**Putting Storytelling at the Heart of Early Childhood Practice** Tina Bruce, Lynn McNair, Jane Whinnett, 2020-04-22 Putting Storytelling at the Heart of Early Childhood Practice is a brilliantly engaging and practical book that highlights the essential nature of storytelling in all walks of life and how to best cultivate this in the early years classroom The authors use a compelling Froebelian approach to explore the role of storytelling not just in the development of literacy but also in the development of communication and language and for maintaining good mental health and wellbeing Drawing on primary and contemporary research and presented by a range of experienced authors this book covers important topics such as The benefits of regularly practising storytelling Storytelling during play activities Group dynamics in constructing narratives The roles of props and fantasy concepts in storytelling This accessible guide is ideal for all early years practitioners looking to encourage literacy communication and well being in a supportive and creative environment and for policymakers looking to develop best practice in the early years classroom

Terra-Sorta-Firma Fadi Masoud, 2021-05-15 A critical and interdisciplinary exploration of our world's continuously urbanizing and expanding coastline. For centuries, cities have grown and expanded onto previously saturated grounds, reclaiming land from estuaries, marshes, mangroves, and seabeds. While these artificial coastlines are sites of tremendous real estate, civic, and infrastructural investments, they are also the most vulnerable to the effects of climate change. *Terra Sorta Firma* documents the global extent of reclaimed coastal lands and provides a framework for comparison across varying geographies, cultures, and histories. It renders visible the ubiquity and precarity of urban coastal reclamation in an age of increased environmental and economic indeterminacy. It challenges designers, developers, policymakers, engineers, and urbanists to reconsider the design and construction of land itself and to re-imagine this most fundamental of all infrastructures along a gradient of inundation.

**Nature Crime** Rosaleen Duffy,2010-08-31 The perilous state of endangered species such as tigers and rhinos and the worldwide illegal trade in ivory diamonds bushmeat and many other rare and valuable commodities are familiar issues in the West The heroes in these narratives are those who work to create protected areas for wildlife the villains the shadowy poachers and smugglers who destroy endangered animals and their habitats for the sake of profit In this groundbreaking book Rosaleen Duffy argues that the story is much more complex than this She analyses the workings of the black market wildlife industry pointing out that illegal trading is often the direct result of Western consumer desires from coltan for mobile phones to caviar for the global elite She looks at how tourists contribute often unwittingly to the destruction of natural environments Most strikingly she argues that the imperatives of Western style conservation often result in serious injustice to local people who are at risk of losing not only their land but sometimes even their lives The result of many years of first hand research this book is essential reading for anyone who wants to understand the complex realities of nature conservation Jacket
