Martin Taylor, 2014-12-15 The book describes how the three East Asian writing systems Chinese Korean and Japanese originated developed and are used today Uniquely this book 1 examines the three East Asian scripts and English together in relation to each other and 2 discusses how these scripts are and historically have been used in literacy and how they are learned written read and processed by the eyes the brain and the mind In this second edition the authors have included recent research findings on the uses of the scripts added several new sections and rewritten several other sections They have also added a new Part IV to deal with issues that similarly involve all the four languages scripts of their interest The book is intended both for the general public and for interested scholars Technical terms listed in a glossary are used only when absolutely necessary      *Area Handbook for Japan* Donald P.
