## **Second Front Inside Asia's Most Dangerous Terrorist Network:**

Conboy, 2006 Decades before al Qaeda took shape religious radicals in Southeast Asia were laying the groundwork for a struggle to achieve a backward looking utopia This is the story of Jemaah Islamiyah (JI) the secretive organization that spans no less than half a dozen nations and seeks the full implementation of their intolerant take on Islam In *The Second Front Inside Asia's Most Dangerous Terrorist Network* best selling author Ken Conboy pieces together the planning and execution of JI's most deadly terrorist acts from exclusive interviews and classified reports In details never before revealed it delves into the minds of the group's leaders from the professorial bomb expert Azhari to the al Qaeda proxy Hambali From the shadows of the Hindu Kush to battlefields on the Spice Islands *The Second Front* peels back the veil of secrecy and chronicles the successes in bringing down this network as well as exposes the missed opportunities by regional governments to prevent terrorist acts and sectarian violence that have taken the lives of thousands

**The Talibanization of Southeast Asia** Bilveer Singh, 2007-10-30 Long before the terrorist attacks of September 11 2001 awakened the United States and the Western world to the heightened level of the terrorist threat Southeast Asia had been dealing with this threat The bombing in Bali that killed 202 people many of them Australian tourists was by no means the region's first experience with Islamic extremism which can be traced back to the 1940s and the

Darul Islam struggle The most recent group to emerge is Al Jama'ah Al Islamiyah (AJAI) the most potent Islamic terrorist organization to date in the region and the group behind the Bali bombing Understanding the process of Talibanization in Southeast Asia which was once an oasis of moderate Islam in the modern world is a key to unraveling the mystery of the increased radicalization in the region Essentially this involved the establishment of a political system that was more Islamic in character either nationally or within a specific territory of a national state This book analyzes the increasing Talibanization of Southeast Asia a relatively new phenomenon that involves the adoption of Islamist doctrines ideologies and values that are largely militant in character and that for some groups includes the adoption of violence to achieve their goals This has succeeded in posing one of the most serious security challenges to the region since the end of the Cold War Jihadists are operating in small and localized cells even though the broad goals remain the same namely to spread sharia establish an Islamic state and bring down secular regimes As most governments do not have the credibility or the expertise to diminish the threat posed by Islamist extremism Wahhabism and Salafism Southeast Asia is in danger of being Talibanized in the near future

*Terrorist Financing* Nicholas Ridley, Nick Ridley, 2012-01-01 In recent years a great deal has been written about terrorism and how best to inhibit and undermine terrorist's aspirations Much of this literature tends to be one dimensional reflecting the experience of the author Dr Ridley having had a long and diverse career in intelligence and in particular financial analysis has succeeded in going far beyond description of a series of war stories to providing not only a starting account of the range and character of modern terrorism but also a knowledgeable analysis of the measures adopted around the world to combat the threat Of critical importance in the minds of many has been the adoption of techniques in the main from the war against drugs facilitating the identification and disruption of finance While emphasising the value of financial intelligence Dr Ridley now as a scholar dispassionately questions how successful this strategy has been and where it might take us Such issues need to be aired and resolved if we are not to undermine the very values which we seek to protect Barry Rider University of Cambridge UK This is hugely important and highly relevant contribution by a world expert which adds to our knowledge of terrorist funding It will make practitioners and academics alike not to mention politicians who should be seeking their advice stop and think John Grieve Portsmouth University UK and former UK National Coordinator for Counter Terrorism Dr Ridley has authored an excellent analytical comprehensive and solutions oriented book addressing the complexities of terror financing and the challenges in combating this menace Dr Ridley's unique insight arising from substantial academic and professional experiences on combating terror financing lends substantial credibility to the volume Dean C Alexander Western Illinois University US This authoritative book provides a holistic overview of terrorist groups and finances including consideration of the necessity and differing financial needs of different groups For over a decade international efforts by law enforcement government and financial regulatory authorities have been deployed in combatting terrorist financing in good faith and with dedication beyond reproach This book surveys the methods of financing of

numerous terrorist groups and organisations including the Chinese and Asian dimension and considers why ultimately international efforts to combat the financing of terror are failing Nick Ridley expertly illustrates the scale of the problem by first outlining the strategies of anti terrorist financing the pre and post 9 11 differences in scope and extent of terrorist attacks the financial support and the national and international efforts to implement and carry out countermeasures He then goes on to set out a detailed analysis of the apparent failure of such counter measures to date Including operational case studies and details from the authors own experience studies and access to law enforcement and private sector sources this book will prove insightful for undergraduate and postgraduate students studying criminology history and law disciplines Those in the legal profession will also find plenty of useful information in this topical compendium

