Second Conquest Of Latin America:

The Second Conquest of Latin America Steven C. Topik, Allen Wells, 2010-02-01 Between 1850 and 1930 Latin America's integration into the world economy through the export of raw materials transformed the region. This encounter was nearly as dramatic as the conquistadors' epic confrontation with Native American civilizations centuries before. An emphasis on foreign markets and capital replaced protectionism and self-sufficiency as the hemisphere's guiding principles. In many ways the means employed during this period to tie Latin America more closely to western Europe and North America resemble strategies currently in vogue. Much can be learned from analyzing the first time that Latin Americans embraced export-led growth. This book focuses on the impact of three key export commodities: coffee, henequen, and petroleum. The authors concentrate on these rather than on national economies because they illustrate more concretely the interaction between the environment, natural and human resources, and the world economy. By analyzing how different products spun complex webs of relationships with their respective markets, the essays in this book illuminate the tensions and contradictions found in the often conflictive relationship between the local and the global, between agency and the not-so-invisible hand. Ultimately, the contributors argue that the results of the second conquest were not one-sided as Latin Americans and foreigners together forged a new economic order, one riddled with contradictions that Latin America is still attempting to resolve today. **The**

Second Conquest of Latin America Steven Topik, Allen Wells, 1998 Between 1850 and 1930 Latin America's integration into the world economy through the export of raw materials transformed the region. This encounter was nearly as dramatic as the conquistadors' epic confrontation with Native American civilizations centuries before. An emphasis on foreign markets and capital replaced protectionism and self-sufficiency as the hemisphere's guiding principles. In many ways the means employed during this period to tie Latin America more closely to western Europe and North America resemble strategies currently in vogue. Much can be learned from analyzing the first time that Latin Americans embraced export-led growth. This book focuses on the impact of three key export commodities: coffee, henequen, and petroleum. The authors concentrate on these rather than on national economies because they illustrate more concretely the interaction between the environment, natural and human resources, and the world economy. By analyzing how different products spun complex webs of relationships with their respective markets, the essays in this book illuminate the tensions and contradictions found in the often conflictive relationship between the local and the global, between agency and the not-so-invisible hand. Ultimately, the contributors argue that the results of the second conquest were not one-sided as Latin Americans and foreigners together forged a new economic order, one riddled with contradictions that Latin America is still attempting to resolve today. Routledge Handbook of Latin America and the Environment Beatriz Bustos, Salvatore Engel-Di Mauro, Gustavo García-López, Felipe Milanez, Diana Ojeda, 2023-05-31 The Routledge Handbook of Latin America and the Environment provides an in-depth and accessible analysis and theorization of environmental issues in the region. It will help readers make connections between

Latin American and other regions perspectives experiences and environmental concerns Latin America has seen an acceleration of environmental degradation due to the expansion of resource extraction and urban areas This Handbook addresses Latin America not only as an object of study but also as a region with a long and profound history of critical thinking on these themes Furthermore the Handbook departs from most treatments on the topic by studying the environment as a social issue inextricably linked to politics economy and culture The Handbook will be an invaluable resource for those wanting not only to understand the issues but also to engage with ideas about environmental politics and social ecological transformation The Handbook covers a broad range of topics organized according to three areas physical geography ecology and crucial environmental problems of the region These are key theoretical and methodological issues used to understand Latin America s ecosocial contexts and institutional and grassroots practices related to more just and ecologically sustainable worlds The Handbook will set a research agenda for the near future and provide comprehensive research on most subregions relative to environmental transformations challenges struggles and political processes It stands as a fresh and much needed state of the art introduction for researchers scholars post graduates and academic audiences on Latin American contributions to theorization empirical research and environmental practices

Latin America since Independence Thomas C. Wright, Robert L. Smale, 2022-08-03 This book offers an innovative thematic approach to the history of Latin America since independence It traces continuity and change in colonial legacies that became central political issues following independence authoritarian governance a rigid social hierarchy based on race color and gender the powerful Roman Catholic Church economic dependency and the large landed estate Generally liberals have sought to modify or abolish these legacies in the interest of what they consider progress while conservatives have attempted to preserve them as much as possible as bastions of their power and privilege Examining the evolution of these colonial legacies across two centuries reveals the processes that formed the political systems economies societies and religious institutions that characterize Latin America today

