Sanctuary Arbours Experience Of Alternative Community Care:

Therapeutic Communities for Psychosis John Gale, Alba Realpe, Enrico Pedriali, 2013-12-16 *Therapeutic Communities for Psychosis* offers a uniquely global insight into the renewed interest in the use of therapeutic communities for the treatment of psychosis as complementary to pharmacological treatment. Within this edited volume contributors from around the world look at the range of treatment programmes on offer in therapeutic communities for those suffering from psychosis. Divided into three parts, the book covers the historical and philosophical background of therapeutic communities and the treatment of psychosis in this context; treatment settings and clinical models; alternative therapies and extended applications. This book will be essential reading for all mental health professionals targeting readers from a number of disciplines including psychiatry, psychology, social work, psychotherapy and group analysis.

Psychosis Jane Ellwood, 1995. Bringing together a number of pioneering thinkers and workers in the field of psychosis, this book provides an interrogation of official theories surrounding schizophrenia and examines the range of ways in which psychosis can be thought about and worked with. The first part of the book, which deals with the meaning of psychosis, presents papers on the development of psychosis from historical, social, theoretical and emotional perspectives. It explains current psychoanalytical ideas of the meaning of psychosis and looks at the ways in which psychoanalytic theorists have found meaning in the communications of psychotic patients. The more clinically oriented papers in the second part of the book focus on the treatment of psychosis. These describe ongoing work in therapeutic settings with people diagnosed as being schizophrenic, as well as the effects on staff working with psychotic patients. This is an encouraging and stimulating book for students and professionals in the field of psychosis who often feel isolated in their efforts to understand their patients.

Sanctuary Joseph H. Berke, Chandra Masoliver, Thomas J. Ryan, 1995-01-01. *Sanctuary* is not simply a physical place of safety. It is a state of mind. Since its foundation in 1970, the Arbours Association has been providing sanctuary for people in great emotional turmoil without their having to be seen, called or treated as mentally ill. It has grown to include three residential communities, a crisis centre, a psychotherapy service and psychotherapy training programme. This collection commemorates 25 years of work of the Arbours. It includes historical accounts and reflections by therapists, students and residents about this highly original approach to providing refuge within specialised therapeutic communities for people in severe distress.

Beyond Madness Joseph H. Berke, 2002. A major question facing therapists today is how to treat psychosis effectively while maintaining patients' dignity, self-respect and their psychological and social functioning. This book provides important and engaging accounts of the special personal and interpersonal care offered by the Arbours Crisis Centre and kindred facilities.
