Visual Encounters in the Study of Rural Childhoods April Mandrona,Claudia Mitchell,2018-07-02 *Visual Encounters in the Study of Rural Childhoods* brings together visual studies and childhood studies to explore images of childhood in the study of rurality and rural life The volume highlights how the voices of children themselves remain central to investigations of rural childhoods Contributions look at representations and experiences of rural childhoods from both the Global North and Global South including U S Canada Haiti India Sweden Slovenia South Africa Russia Timor Leste and Colombia and consider visuals ranging from picture books to cell phone video to television

Elementary Students Practicing Mindfulness Alice McIntyre,2019-03-18 Much of the literature about stress and its effects on children is focused on how these various groups can learn how to cope adapt and or manage stress Practicing mindfulness on the other hand is about becoming familiar with how one responds to stress and as important how one can differentiate between stressors that generate beneficial actions and ones that escalate distress and discomfort It was the latter approach that characterized the year long mindfulness project that a group of racial ethnic and culturally diverse fifth graders in a local Boston public school participated in during the AY2016 2017 The facilitator of the project met with participating students for an average of 75 minutes once per week In large and small group discussions and numerous creative techniques and processes e g photography symbolic art the participants explored documented and assessed how they experienced various forms of mindfulness and how those processes informed their thinking emotions and actions As important participating in the project provided the young people with opportunities to become mindfulness ambassadors who brought mindfulness into their families school and respective communities Engaging in mindfulness practices provided the young people with opportunities to develop life long skillful ways to become familiar with their minds increase their self awareness more effectively respond to difficult thoughts and emotions and provide strategies to foster positive connections with others In addition sharing and exploring strategies for developing a mindful perspective contributed to creating an environment for learning that intersected with young people s capacity to be critical thinkers and thoughtful decision makers The greatest contribution of the book is that it is threaded

with the voices of young girls and boys who speak about themselves their thoughts and emotions their experiences with fear anxiety success and failure with directness honesty and a confidence in their skills and abilities Their participation in the project demonstrates the possibilities classroom teachers have to integrate mindfulness practices into the school day As important teachers are invited to hone their own mindfulness practices to ensure that they are intentionally working with their own thoughts emotions and assumptions as they relate to the students they teach **Collaborative Qualitative**

Daniel Palmer, 2020-09-14 Photography and Collaboration offers a fresh perspective on existing debates in art photography and on the act of photography in general Unlike conventional accounts that celebrate individual photographers and their personal visions this book investigates the idea that authorship in photography is often more complex and multiple than we imagine involving not only various forms of partnership between photographers but also an astonishing array of relationships with photographed subjects and viewers Thematic chapters explore the increasing prevalence of collaborative approaches to photography among a broad range of international artists from conceptual practices in the 1960s to the most recent digital manifestations Positioning contemporary work in a broader historical and theoretical context the book reveals that collaboration is an overlooked but essential dimension of the medium's development and potential **In Appropriate**

Distance Kelly Klingensmith, 2016-06-15 What is the evolving relationship between words and images in the photographic essay How do the purpose and form of the photographic essay change over time And how are relationships between the contributors subject and readers communicated explicitly and implicitly in both content and form Klingensmith explores these questions in In Appropriate Distance as she traces the development of the photographic essay from the 1890s to the 1990s and beyond By examining classic examples such as How the Other Half Lives American Exodus and Let Us Now Praise Famous Men as well as more contemporary projects including work by John Berger Jean Mohr Wendy Ewald and Zana Briski Klingensmith examines the codependence of words and images and the long standing collaboration required of creator and

subject in this exploration of the ethics of representation *Dreams* Robert J. Hoss, Katja Valli Ph.D., Robert P. Gongloff, 2019-01-11 This two volume set examines dreams and dreaming from a variety of angles biological psychological and sociocultural in order to provide readers with a holistic introduction to this fascinating subject Whether good or bad and whether we remember them or not each night every one of us dreams But what biological or psychological function do dreams serve What do these vivid images and strange storylines mean How have psychologists religions and society at large interpreted dreams and how can a closer examination of our dreams provide useful insights *Dreams Understanding Biology Psychology and Culture* presents a holistic view of dreams and the dreaming experience that answers these and many other questions Divided thematically this two volume book examines the complex and often misunderstood subject of dreaming through a variety of lenses This collection is written by a large and diverse team of experts and edited by leading members of the International Association for the Study of Dreams IASD but remains an approachable and accessible introduction to this captivating topic for all readers **Biophilic Connections and Environmental Encounters in the Urban Age** Richard

Coles, Sandra Costa, 2023-03-16 *Biophilic Connections and Environmental Encounters in the Urban Age* takes a multi disciplinary approach drawing on the authors wide range of experience to provide a greater understanding of the different dimensions of environmental engagement It considers the ways that we interact with our environments presenting a comprehensive account of how people negotiate and use the urban landscape Set within current debates concerning urban futures societal issues sustainable cities health and well being the book explores our innate need for contact with the natural world through biophilic design thinking to expand our knowledge base and promote a wider understanding of the importance of these interactions on our collective well being It responds to questions such as what are the urban qualities that support our well being As an urbanised society what are the environmental determinants that promote healthy and satisfying lifestyles Beginning with an overview of concepts relating to biophilia and environmental engagement it moves through current theory and practice different pathways and their characteristics before presenting real world examples and applications through illustrated case studies in different world situations With a particular focus on the experience of individuals the book is essential reading for students researchers and practitioners of architecture landscape architecture urban planning design and health sciences interested in the future of our cities and the importance of green spaces