The Business of War James McCarty, Matthew Tapie, Justin Bronson Barringer, 2020-10-01 The Business of War incisively interrogates the development and contemporary implications of the military industrial complex It exposes the moral dangers of life in neoliberal economies dependent upon war making for their growth and brings the Christian tradition s abundance of resources into conversation with this phenomenon In doing so the authors invite us to rethink the moral possibilities of Christian life in the present day with an eye toward faithful resistance to the business of war and its influence in every aspect of our lives In combining biblical historical theological and ethical analyses of the business of war the authors invite us to better understand it as a new moral problem that demands a new faithful response With contributions from Pamela Brubaker Stan Goff Christina McRorie Logan Mehl Laituri Kara Slade Won Chul Shin David Swartz Jonathan Tran Myles Werntz Matthew Whelan Tobia Winright

Banana Wars Steve Striffler, Mark

Moberg,2003-11-20 The history of banana cultivation and its huge impact on Latin American history politics and culture

From Liberal to Revolutionary Oaxaca Francie R. Chassen-López,2007-05-02 From Liberal to Revolutionary Oaxaca aims at finally setting Mexican history free of stereotypes about the southern state of Oaxaca long portrayed as a traditional and backward society resistant to the forces of modernization and marginal to the Revolution Chassen L pez challenges this view of Oaxaca as a negative mirror image of modern Mexico presenting in its place a much more complex reality Her analysis of the confrontations between Mexican liberals modernizing projects and Oaxacan society especially indigenous communal villages reveals not only conflicts but also growing linkages and dependencies She portrays them as engaging with and transforming each other in an ongoing process of contestation negotiation and compromise The Oxford Handbook of Commodity History Jonathan Curry-Machado,Jean Stubbs,William Gervase Clarence-Smith,Jelmer Vos,2024 The Oxford Handbook of Commodity History features contributions from scholars involved in the field s development across a range of countries and linguistic regions Each of the handbook s thirty one chapters focuses on an important theme within commodity history essential approaches global histories modes of production people and land environmental impact consumption and new methodologies *Coffeeland* Augustine Sedgewick,2021-04-06 A New York Times Book Review Editors Choice Extremely wide ranging and well researched In a tradition of protest literature rooted more in William Blake than in Marx Adam Gopnik The New Yorker The epic story of how coffee connected and divided the modern world Coffee is an indispensable part of daily life for billions of people around the world But few coffee drinkers know this story It centers on the volcanic highlands of El Salvador where James Hill born in the slums of Manchester England founded one of the world s great coffee dynasties at the turn of the twentieth century Adapting the innovations of the Industrial Revolution to plantation agriculture Hill helped turn El Salvador into perhaps the most intensive monoculture in modern history a place of extraordinary productivity inequality and violence In the process both El Salvador and the United States earned the nickname Coffeeland but for starkly different reasons and with consequences that reach into the present Provoking a reconsideration of what it means to be connected to faraway people and places Coffeeland tells the hidden and surprising story of one of the most valuable commodities in the history of global capitalism **Hemispheric Integration** Niko Vicario,2020-03-31 Exploring art made in Latin America during the 1930s and 1940s Hemispheric Integration argues that Latin America s position within a global economic order was crucial to how art from that region was produced collected and understood Niko Vicario analyzes art s relation to shifting trade patterns geopolitical realignments and industrialization to suggest that it was in this specific era that the category of Latin American art developed its current definition Focusing on artworks by iconic Latin American modernists such as David Alfaro Siqueiros Joaquín Torres García Cándido Portinari and Mario Carreño Vicario emphasizes the materiality and mobility of art and their connection to commerce namely the exchange of raw materials for manufactured goods from Europe and the United States An exceptional examination of transnational

culture this book provides a new model for the study of Latin American art The Palgrave Encyclopedia of Imperialism and Anti-Imperialism Immanuel Ness, Zak Cope, 2016-04-29 The Palgrave Encyclopedia Imperialism and Anti Imperialism objectively presents the prominent themes epochal events theoretical explanations and historical accounts of imperialism from 1776 to the present It is the most historically and academically comprehensive examination of the subject to date

Handbook Global History of Work Karin Hofmeester, Marcel van der Linden, 2017-11-20 Coffee from East Africa wine from California chocolate from the Ivory Coast all those every day products are based on labour often produced under appalling conditions but always involving the combination of various work processes we are often not aware of What is the day to day reality for workers in various parts of the world and how was it in the past How do they work today and how did they work in the past These and many other questions comprise the field of the global history of work a young discipline that is introduced with this handbook In 8 thematic chapters this book discusses these aspects of work in a global and long term perspective paying attention to several kinds of work Convict labour slave and wage labour labour migration and workers of the textile industry but also workers organisation strikes and motivations for work are part of this first handbook of global labour history written by the most renowned scholars of the profession *The History of Latin America* Marshall C.

