

A misty mountain landscape with a cabin and autumn foliage. The scene is shrouded in a thick, grey mist. In the foreground, there are dense evergreen trees. In the middle ground, a small wooden cabin with a chimney is visible, surrounded by trees with vibrant autumn foliage in shades of orange, red, and yellow. The background shows more forested mountain peaks fading into the mist.

Silence is the sanctuary of  
prudence.

In the Shape of a Boar Lawrence Norfolk, 2012-06-30 One of the year's most imaginative and challenging novels from the acclaimed author of John Saturnall's Feast Kirkus Reviews starred review Lawrence Norfolk's In the Shape of a Boar is a juggernaut of a novel an epic tour de force of love and betrayal ancient myths and modern horrors The story begins in the ancient world of mythic Greece where a dark tale of treachery and destructive love unfolds amid the hunt for the Boar of Kalydon a tale that will reverberate in those same hills across the millennia in the final chaotic months of World War II as a band of Greek partisans pursues an SS officer on a mission of vengeance After the war a young Jewish Romanian refugee Solomon Memel who was among the hunters will create a poem based on the experience which becomes an international literary sensation But the truth of what happened in the hills of Kalydon in 1945

is more complicated than it seems and as the older Sol reunites with his childhood love in 1970s Paris the dark memories and horrors of those days will emerge anew An epic achievement stitching together classical Greek culture and twentieth century barbarism the nature of human evil and the ambiguity of storytelling itself Dazzling San Francisco Chronicle Brilliant and exhaustively researched In the Shape of a Boar is a Herculean task accomplished with bravado and style but more than that it s storytelling of the highest echelon The Hartford Courant Wonderfully complex a fascinating story built from layered narrative lines The Washington Post Book World

**Blessing the World** Derek A. Rivard,2009 Blessings were an integral and vital element of medieval Christian life and worship Benedictions for homes and workplaces the knight and the pilgrim the city under siege and the fetus in the womb are but a small sample of the multitudinous and fascinating extra sacramental blessings that fill the leaves of the liturgical books of the medieval Latin Church While commonly acknowledged as a crucial element in the life of medieval people the meaning and importance of these blessings for their authors and audiences have been frequently overlooked by liturgical and historical scholarship which has focused instead on the textual transmission and long term changes in the blessings and the rituals surrounding them This present work corrects this omission by examining these blessings with modern eyes and a new methodology In Blessing the World Derek A Rivard studies liturgical blessing and its role in the religious life of Christians during the central and later Middle Ages with a particular focus on the blessings of the Franco Roman liturgical tradition from the tenth to late thirteenth centuries Through a careful and extensive study of more than ninety such blessings many of them translated for

the first time and accessible to a readership beyond specialists in medieval liturgy the author argues that medieval blessings were composed as a direct response to the needs anxieties beliefs and fears of the laity and therefore these texts represent a rich and largely untapped source for the study of lay piety and of ritual in medieval Europe Effectively drawing upon anthropology ritual studies the phenomenology of religion and traditional textual study Rivard explores the rich themes of medieval piety that flow throughout the blessings in order to produce a new understanding of the blessing as an attempt to tap the power of the sacred for use in daily life Benedictions for spaces places persons items and events are each studied in turn to produce this new understanding of these blessings and in the process these petitions and rituals reveal much about larger issues of medieval people s cosmology their perceived role in their cosmos their conceptions of God and their connections to the divine and to the spiritual powers of God s creation ABOUT THE AUTHOR Derek A Rivard is associate professor of history at Cottey College PRAISE FOR THE BOOK *Blessing the World* analyzes the texts of dozens of these blessings in order to explore how medieval Christians conceived of God and their own place within sacred history This textual focus is the book s strength and the author provides English translations of blessings from the tenth to the sixteenth centuries including the original Latin in footnotes thereby making available to readers a rich source of these materials Kathleen Kamerick *The Medieval Review* Rivard s study of medieval blessing rituals sheds helpful light on the ways that medieval churchmen and their flocks viewed their relationship to God to nature and to their society James A Brundage *Church History*
