Richard Leviton, 2007-09 We now live in the time of the Gaian hierophant This is the one who reveals and shows us how to relate to the sacred aspects of Gaia our planet Who is this hierophant Each of us when we join the campaign with Gaia against the desecration of our natural environment But first we have to discover what the Earth really is The Earth's thousands of sacred sites hold a secret they are functional parts of the planet's geomantic body consciousness nodes in the Earth's subtle body Each veils a Light temple each once known widely and remembered in myth and Welcome to Your Designer Planet documents 165 different kinds The Earth is not an accident of the cosmos but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness And the designers intended that humans help maintain it Want to help the ecosystem and modulate global warming and climate change Plug yourself into the Earth's Light grid through your nearest sacred site and start helping Earth Mysteries researcher Richard Leviton presents a working model of the Earth's geomantic reality based on 24 years of research The world's myths are the doorway into this fantastic domain of the Earth's visionary geography showing us where to go and what to do and even what kinds of spiritual beings to expect to see The future of the Earth is in our hands Here are some pages from its design manual showing us how to fine tune our wonderful host planet **Plateaus of Freedom** Mark Kristmanson, 2003-01-01 This book is a cultural studies reading of Canadian culture and its security dimension during the Second World War and then later the Cold War Kristmanson uses a wide variety of evidence to construct a provocative

argument about the formation and maturity of the Canadian state during the time period other historians have characterized as Canada s evolution from colony to nation Another Freedom Svetlana Boym, 2018-07-02 The word freedom is so overly used and frequently abused that it is always in danger of becoming nothing but a clich In Another Freedom Svetlana Boym offers us a refreshing new portrait of the age old concept Exploring the rich cross cultural history of the idea of freedom from its origins in ancient Greece to the present day she argues that our attempts to imagine freedom should occupy the space of not only what is but also what if Beginning with notions of sacrifice and the emergence of a public sphere for politics and art Boym expands her account to include the relationships between freedom and liberation modernity and terror and political dissent and creative estrangement While depicting a world of differences she affirms lasting solidarities based on the commitment to the passionate thinking that reflections on freedom require To do so Boym assembles a remarkable cast of characters Aeschylus and Euripides Kafka and Mandelstam Arendt and Heidegger and a virtual encounter between Dostoevsky and Marx on the streets of Paris By offering a fresh look at the strange history of this idea Another Freedom delivers a nuanced portrait of freedom one whose repercussions will be felt well into the future **Changing Landscapes** Daniela Colafranceschi, 2010 Survival City Tom Vanderbilt, 2010-04-15 On the road to Survival City Tom Vanderbilt maps the visible and invisible legacies of the cold war exhuming the blueprints for the apocalypse we once envisioned and chronicling a time when we all lived at ground zero In this road trip among ruined missile silos atomic storage bunkers and secret test sites a lost battleground emerges amid the architecture of the 1950s accompanied by Walter Cotten's stunning photographs Survival City looks deep into the national soul unearthing the dreams and fears that drove us during the latter half of the twentieth century A crucial and dazzling book masterful and for me at least intoxicating Dave Eggers A genuinely engaging book perhaps because Vanderbilt is skillful at conveying his own sense of engagement to the reader Los Angeles Times A retracing of Dr Strangelove as ordinary life Greil Marcus Bookforum An Introduction to the Literature of **eSwatini** Kerry Vincent, 2020-10-21 This book is the first comprehensive introduction to the literature of eSwatini It details a literary trajectory that begins with renditions of the country by early travelers and settlers and follows with the emergence of a national literature that is marked by early oral influences and molded by unique sociopolitical interests Along the way the author considers how contemporary writing by visitors expatriates and journalists have salvaged and recycled earlier images and attitudes through a series of representational and rhetorical practices. In particular the lingering influence of colonial discourse is explored in the context of the nation's pivotal incwala ritual A chapter on Hilda Kuper that situates her fiction and drama between outsider and insider accounts is followed by the final two chapters that trace the development of anglophone and siSwati writing and identify themes arising from the major literary genres produced by local authors The concluding section features a comprehensive registry of writers with brief summaries of their works The Routledge Atlas of Central Eurasian Affairs Stanley D. Brunn, Stanley W. Toops, Richard Gilbreath, 2012 Providing concisely written

