Secret History Of The Dividing Line

Kevin Joel Berland

Secret History Of The Dividing Line:

Secret History of the Dividing Line Susan Howe, 1978 *The Dividing Line Histories of William Byrd II of Westover* Kevin Joel Berland, 2013-11-01 After his 1728 Virginia North Carolina boundary expedition Virginia planter and politician William Byrd II composed two very different accounts of his adventures The Secret History of the Line was written for private circulation offering tales of scandalous behavior and political misconduct peppered with rakish humor and personal satire The History of the Dividing Line continually revised by Byrd for decades after the expedition was intended for the London literary market though not published in his lifetime Collating all extant manuscripts Kevin Joel Berland's landmark scholarly edition of these two histories provides wide ranging historical and cultural contexts for both helping to recreate the social and intellectual ethos of Byrd and his time Byrd enriched his narratives with material appropriated from earlier authors many of whose works were in his library the most extensive in the American colonies Berland identifies for the first time many of Byrd's sources and raises the question how reliable are histories that build silently upon antecedent texts and present borrowed material as firsthand testimony In his analysis Berland demonstrates the need for a new category to assess early modern history writing the hybrid accretional narrative **William Byrd's Histories of the Dividing Line Betwixt**

Virginia and North Carolina William Kenneth Boyd, 1929 **William Byrd II and His Lost History** Margaret Beck Pritchard, Virginia Lascara Sites, 1993 An 18th century copperplate illustration discovered in Oxford in 1929 was used to guide the restoration and reconstruction of several Williamsburg buildings This information was appreciated but a discovery was made when more copperplates which came to light in 1986 were linked to the 1929 Oxford copperplate This book pieces together the mystery of when how and why these copperplates were made The authors link these illustrations to texts written and to texts now lost by one of the most prominent Virginians of this period William Byrd II Byrd 1674 1744 was a prominent plantation owner author romantic scoundrel and politician who is generally seen as the founder of the city of Richmond

The English Literatures of America Myra Jehlen, Michael Warner, 2013-12-19 The English Literatures of America redefines colonial American literatures sweeping from Newfoundland and Nova Scotia to the West Indies and Guiana The book begins with the first colonization of the Americas and stretches beyond the Revolution to the early national period Many texts are collected here for the first time others are recognized masterpieces of the canon both British and American that can now be read in their Atlantic context By emphasizing the culture of empire and by representing a transatlantic dialogue The English Literatures of America allows a new way to understand colonial literature both in the United States and abroad

The Lay of the Land Annette Kolodny, 2017-11-01 An original and highly unusual psycholinguistic study of American literature and culture from 1584 to 1860 this volume focuses on the metaphor of land as woman It is the first systematic documentation of the recurrent responses to the American continent as a feminine entity as Mother as Virgin as Temptress as the Ravished and it is also the first systematic inquiry into the metaphor's implications for the current ecological crisis

The Secret History in Literature, 1660-1820 Rebecca Bullard, Rachel Carnell, 2017-03-24 This collection explores for the first time the importance of secret history in the literature of the long eighteenth century

Frame Structures Susan Howe, 2014-05-15 In *Frame Structures* Susan Howe brings together those of her earliest poems she wishes to remain in print and in the forms in which she cares to have them last. Gathered here are versions of *Hinge Picture* 1974, *Chanting at the Crystal Sea* 1975, *Cabbage Gardens* 1979 and *Secret History of the Dividing Line* 1978 that differ in some respects from their original small press editions. In a long preface *Frame Structures* written especially for this volume Howe suggests the autobiographical, familial, literary and historical motifs that suffuse these early works. Taken together the preface and poems reflect her rediscovered sense of her own beginnings as a poet, her movement from the visual arts into the iconography of the written word. Susan Howe is a professor of English at the State University of New York Buffalo. Most of her later poetry has been collected in *The Nonconformist's Memorial* New Directions 1993, *The Europe of Trusts* Selected Poems Sun Moon Press 1990 and *Singularities* Wesleyan University Press 1990. She is also the author of two landmark books of postmodernist criticism: *The Birthmark* unsettling the wilderness in American literary history Wesleyan University Press 1993 and *My Emily Dickinson* North Atlantic Books 1985.

