## **Second Coming An Exposition Of The Secon:**

*The Antichrist and the Second Coming* Duncan W. McKenzie, 2012-04 What if the commonly held beliefs concerning the Antichrist are mistaken The Antichrist and the Second Coming looks at the Antichrist and the Second Advent of Christ from a preterist i e past fulfillment perspective and provides a unified interpretation of the little horn the prince to come the king of the North the man of lawlessness and the beast This is the second in a two volume set on the Antichrist it focuses on the book of Revelation This edition stands on its own and is recommended reading even if you have not read the first volume which focuses on Daniel and 2 Thessalonians McKenzie shows how the Antichrist was ultimately a spiritual ruler from the abyss Rev 11 7 that worked through Titus in his three and a half year destruction of the Jewish nation AD 67 70 cf Dan 9 26 This spirit of Antichrist was about to come out of the abyss in the first century Rev 17 8 NASB and was destroyed by the Second Advent of Jesus in AD 70 a spiritual event Continue reading to see how McKenzie convincingly makes the biblical case for this fascinating and controversial position and what it means for us today Dr Duncan McKenzie is a licensed psychologist Ph D in psychology who lives in Los Angeles California He has been studying Bible prophecy for the past twenty five years and has been researching and writing this two volume set for the last twelve years *The Burning Bush* Edward Reaugh Smith, 1997-07 Even more significant for Christianity in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner s works Virtually unavailable until the end of the twentieth century English translations from the German archives are gradually coming into print Both Steiner and his works have thus far been virtually unknown in traditional theological circles No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy Now ten years after first encountering a written comment about Rudolf Steiner Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner The result is the first Bible commentary in the light of anthroposophic insight This is the first volume of a series of Bible commentary by the author It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century Bible commentaries have always reflected the general line of thinking of their authors However the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here A large part of *The Burning Bush* is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork A major assumption indulged in most Bible commentaries that one can go directly to portions dealing with given passages of scripture and understand what is being said about them does not fit

**An Exposition of Matthew Twenty-four** ,1890      **The Comprehensive Commentary on the Holy Bible:**

**Acts-Revelation** William Jenks, 1839      The Dynamics of Narrative Form John Pier, 2011-03-01 By redefining established topics of narratology research has become highly diversified The contributions to this volume neither synthesize developments nor work from shared postulates but represent a fresh look at ongoing issues Some scrutinize focalisation in a

linguistic framework or in a poststructuralist vein others take on reliable and unreliable narration in a pronominal perspective or the unaddressed reader who upsets the tidy schemes of narrative communication Also outlined are a possible worlds approach to narrative time a systematic treatment of metanarrative and a transgeneric application of narratology to poetry The sequential ordering of narratives as a way of controlling reader response is examined in one article and in another is seen to elicit intertextual configurations Both divergent and complementary the contributions seek to integrate into narratological categories and methods the dynamic processes of narrative itself
