Secret Societies and Subversive Movements Nesta Helen Webster, 1924      Secret Societies and Subversive Movements Nesta Webster, 2010-05 The object of the present book is in the tracing the course secret societies I shall rely as far as possible on the documents and admissions of their members on which point I have been able to collect a great deal of fresh data entirely corroborating my former thesis It should be understood that I do not propose to give a complete history of secret societies but only of secret societies in their relation to the revolutionary movement I shall therefore not attempt to describe the theories of occultism nor to enquire into the secrets of Freemasonry but simply to relate the history of these systems in order to show the manner in which they have been utilized for a subversive purpose If I then fail to convince the incredulous that secret forces of revolution exist it will not be for want of evidence      **Secret Societies and Subversive Movements** Nesta H. Webster, 2000 One of the best books on secret societies ever written Webster was an historical writer who wrote a number of books on the French Revolution After World War I she was intrigued with the Marxist revolt so wrote World Revolution examining how and why people continue to revolt As her search went deeper clear meanings surfaced behind our revolutions and they involved an agenda by secret societies This book lays out in historical perspective how these secret societies and subversive movements have operated from behind the scenes Not all of them aspire to rule the world or manipulate politics or world currency but there are some major ones according to Webster that are As a respected writer and world historian she provides proof from within these pages      **Secret Societies and Subversive Movements** Nesta Helen Webster, 1969      Secret Societies and Subversive Movements H. Seventh Edition Nesta Helen Webster, 1955     **Secret Societies and Subversive Movements ... Eighth Edition. [With Plates.]**. Nesta Helen Webster, 1964     Cults, Conspiracies, and Secret Societies Arthur Goldwag, 2009-08-11 Did you know Freemasonry's first American lodge included a young Benjamin Franklin among its members The Knights Templar began as impoverished warrior monks then evolved into bankers Groom Lake Dreamland Homey Airport Paradise Ranch The Farm Watertown Strip Red Square The Box are all names for Area 51 An indispensable guide Cults Conspiracies and Secret Societies connects the dots and sets the record straight on a host of greedy gurus and murderous messiahs crepuscular cabals and suspicious coincidences Some topics are familiar the Kennedy assassinations the Bilderberg Group the Illuminati the People's Temple and Heaven's Gate and some surprising like Oulipo a select group of intellectuals who created wild formulas for creating literary masterpieces and the Chauffeurs an eighteenth century society of French home invaders who set fire to their victims feet     **Secret Societies** John Lawrence Reynolds, 2011-09-01 They generate fear suspicion and above all fascination Secret societies thrive among us yet they remain shrouded in mystery Their secrecy suggests to many sacrilege or crime and their loyalties are often accused of undermining governments and tipping the scales of justice The Freemasons for example hold more seats of power in the U S government than any other organization No fewer than sixteen presidents have declared their Masonic affiliation and there may have been more Secret societies have infiltrated pop culture as well Celebrity members of Kabbalah include Madonna Demi Moore and Elizabeth Taylor among others From the Mafia and the Yakuza to the Priory of Sion Skull and Bones and the Templars Reynolds offers an illuminating and entertaining exploration of the stories confirmed and fabricated that surround these societies as well as provides detailed information on their origins initiations rituals and secret signs Dispelling myths and providing gripping revelations such as a direct historical link between the Assassins of the Middle Ages and today's Al Qaeda Secret Societies gives us a smart surprising look at the best known and often least understood covert organizations     *Secret Societies* Philip Gardiner, 2007-06-15 With his recent best selling books and hundreds of articles as well as radio and TV appearances Philip Gardiner has started a crusade for uncovering the truth and nothing could be more indicative of that search than his latest foray into the dark and often sinister world of secret societies Yet again Gardiner finds himself on a journey across the world to uncover the ancient secrets of the world's most powerful men In one dramatic episode he finds himself driven out of Berlin in a black Mercedes by a secret organization that was believed to have disappeared after the second World War and eventually arrives in a modern Nazi watering hole Gardiner

however survives this incredible journey and brings us the secrets of the Order held sacred for so long Gardiner delves into a world that is often hidden from our eyes and finds himself in situations that seem to mirror the fictional world of the Da Vinci Code Throughout Secret Societies Gardiner Uncovers an ancient secret society thought to have died out many years ago Gets to the core of the secret societies belief systems Explores the secret origins of Freemasonry and the links to secret Serpent Cults Investigates the secret hidden meaning of King Arthur and Robin Hood Examines the claimants to the name of Illuminati and analyzes the history of the group in Europe and America Reveals the secret links within the Vatican and the Nazi Party Looks in depth at the white powdered gold theory supposedly kept secret by orders throughout time and radically re appraises it Shows the link between the so called enlightenment experience and the control of our minds Nobody in the genre involves themselves in the tale in the same way that Gardiner does and here he shows that the search for ultimate truth can often be a terrifying one