History of North Carolina John Lawson, 1903

Proceedings, American Philosophical Society (vol. 103, no. 6, 1959), **Patriarchy in Peril** Dennis Todd, 2023-07-07 William Byrd II was a prominent eighteenth century Virginian who at the time of his death owned over 180 000 acres and employed laborers and enslaved Africans to work his land. His letters, diaries and surveying documents have become key texts in the study of American history and he is one of the most quoted and discussed figures of his era. Byrd himself was perhaps the early colonial epitome of a patriarch and typically when historians examine Byrd and the prominence of patriarchal thought in colonial Virginia they examine his relationships with his immediate family. In this book however Dennis Todd examines the patriarchal relations between Byrd and the workers on his plantations, his apprentices, his wageworkers, his overseers, his white servants and especially his slaves. In doing so this book illuminates a neglected stage in the formation of slavery in Virginia. Todd argues that patriarchal principles which are often assumed to have justified slavery and to have offered a template for slave management in fact did neither. Byrd was not the only Virginian to wrestle with the contradictions between patriarchal values and the realities of slavery but few were as articulate. In examining Byrd through the twin lens of slavery and patriarchy *Patriarchy in Peril* makes an important contribution to our understanding of the man and his place in Virginia society as well as the contentious formation of early America.

American Literature Before 1880 Robert Lawson-Peebles, 2003-11-13 *American Literature Before 1880* attempts to place its subject in the broadest possible international perspective. It begins with Homer looking westward and ends with Henry James crossing the Atlantic eastwards. In between the book examines the projection of images of the East onto an as yet unrecognised West, the cultural consequences of Viking, Colombian and then English migration to America, the growth and independence of the British

American colonies the key writers of the new Republic and the development of the culture of the United States before and after the Civil War It is intended both as an introduction for undergraduates to the richness and variety of American Literature and as a contribution to the debate about its distinctive nature The book therefore begins with a lengthy survey of earlier histories of American Literature *The A to Z of Postmodernist Literature and Theater* Fran Mason, 2009-07-23

Postmodernist literature embraces a wide range of forms and perspectives including texts that are primarily self reflexive texts that use pastiche burlesque parody intertextuality and hybrid forms to create textual realities that either run in opposition to or in parallel with an external reality fabulations that develop both of these strategies texts that ironize their relationship to reality works that use the aspects already noted to more fully engage with political or cultural realities texts that deal with history as a fiction and texts that elude categorization even within the variety already explored For example in fiction a postmodernist novel might tell a story about a writer struggling with writing only perhaps to find that he is a character in a book by another writer struggling to write a book

The A to Z of Postmodernist Literature and Theater examines the different areas of postmodernist literature and the variety of forms that have been produced This is accomplished through a chronology an introductory essay a bibliography and several hundred cross referenced dictionary entries on individual postmodernist writers the important postmodernist aesthetic practices significant texts produced throughout the history of postmodernist writing and important movements and ideas that have created a variety of literary approaches within the form By placing these concerns within the historical philosophical and cultural contexts of postmodernism this reference explores the frameworks within which postmodernist literature of the late twentieth and early twenty first century operates *Sex and Sexuality in Early America* Merril D. Smith, 1998-09

Sex and sexuality have always been the subject of much attention both scholarly and popular Yet accounts of the early years of the United States tend to overlook the importance of their influence on the shaping of American culture This book addresses this neglected topic with original research covering a wide spectrum from sexual behavior to sexual perceptions and imagery and more *The Geographic Revolution in Early America* Martin Brückner, 2012-12-01