**Islamist Terrorism and Militancy in Indonesia** Kumar Ramakrishna,2014-10-19 Drawing upon insights from the natural and social sciences this book puts forth a provocative new argument that the violent Islamist threat in Indonesia today derives its stubborn resilience from being in essence a complex adaptive and self organizing system or what some specialists might even call a super organism The book challenges the popular assumption that ideology is the root cause that explains why Indonesian Islamists radicalize into violent extremism In addition it addresses why despite years of intense security force pressure seemingly disparate militant cells keep popping up like the proverbial hydra and in the apparent absence of a centralized coordinating body nevertheless appear to display an organic interconnectivity with one another Going beyond standard ideological mantras the book argues that fresh inter disciplinary thinking is needed to cope with the constantly mutating violent Islamist challenge in Indonesia and puts forth a comprehensive strategy for doing so It will be of interest to academics and students of terrorism religion and violence in the Southeast Asian region

*Targeting Terrorist Financing* Arabinda Acharya,2009-09-11 This book examines the dynamics of terrorist financing including a discussion about the importance of money from both the terrorist and the counter terrorist perspective Targeting Terrorist Financing argues that it is not the institutions that have failed the war on terrorist financing rather it is the states that have failed the institutions The measures contemplated by the world community to interdict terrorists and their financial infrastructures are sufficient to debilitate the terrorists both militarily and financially However what has been increasingly lacking is political will among the states and this has overwhelmed the spirit of cooperation in this very critical front against terrorism This volume assesses the need for international cooperation and the role of institutions and regimes in targeting terrorist financing After the 9 11 attacks there was an expression of global willingness to target terrorism generally and terrorist financing in particular The institutional mechanisms that grew out of this are explored in detail here with a critical examination of the progress made by the international community The impact of these measures is considered with respect to changes in the nature of the terrorist threat money confiscated adoption of international conventions and global standards by states and levels of compliance among others This book will be of great interest to students of terrorism international organisations international security and IR in general Arabinda Acharya is Research Fellow Manager of Strategic Projects and Head of the Terrorist Financing Response Project at the International Centre for Political Violence and Terrorism Research in the S Rajaratnam School of International Studies Nanyang Technological University Singapore

*Islamic Education and Indoctrination* Charlene Tan, 2012-01-26 Islamic schools especially madrasahs have been viewed as sites of indoctrination for Muslim students and militants Some educators and parents in the United States have also regarded introductory courses on Islam in some public schools as indoctrinatory But what do we mean by indoctrination And is Islamic education indoctrinatory This book critically discusses the concept of indoctrination in the context of Islamic education It explains that indoctrination occurs when a person holds to a type of beliefs known as control beliefs that result in ideological totalism Using Indonesia as an illustrative case study the book expounds on the conditions for an indoctrinatory tradition to exist and thrive Examples include the Islamic school co founded by Abu Bakar Ba asyir and the militant organisation Jemaah Islamiyah The book further proposes ways to counter and avoid indoctrination through formal non formal and informal education It argues for the creation and promotion of educative traditions that are underpinned by religious pluralism strong rationality and strong autonomy Examples of such educative Muslim traditions in Indonesia will be highlighted Combining philosophical inquiry with empirical research this book is a timely contribution to the study of contemporary and often controversial issues in Islamic education

networks OCo both physical and virtual OCo which spread the jihadi virus from bin Laden to Facebook *From Bin Laden To Facebook: 10 Days Of Abduction, 10 Years Of Terrorism* Maria A Ressa,2013-03-22 The two most wanted terrorists in Southeast Asia a Malaysian and a Singaporean are on the run in the Philippines but they manage to keep their friends and family updated on Facebook Filipinos connect with al Qaeda linked groups in Somalia and Yemen The black flag embedded in al Qaeda lore pops up on websites and Facebook pages from around the world including the Philippines Indonesia the Middle East Afghanistan Australia and North Africa The black flag is believed to herald an apocalypse that brings Islam s triumph These are a few of the signs that define terrorism s new battleground the Internet and social media In this groundbreaking work of investigative journalism Maria Ressa traces the spread of terrorism from the training camps of Afghanistan to Southeast Asia and the Philippines Through research done at the International Center for Political Violence Terrorism Research in Singapore and sociograms created by the CORE Lab at the Naval Postgraduate School the book examines the social networks which spread the virulent ideology that powered terrorist attacks in the past 10 years Many of the stories here have never been told before including details about the 10 days during which Ressa led the crisis team in the Ces Drilon kidnapping case by the Abu Sayyaf in 2008 The book forms the powerful narrative that glues together the social networks both physical and virtual which spread the jihadi virus from bin Laden to Facebook **Extremist Islam** Kumar Ramakrishna,2022 Since the Bali terrorist attacks in 2002 law enforcement agencies have rigorously combatted terrorist networks in Southeast Asia yet groups motivated by violent extremist interpretations of Islam remain resilient and dangerous This book shines a light on specific beliefs behaviors and policies that impact these challenges ultimately offering cutting edge effective tools for response The book begins by challenging misguided and controversial notions that depict Islam as an inherently violent religion arguing that the theological ideological amalgam of what has been called Salafabism is the more useful lens for recognizing closed minded extremist currents The book carefully distinguishes this Salafabist extremist mindset from relatively open minded Salafabist radicalism paying due attention to nonviolent extremists and the ways they can contribute to rather than reduce violent terrorist activity in the region Using poignant case studies from Malaysia Singapore the Philippines and Indonesia the book clarifies a bewildering range of terminology associated with Islamist violence and explains how imprecise and oversimplified narratives are destructive to progress and worse empowering to terrorist organizations These chapters build up to research informed policies and rhetorical recommendations for improved outcomes With its novel insights into the root causes of extremist terrorism in Southeast Asia the ineffective policies that prohibit progress and promote unrest in this region and the avenues for positive change this book offers a comprehensive strategy for fostering theologically sound yet culturally authentic counterterrorist measures that defend the complex richly textured tapestry of culture in Southeast Asia Public Diplomacy and Soft Power in East Asia Jan Melissen,2011-04-25 This book discusses the question of soft power and public diplomacy challenges in East Asian context Both concepts originate in

