Santa Letras Hispanicas:

Letras Hispánicas: identidad y género. Lilia Granillo Vázquez, Milagro Martín Clavijo, 2022-05-25 Nuestro punto de partida a la hora de lanzar este volumen era el de la necesidad de reflexionar desde la literatura y a partir de ella desde otros campos científicos como la filosofía la antropología la psicología la pedagogía la sociología la historia sobre la construcción de la identidad femenina La idea era la de presentar un panorama que con un hilo conductor común las letras hispanicas se mostrara con toda la variedad que le caracteriza una identidad femenina polidrica que parte fundamentalmente de la reflexión de las propias autoras sobre sí mismas y sobre las demás mujeres y por tanto más allá del prisma masculino que ha relatado mayoritariamente a la mujer Queramos constatar cómo fundamentalmente en el siglo XX y XXI aunque en el volumen contamos con algunos ejemplos de pocas anteriores escritoras desde ambos lados del Atlántico se van liberando de un relato hegemónico patriarcal limitado a pocos modelos femeninos para abrirse a una construcción de la identidad femenina mucho más dinámica y menos subordinada al hombre

Mujer y género en las letras hispánicas Rafael M. Mérida Jiménez, 2009 El libro se consagra a un doble ámbito de investigación los estudios sobre las mujeres y sobre los géneros sexuales Mujeres hombres feminidad masculinidad sexualidad y erotismo son algunos de los temas que aborda el monográfico a lo largo de sus catorce artículos y a través de obras de diferentes literaturas en lengua española desde la Edad Media hasta nuestro presente más inmediato

Santa Teresa Dr. Martina Bengert, Iris Roebeling-Grau, 2019-07-15 Even prior to her widely observed 500th anniversary Teresa of Ávila 1515-1582 was already considered one of the most important authors of occidental mysticism This volume gathers together contributions from a multitude of disciplines to explore the writings and reception of the Spanish author and saint Previously disregarded lines of tradition are explored for a new understanding of her oeuvre which is examined here with special regard to the potential to affect its readers Teresa proves to not only be an accomplished but also a very literary writer Santa Teresa proves to be a figure of cultural memory and the diffusion of her thinking is traced up to the present whereby a recurrent focus is put on the phenomenon of ecstasy Part of the widespread resonance of her work is the image of the iconic saint whose emergence as an international phenomenon is presented here for the first time The volume is closed by an interview with Marina Abramović answering four questions about Teresa

Inscribing the Environment Connie Scarborough,2013-03-22 Ecocriticism as a theoretical model has primarily been used in the study of Romantic post Romantic and contemporary literary texts Applications of the concepts to medieval literature however are a fairly recent phenomenon This book examines key canonical works from medieval Spain showing how descriptions of the natural world in these texts are informed by both the authors' perceptions of the environment and

established literary models *La lengua literaria mexicana*: Rafael Olea Franco, 2019-10-11 Este libro desea examinar desde la literatura uno de los periodos nodales del dilatado proceso de nuestra formaci n nacional los usos literarios de la lengua en el crucial lapso que va desde los inicios del siglo XIX hasta principios del XX el cual coincide con la Independencia consumada y la Revoluci n en gran medida en esta etapa se forj el M xico del siglo pasado tanto en sus aspectos sociales como en los ling sticos *Bibliografía de la literatura hispánica* José Simón Díaz, 1983 **Saints and Signs** Massimo Leone, 2010-08-31 Saints and Signs analyzes a corpus of hagiographies paintings and other materials related to four of the most prominent saints of early modern Catholicism Ignatius of Loyola Philip Neri Francis Xavier and Therese of Avila Verbal and visual documents produced between the end of the Council of Trent 1563 and the beginning of the pontificate of Urban VIII 1623 are placed in their historical context and analyzed through semiotics the discipline that studies signification and communication in order to answer the following questions How did these four saints become signs of the renewal of Catholic spirituality after the Reformation How did their verbal and visual representations promote new Catholic models of religious conversion How did this huge effort of spiritual propaganda change the modern idea of communication The book is divided into four sections focusing on the four saints and on the particular topics related to their hagiologic identity early modern theological debates on grace Ignatius of Loyola cultural contaminations between Catholic internal and external missions Philip Neri the Christian identity in relation to non Christian territories Francis Xavier the status of women in early modern Catholicism Therese of Avila **Santa Rosa de Santa María** Domingo Angulo, 1917 Miracles and Wonders in the Middle Ages and Early Modern Period Albrecht Classen, 2025-10-20 Despite the assumption that we live today in a rather rationalist and mechanized world there remain many aspects that neither medicine nor physics can fully explain The Catholic Church continues to pronounce individuals as saints because scientifically confirmed miracles are associated with them If we want to gain a solid understanding of the pre modern history of mentality emotions and everyday culture it proves to be highly revealing to examine what miracles and wonders had meant at that time both in the theological and medical field in the visual arts and literature As a matter of fact people both in the East and in the West have consistently flocked to pilgrimage sites all over the world in the hope that a miracle might happen and solve issues for them The contributors to this volume based on a symposium at the University of Arizona May 2024 approach this critically important topic from many different perspectives taking us from the early Middle Ages to the early modern age examining hagiographical medical literary and alchemical texts discussing both miracles and wonders as relevant themes in the public discourses Both the passage through Inferno and Purgatorio as the crucial pathway toward Paradiso and the experience of women s miraculous conception are identified as deeply impactful for the pre modern world and this both in Christian and Muslim cultures Studying miracles and wonders through a kaleidoscope of different materials and concepts makes it possible to gain a closer understanding of people s mindsets power structures and the debate between medicine and religion These topics were also

greatly important in other cultures as several papers on Arabic medieval literature indicate Further pursuing this global issue we recognize easily that the separation line between the Middle Ages and the early modern period is only a modern construct and often not that helpful because the discourse on miracles and wonders has continued and influences even us today El teatro en tiempos de Isabel y Juana (1474 -1517) Felipe B.