Young Children and Families in the Information Age Kelly L. Heider, Mary Renck Jalongo, 2014-12-05 This edited book presents the most recent theory research and practice on information and technology literacy as it relates to the education of young children Because computers have made it so easy to disseminate information the amount of available information has grown at an exponential rate making it impossible for educators to prepare students for the future without teaching them how to be effective information managers and technology users Although much has been written about information literacy and technology literacy in secondary education there is very little published research about these literacies in early childhood

education Recently the National Association for the Education of Young Children and the Fred Rogers Center for Early Learning and Children's Media at Saint Vincent College published a position statement on using technology and interactive media as tools in early childhood programs This statement recommends more research to better understand how young children use and learn with technology and interactive media and also to better understand any short and long term effects Many assume that today's young children are digital natives with a great understanding of technology However children may know how to operate digital technology but be unaware of its dangers or its value to extend their abilities This book argues that information and technology literacy include more than just familiarity with the digital environment They include using technology safely and ethically to demonstrate creativity and innovation to communicate and collaborate to conduct research and use information and to think critically solve problems and make decisions

Civil Imagination Ariella Aïsha

Azoulay, 2024-03-19 This remarkable book enhances Ariella Azoulay's position as the most compelling theorist of photography writing today Jonathan Crary author of *Scorched Earth* A groundbreaking work on the power of photography as a vehicle for civil protest Understanding photography is more than a matter of assessing photographs writes Ariella Azoulay The photograph is merely one event in a sequence that constitutes photography and which always involves an actual or potential spectator in the relationship between the photographer and the individual portrayed The shift in focus from product to practice outlined in *Civil Imagination* brings to light the way images can both reinforce and resist the oppressive reality foisted upon the people depicted Through photography *Civil Imagination* seeks out relations of partnership solidarity and sharing that come into being at the expense of sovereign powers that threaten to destroy them Azoulay argues that the civil must be distinguished from the political as the interest that citizens have in themselves in others in their shared forms of coexistence as well as in the world they create and transform Azoulay's book sketches out a new horizon of civil living for citizens as well as subjects denied citizenship inevitable partners in a reality they are invited to imagine anew and to reconstruct Beautifully produced with many illustrations *Civil Imagination* is a provocative argument for photography as a civic practice capable of reclaiming civil power

The SAGE Handbook of Child Research Gary B Melton, Asher

Ben-Arieh, Judith Cashmore, Gail S. Goodman, Natalie K. Worley, 2013-12-18 It is refreshing to see a book such as this which is both broad in its conceptualization of the field of child research and deep in its focus The volume's editors are paragons of awareness when it comes to the need for interdisciplinary research and theory to illuminate the lives and experience of children James Garbarino Loyola University Chicago Covers a satisfying and unprecedentedly wide range of research relating to childhood The contributors include many eminent international scholars of childhood making the book a valuable resource for child researchers Child advocates will also find the book to be invaluable in their efforts to improve children's well being and to change policies and practices for the better Anne Smith University of Otago A really scintillating collection that will provide a lasting perspective on child studies stimulating and comprehensive Jonathan Bradshaw University of York In

keeping with global changes in children's social and legal status this Handbook includes examination of children as family members friends learners consumers people of faith and participants in law and politics The contributors also discuss the methodological and ethical requirements for research that occurs in natural settings and that enables children themselves to describe their perspective The book is divided into three parts Part I Setting Specific Issues in Child Research Part II Population Specific Issues in Child Research Part III Methods in Research on Children and Childhood

Participatory Action Research Alice McIntyre, 2007-11-20 Participatory Action Research PAR introduces a method that is ideal for researchers who are committed to co developing research programs with people rather than for people The book provides a history of this technique its various strands and the underlying tenets that guide most projects It then draws on two PAR projects that highlight three integral dimensions the meaning of participation the way action manifests itself and the strategies for gathering analyzing and disseminating information Author Alice McIntyre describes the various ways in which PAR is carried out depending on for example the issue under investigation the site of the project the project participants people's access to resources and other related issues Intended Audience This resource is an ideal supplement for graduate courses PAR qualitative research and various types of action based research

Participatory Visual Methodologies Claudia Mitchell, Naydene De Lange, Relebohile Moletsane, 2017-09-18 This book demonstrates how data from participatory visual methods can take people and communities beyond ideological engagement initiating new conversations and changing perspectives policy debates and policy development These methods include for example photo voice participatory video drawing mapping and digital storytelling Organised around a series of tools that have been used across health education environmental and sociological research Participatory Visual Methodologies illustrates how to maintain participant engagement in decision making navigate critical issues around ethics track policies and maximize the potential of longitudinal studies Tools discussed include Pedagogical screenings Digital dialogue devices Upcycling and speaking back interventions Participant led policy briefs An authoritative and accessible guide to how participatory visual methods and arts based methods can influence social change this book will help any postgraduate researcher looking to contribute to policy dialogue
