Committee on Government Operations. Permanent Subcommittee on Investigations,1974 Mental Disability And the European Convention on Human Rights Peter Bartlett,Oliver Lewis,Oliver Thorold,2007 Mental disability has come of age as a subject of concern under the European Convention on Human Rights It was only in 1979 that the first significant decision of the ECHR was decided on the subject and after that cases were relatively few for many years It is only recently that this has begun to change This volume provides an account of where the law currently stands and speculation as to how it may develop The initial chapters deal with substantive aspects of Convention rights including issues of detention in institutions conditions within institutions medical treatment problems associated with guardianship and others The final two chapters move to discuss the practicalities of litigation The book concludes with a number of appendices primarily the primary international legal materials of relevance to mental disability rights under the ECHR and the relevant recommendations and principles from the Council of Europe It is hoped that this volume in addition to shedding light on where the law currently stands will offer practical guidance to lawyers concerning the mechanics of representing people with mental disabilities Secure Lives Annie Bartlett,2016 Though institutional care for people suffering from mental illness was phased out in the last century mentally disordered offenders remain the exception to this rule This book is a unique study of life in a high security hospital **Handbook of Evidence-Based Inpatient Mental Health Programs for Children and Adolescents** Jarrod M. therapists and other professionals in developmental clinical child developmental and school psychology social work public health child and adolescent psychiatry family studies pediatrics and all related disciplines **Surveillance Practices and Mental Health** Suki Desai, 2021-12-30 This book examines how CCTV cameras expose the patient body inside the mental health ward especially the relationship between staff and patients as surveillance subjects A key aspect of the book is that existing surveillance literature and mental health literature have largely ignored the influence of CCTV cameras on patient and staff experiences inside mental health wards Research findings for this book suggest that camera use inside mental health wards is based on a perception of the violent nature of the mental health patient This perception not only influences ethical mental health practice inside the ward but also impacts how patients experience the ward It is not known how and why CCTV camera use has expanded to its uses inside mental health wards These include not only communal areas of the ward but also patient bedrooms The research therefore examines how and why camera technology was introduced inside three Psychiatric Intensive Care Mental Health Units located in England UK Aimed at both undergraduate and postgraduate students this book will appeal to sociology mental health and surveillance studies students as well as practitioners in mental health nursing caseworkers and social caregivers **Clinical Psychiatry and the Law** Robert I.