the West and in a sense this book can therefore be seen as an exercise in critically assessing soft power and public diplomacy in a different geographical and cultural setting

**Contesting Indonesia** Kirsten E. Schulze, 2024-10-15 *Contesting Indonesia* explains Islamist separatist and communal violence across Indonesian history since 1945 In a sweeping argument that connects endemic violence to a national narrative Kirsten E Schulze finds that the outbreak of violence is related to competing local notions of the national imaginary as well as contentious belonging Through detailed examination of six case studies the Darul Islam rebellions Jemaah Islamiyah s jihad and the conflicts in East Timor Aceh Poso and Ambon Schulze argues that violence was more likely to occur in places that are on the geographic ideological ethnic and religious periphery of the Indonesian state that violence by non state actors was most protracted in locations where there was a well established alternative national imaginary supported by an alternative historical narrative and that violence by the state was most likely in places where the state had a significant territorial interest Drawing on a vast collection of interviews and archival and published sources *Contesting Indonesia* provides a new understanding of the history of violence across the Indonesian archipelago

No Man's Land Justin V. Hastings, 2011-06-15 The increased ability of clandestine groups to operate with little regard for borders or geography is often taken to be one of the dark consequences of a brave new globalized world Yet even for terrorists and smugglers the world is not flat states exert formidable control over the technologies of globalization and difficult terrain poses many of the same problems today as it has throughout human history In *No Man s Land* Justin V Hastings examines the complex relationship that illicit groups have with modern technology and how and when geography still matters Based on often difficult fieldwork in Southeast Asia Hastings traces the logistics networks command and control structures and training programs of three distinct clandestine organizations the terrorist group Jemaah Islamiyah the insurgent Free Aceh Movement and organized criminals in the form of smugglers and maritime pirates Hastings also compares the experiences of these groups to others outside Southeast Asia including al Qaeda the Tamil Tigers and the Somali pirates Through reportage memoirs government archives interrogation documents and interviews with people on both sides of the law he finds that despite their differences these organizations are constrained and shaped by territory and technology in similar ways In remote or hostile environments where access to the infrastructure of globalization is limited clandestine groups must set up their own costly alternatives Even when successful Hastings concludes criminal insurgent and terrorist organizations are not nearly as mobile as pessimistic views of the sinister side of globalization might suggest

*The Sulu Arms Market* Lino Miani, 2011 Situated in a remote area long a historical buffer zone between competing political entities the Sulu Arms Market is an illicit market of a typical form in that it is both a source and a destination for less than legal guns What makes the Sulu market unique is its longevity which is measured in centuries In modern times guns from the area supply conflicts and crime from Japan to Sri Lanka to Papua New Guinea and beyond and in turn the world pours guns and ammunition into Mindanao the Maluku Molucca Islands and to a lesser extent Malaysia and the rest of the

Philippines Like most black arms pipelines the Sulu Arms Market is intertwined with piracy terrorism and the traffic of other illicit commodities Criminal gangs communists Moro independence groups and Islamic militants are all major players in the market making it a security problem for at least five member states of the Association of Southeast Asian Nations ASEAN

*Terrorism in the Twenty-First Century* Cindy C. Combs, 2015-09-21 This book's major strengths are its content which is excellent its organization which is logical and the fact that it devotes considerable attention to counterterrorist strategies and operations

*Understanding Insurgent Resilience* Andrew Henshaw, 2020-07-30 This book examines terrorist and insurgent organisations and seeks to understand how such groups persist for so long while introducing a new strategic doctrine for countering these organisations The work discusses whether familial or meritocratic insurgencies are more resilient to counterinsurgency pressures It argues that it is not the type of organization that determines resilience but rather the efficiency functions of social capital and trust which have different natures and forms within them It finds that while familial insurgencies can challenge incumbents from the start they weaken over time whereas meritocracies will generally strengthen The book examines four of the most enduring and lethal insurgent organizations the Haqqani Network in Afghanistan Lashkar e Taiba in Pakistan Jemaah Islamiyah in Indonesia and the Abu Sayyaf in the Philippines The author breaks down each group into its formative strengths and vulnerabilities and presents a bespoke model of strategic counterintelligence that can be used to manipulate degrade and destroy each organization This book will be of much interest to students of counterinsurgency terrorism intelligence security and defence studies in general
