity and the right to palliative care This book includes detailed comparative research on several European jurisdictions The jurisdictions illustrate varied approaches to palliative care regulation and promotion In this manner the role of professional guidelines and legislation are drawn out and common themes in the regulation of palliative care emerge
