Second World War was an unavoidable aspect of daily life. It must be a situation that is hard to relate to for those of us in the West born too late or too young to remember the war or the decades afterwards. The idea that you must always be alert to the ominous drone of the air raid sirens as you went about your business or that your home could be destroyed in an aerial bombardment at any moment is very hard to comprehend. But those who lived through the war knew it was perfectly possible that the Wehrmacht could soon be marching through the streets with all the chaos, fear, death and destruction that that would imply. Against this backdrop we can understand why propaganda was so vital to all sides of the conflict. For those interested in the psychology of the past, propaganda posters are a great glimpse into the understandable paranoia, hysteria and concerns of those who created them and the message they thought it was necessary to promote to everyone else. All of these posters served some sort of purpose and modern cynicism means it is often hard not to scoff at some of them because to us they are now often unintentionally humorous or offensive. Those in government at the time knew that war had evolved. The Great War had changed much and this latest conflict with Germany would create a huge strain both in terms of morale and in the nation's resources and it was vital to have and maintain full support for the war at home. While propaganda was nothing new, it came into its own during the Second World War. British posters were in the main created by the controversial Ministry of Information, a government department that was dissolved soon after the war and probably one of George Orwell's inspirations for Big Brother. Many contemporary members of parliament were very disturbed by the agenda of this department and protested that there was a very real danger that Britain could ironically sleepwalk into becoming the fascist brainwashed state with which they were at war. The messages behind most of these posters are overt and obvious. The well-known but never actually distributed 'Keep Calm and Carry On' posters are still recognisable to us today over 70 years later. Other messages may verge on the bizarre to those who never knew the horrors of the conflict first hand. One poster shows a soldier and his partner on a sofa with the message 'Keep mum, stay silent, she might not be so dumb' implying that his girlfriend may at best be a loudmouth who will report his military operations to everyone in town and at worst be a Gestapo agent who had been planted into his home. This isn't to mock the sentiment but simply to point out how difficult it is for a modern mind to understand. Other posters urging mothers to evacuate their children away from towns as refugees to find safety in the countryside or even abroad to the security of Canada or other parts of the empire are quite shocking. Still more so are those which implied that people taking a day off work due to sickness could be shirking or that those who lost a tool at work were aiding Hitler are quite unsettling even now. American propaganda was often racist, showing rat-like Japanese. One dramatic poster featuring two creepy children in their gas masks and proclaiming 'Dear God, keep them safe' is still striking. On the Axis side, they were oddly obsessed with reminding Allied soldiers, particularly Americans, that their women were back at home, probably sleeping with someone else, and that the negroes were now running the country.

Posters Elizabeth E. Guffey, 2014-10-15 From band posters stapled to telephone poles to the advertisements hanging at bus shelters to the inspirational prints that adorn office walls posters surround us everywhere but do we know how they began Telling the story of this ephemeral art form Elizabeth E Guffey reexamines the poster's roots in the nineteenth century and explores the relevance they still possess in the age of digital media Even in our world of social media and electronic devices she argues few forms of graphic design can rival posters for sheer spatial presence and they provide new opportunities to communicate across public spaces in cities around the globe Guffey charts the rise of the poster

from the revolutionary lithographs that papered nineteenth century London and Paris to twentieth century works of propaganda advertising pop culture and protest Examining contemporary examples she discusses Palestinian martyr posters and West African posters that describe voodoo activities or Internet con men stopping along the way to uncover a rich variety of posters from the Soviet Union China the United States and more Featuring 150 stunning images this illuminating book delivers a fresh look at the poster and offers revealing insights into the designs and practices of our twenty first century world

Posters of The Great War Frédérick Hadley, Martin Pegler, 2013-05-20 Until the arrival of radio and television and despite the influence of newspapers posters were the major medium for mass communication During the Great War all the belligerent nations produced an extraordinary variety of them and they did so on a massive scale As the 200 wartime and immediate post war posters selected for this book reveal they were one of the most potent and memorable ways of conveying news information and propaganda In the most graphic and colourful fashion they promoted values such as patriotism and sacrifice By using rallying symbols such as flags as well as historical and mythical models they sought to maintain morale and draw people together by stirring up anger against the enemy Today their remarkable variety of styles give us an instant insight into the themes and messages the military and civilian authorities wished to publicize The sheer inventiveness of the poster artists is demonstrated as they focused on key aspects of the propaganda campaign in Britain France Germany America and Russia The diversity of their work is displayed here in chapters that cover recruitment money raising the soldier the enemy the family and the home front films and the post war world A century ago when these images were first viewed they must have been even more striking in contrast to the poor quality newspaper photographs and postcards that were available at the time The Great War was to change that forever It introduced a means of propaganda that was novel persuasive and above all powerful It was the first media war and the poster played a key role in it
