Resistance and Survival Ann González, 2022-08-23 In her analysis of some of the most interesting and important children's literature from Central America and the Caribbean Ann González uses postcolonial narrative theory to expose and decode what marginalized peoples say when they tell stories to their children and how the interpretations children give these stories today differ from the ways they have read them in the past González reads against the grain deconstructing and critiquing dominant discourses to reveal consistent narrative patterns throughout the region that have helped children maneuver in a world dominated by powerful figures from parents to agents of social control political repression and global takeover Many of these stories are in some way lessons in resistance and survival in a world where the toughest kid on the block often an outsider demands that a group of children play or pay on his terms González demonstrates that where traditional strategies have proposed the model of the trickster or the paradoxically astute fool to mock the pretensions of the would be oppressor new trends indicate that the region's children and those who write for them show increasing interest in playing the game on their own terms getting to know the Other embracing difference and redefining their identity and role within the new global culture *Resistance and Survival* emphasizes the hope underlying this contemporary children's literature for a world in which all voices can be heard and valued the hope of an authentic happy ending

Dune: The Butlerian Jihad Brian

Herbert, Kevin J. Anderson, 2010-04-01 Frank Herbert's Dune series is one of the grandest epics in the annals of imaginative literature. Selling millions of copies worldwide, it is science fiction's answer to *The Lord of the Rings*, a brilliantly imaginative epic of high adventure, unforgettable characters, and immense scope. Decades after Herbert's original novels, the Dune saga was continued by Frank Herbert's son, Brian Herbert, an acclaimed SF novelist in his own right, in collaboration with Kevin J. Anderson. Their New York Times bestselling trilogy *Dune House*, *Atreides*, *Dune House*, *Harkonnen*, and *Dune House*, *Corrino* formed a prequel to the classic Herbert series that was acclaimed by reviewers and readers alike. Now Herbert and Anderson, working from Frank Herbert's own notes, reveal a pivotal epoch in the history of the Dune universe, the chapter of the saga most eagerly anticipated by readers: *The Butlerian Jihad*. Throughout the Dune novels, Frank Herbert frequently referred to the long ago war in which humans wrested their freedom from thinking machines. Now in *Dune: Butlerian Jihad*, Brian Herbert and Kevin J. Anderson bring to life the story of that war, a tale previously seen only in tantalizing hints and clues. Finally, we see how Serena Butler's passionate grief ignites the war that will liberate humans from their machine masters. We learn the circumstances of the betrayal that made mortal enemies of House Atreides and House Harkonnen, and we experience the Battle of Corrino that created a galactic empire that lasted until the reign of Emperor Shaddam IV. Herein are the foundations of the Bene Gesserit Sisterhood, the Suk Doctors, the Order of Mentats, and the mysteriously altered Navigators of the Spacing Guild. Here is the amazing tale of the Zensunni Wanderers who escape bondage to flee to the desert world where they will declare themselves the Free Men of Dune. And here is the backward, nearly forgotten planet of Arrakis, where traders have discovered the remarkable properties of the spice melange. Ten thousand years before the events of Dune, humans have managed to battle the remorseless Machines to a standstill, but victory may be short-lived. Yet amid shortsighted squabbling between nobles, new leaders have begun to emerge. Among them are Xavier Harkonnen, military leader of the Planet of Salusa Secundus; Xavier's fiancée, Serena Butler, an activist who will become the unwilling leader of millions; and Tio Holtzman, the scientist struggling to devise a weapon that will help the human cause. Against the brute efficiency of their adversaries, these leaders and the human race have only imagination, compassion, and the capacity for love. It will have to be enough.