The rapid rise in popularity of maps and geography handbooks in the eighteenth century ushered in a new geographic literacy among nonelite Americans In a pathbreaking and richly illustrated examination of this transformation Martin Br ckner argues that geographic literacy as it was played out in popular literary genres written for example by William Byrd George Washington Thomas Jefferson Royall Tyler Charles Brockden Brown Meriwether Lewis and William Clark significantly influenced the formation of identity in America from the 1680s to the 1820s Drawing on historical geography cartography literary history and material culture Br ckner recovers a vibrant culture of geography consisting of property plats and surveying manuals decorative wall maps and school geographies the nation s first atlases and sentimental objects such as needlework samplers By showing how this geographic revolution affected the production of literature Br ckner demonstrates that the internalization of geography as a kind of

language helped shape the literary construction of the modern American subject Empirically rich and provocative in its readings *The Geographic Revolution in Early America* proposes a new geographical basis for Anglo Americans understanding of their character and its expression in pedagogical and literary terms **The Palgrave Handbook of Experimental Cinema** Kim Knowles,Jonathan Walley,2024-09-04 This book is a collection of newly commissioned essays by established and emerging scholars that maps out the current landscape of experimental cinema studies and sets agendas for future work in the field Introducing new critical methodologies and calling overdue attention to neglected artists regions and topics the contributions to this volume reassess and reassert experimental cinema as a site of formal exploration and interrogation as well as resistance to institutional political and social norms This collection articulates what it means for experimental cinema to be these things in the contemporary moment staking out new directions in thinking about the subject not only as a growing sub field of cinema studies but as an artistic and scholarly tradition in dialogue with art history visual culture philosophy and the sciences The contributions reflect a diversity of voices and perspectives weaving together theoretical poetic and personal modes of writing and traversing questions of form emotion materiality nationality postcoloniality the body and ecology Literary Indians Angela Calcaterra,2018-10-26 Although cross cultural encounter is often considered an economic or political matter beauty taste and artistry were central to cultural exchange and political negotiation in early and nineteenth century America Part of a new wave of scholarship in early American studies that contextualizes American writing in Indigenous space *Literary Indians* highlights the significance of Indigenous aesthetic practices to American literary production Countering the prevailing notion of the literary Indian as a construct of the white American literary imagination Angela Calcaterra reveals how Native people s pre existing and evolving aesthetic practices influenced Anglo American writing in precise ways Indigenous aesthetics helped to establish borders and foster alliances that pushed against Anglo American settlement practices and contributed to the discursive divided unfinished aspects of American letters Focusing on tribal histories and Indigenous artistry Calcaterra locates surprising connections and important distinctions between Native and Anglo American literary aesthetics in a new history of early American encounter identity literature and culture

Iconicity in Cognition and across Semiotic Systems Sara Lenninger,Olga Fischer,Christina Ljungberg,Elżbieta Tabakowska,2022-11-15 This volume investigates iconicity as to both comprehension and production of meaning in language gesture pictures art and literature It highlights iconic processes in meaning making and interpretation across different semiotic systems at structurally historically and pragmatically different levels of iconicity with special focus on Cognitive Semiotics Exploring the ubiquity of iconicity in verbal visual and gestural communication these contributions discuss it from the point of view of human meaning making examined as a phenomenon that is experienced embodied and often polysemiotic in nature **The New Encyclopedia of Southern Culture** M. Thomas Inge,2014-02-01 Offering a comprehensive view of the South s literary landscape past and present this volume of *The New Encyclopedia of Southern Culture* celebrates the

region's ever flourishing literary culture and recognizes the ongoing evolution of the southern literary canon. As new writers draw upon and reshape previous traditions, southern literature has broadened and deepened its connections not just to the American literary mainstream but also to world literatures, a development thoughtfully explored in the essays here. Greatly expanding the content of the literature section in the original Encyclopedia, this volume includes 31 thematic essays addressing major genres of literature, theoretical categories such as regionalism, the southern gothic, and agrarianism, and themes in southern writing such as food, religion, and sexuality. Most striking is the fivefold increase in the number of biographical entries, which introduce southern novelists, playwrights, poets, and critics. Special attention is given to contemporary writers and other individuals who have not been widely covered in previous scholarship.

Archaeology and the Modern World Martin Hall, 2015-12-22

Archaeology and the Modern World advances a new controversial theory of historical archaeology. Using new case studies, Martin Hall evaluates the major theoretical traditions in historical archaeology while contributing significantly to the debate. In this study, the author places an emphasis on material culture and the recent past to bring to light a picture of an unstable and violent early colonial world in which material culture played a crucial mediating role.