Science, Technology, and Society Sal Restivo, 2005-05-19 Emphasizing an interdisciplinary and international coverage of the functions and effects of science and technology in society and culture Science Technology and Society contains over 130 A to Z signed articles written by major scholars and experts from academic and scientific institutions and institutes worldwide Each article is accompanied by a selected bibliography Other features include extensive cross referencing throughout a directory of contributors and an extensive topical index *The Cambridge World History: Volume 7,*

Production, Destruction and Connection, 1750-Present, Part 1, Structures, Spaces, and Boundary Making J. R. McNeill, Kenneth Pomeranz, 2015-04-30 Since 1750 the world has become ever more connected with processes of production and destruction no longer limited by land or water based modes of transport and communication Volume 7 of the Cambridge World History series divided into two books offers a variety of angles of vision on the increasingly interconnected history of humankind The first book examines structures spaces and processes within which and through which the modern world was created including the environment energy technology population disease law industrialization imperialism decolonization nationalism and socialism along with key world regions **Banana Cultures** John Soluri, 2021-03-09 Bananas the most

frequently consumed fresh fruit in the United States have been linked to Miss Chiquita and Carmen Miranda banana republics and Banana Republic clothing stores everything from exotic kitsch to Third World dictatorships to middle class fashion But how did the rise in banana consumption in the United States affect the banana growing regions of Central America In this lively interdisciplinary study John Soluri integrates agroecology anthropology political economy and history to trace the symbiotic growth of the export banana industry in Honduras and the consumer mass market in the United States Beginning in the 1870s when bananas first appeared in the U S marketplace Soluri examines the tensions between the small scale growers who dominated the trade in the early years and the shippers He then shows how rising demand led to changes in production that resulted in the formation of major agribusinesses spawned international migrations and transformed great swaths of the Honduran environment into monocultures susceptible to plant disease epidemics that in turn changed Central American livelihoods Soluri also looks at labor practices and workers lives changing gender roles on the banana plantations the effects of pesticides on the Honduran environment and people and the mass marketing of bananas to consumers in the United States His multifaceted account of a century of banana production and consumption adds an important chapter to the history of Honduras as well as to the larger history of globalization and its effects on rural peoples local economies and biodiversity

Yankee Don't Go Home! Julio Moreno, 2004-07-21 In the aftermath of the 1910 Mexican Revolution Mexican and U S political leaders business executives and ordinary citizens shaped modern Mexico by making industrial capitalism the key to upward mobility into the middle class material prosperity and a new form of democracy consumer democracy Julio Moreno describes how Mexico's industrial capitalism between 1920 and 1950 shaped the country's national identity contributed to Mexico's emergence as a modern nation state and transformed U S Mexican relations According to Moreno government programs and incentives were central to legitimizing the postrevolutionary government as well as encouraging commercial growth Moreover Mexican nationalism and revolutionary rhetoric gave Mexicans the leverage to set the terms for U S businesses and diplomats anxious to court Mexico in the midst of the dual crises of the Great Depression and World War II Diplomats like Nelson Rockefeller and corporations like Sears Roebuck achieved success by embracing Mexican culture in their marketing and diplomatic pitches while those who disregarded Mexican traditions were slow to earn profits Moreno also reveals how the rapid growth of industrial capitalism urban economic displacement and unease caused by World War II and its aftermath unleashed feelings of spiritual and moral decay among Mexicans that led to an antimodernist backlash by the end of the 1940s

MERCOSUR and the European Union Mikhail Mukhametdinov, 2018-05-07 The book draws comparison between MERCOSUR and the European Union to explain variation of regionalism and to expose its limits The project is based on the idea that contemporary examples of regionalism should be evaluated against several propositions of multiple integration theories rather than against a single theory In order to systematically explain why and how integration outcomes in MERCOSUR differ from those in the EU the author develops an analytical framework for the comparison of the

two blocs MERCOSUR is compared with the EU by the use of the various criteria of economic interdependence economic convergence intra bloc size and interest asymmetries cultural diversity and geostrategic motivations which are identified as the salient parameters of integration theories

When people should go to the ebook stores, search initiation by shop, shelf by shelf, it is truly problematic. This is why we allow the ebook compilations in this website. It will entirely ease you to look guide **Second Conquest Of Latin America** as you such as.

By searching the title, publisher, or authors of guide you truly want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best area within net connections. If you try to download and install the Second Conquest Of Latin America, it is agreed easy then, past currently we extend the associate to purchase and create bargains to download and install Second Conquest Of Latin America in view of that simple!