they are being presented or dismissed in the ways that they are Some aspects of our pasts are venerated and memorialised for a variety of reasons while others are forgotten or even hidden This volume thus provides examples from across a spectrum Some phenomena are well suited to heritagisation such as animals memorialised for their bravery long past agricultural techniques and implements and impressive landscapes However this book also deals with products e g tobacco historical periods e q the Third Reich and scientific techniques e q genetic modification with negative connotations that extend beyond their heritage attributes This volume considers how the actors in the heritage industry admit valorise prioritise and rationalise historic resources as heritage products These findings provide practical examples of how heritage institutions privilege frame and or exclude a wide range of heritage items. They also contrast the invocations of sectional local national or class based and more cosmopolitan heritages and consider the extent to which innovation and change are or can be acknowledged within the heritage discourse Walking Art Practice Ernesto Pujol, 2016-05-01 a collection of intimate reflections by artist Ernesto Pujol which bring together his experiences as a former monk performance artist social choreographer and educator On the High Line Annik LaFarge, 2024-05-07 The most comprehensive up to date and acclaimed guide to the High Line by the leading expert on the history of the park now in a fully revised edition Built atop a former freight railroad the park in the sky is regularly cited as one of the premiere examples of adaptive reuse and guickly became one of New York's most popular destinations attracting more than 8 million visitors a year This updated Third Edition of On the High Line published to coincide with the fifteenth anniversary of the park s opening remains the definitive guide to the park that transformed an entire neighborhood and became an inspiration to cities around the globe In short entries organized by roughly two city block sections the guide provides rich details about everything in view on both sides of the park Illustrated with more than 110 black plants and horticulture and important industries and technological innovations that developed in the neighborhoods the park traverses from book publishing and food distribution to the introduction of cold storage and the development of radar the elevator and talking movies Updated to include newly opened sections of the park this edition also features a new conversation pertaining to the more controversial side of the High Line s story and how it became a poster child for the most grievous manifestations of gentrification and inequity in public spaces Author Annik LaFarge provides a frank discussion on how the park s leadership created a platform for discussing these issues and for advising other projects on how to work more inclusively and from a social justice and equity perspective On the High Line serves as an educated travel companion someone invisibly perched on a visitor's shoulder who can answer every question including what was here before moving back in time through the early 20th century the Industrial Revolution and the colonial and pre European times when this stretch of what we call Manhattan was home to the Lenape people and much of it was covered by the waters of the Hudson River A companion website with more than 650 photos historic contemporary rooftop and aerial can be viewed at HighLineBook com Geography of Loss Patti Digh, 2013-12-23 This extraordinary book is

borne of loss the loss of love of certainty and assuredness of knowing where we are or who we are of beauty and youth of health of life itself of privacy and of roles and of knowing When someone or something we love leaves us we suddenly walk alone into new territory without them We become strangers in new lands places where the landscape is unalterably changed where the center of gravity has somehow faltered and become weak making us feel as if we might fall off the surface of the earth Sometimes that moment of loss defines the rest of our lives becoming a center to our compass forever This unique book is a guidebook an atlas of those experiences of loss and grief a map for living through and into change and impermanence to moving on anew You are the navigator through the three main sections Embrace what is walk into your new landscape Honor what was be grateful for your old landscape Love what will be live into your future landscape Illustrated throughout with art submitted from around the world this book is an atlas of experience utilizing map imagery and the richly metaphoric evocative and functional language of geography to help you place yourself on your own journey to find your way through helpful exercises and an empathetic expert guide In the Ruins of the Cold War Bunker Luke Bennett, 2017-06-22 During the Cold War military and civil defence bunkers were an evocative materialisation of deadly military stand off They were also a symbol of a deeply affective pervasive anxiety about the prospect of world destroying nuclear war But following the sudden fall of the Berlin Wall in 1989 these sites were swiftly abandoned and exposed to both material and semantic ruination This volume investigates the uses and meanings now projected onto these seeming blank derelict spaces It explores how engagements with bunker ruins provide fertile ground for the study of improvised meaning making place attachment hobby practices social materiality and trauma studies With its commentators ranging across the arts and humanities and the social sciences this multi disciplinary collection sets a concern with the phenomenological qualities of these places as contemporary ruins and of their strange affective affordances alongside scholarship examining how these places embody and or otherwise connect with their Cold War originations and purpose both materially and through memory and trauma Each contribution reflexively considers the process of engaging with these places and whether via the archive or direct sensory immersion In doing so the book broadens the bunker's contemporary signification and contributes to theoretically informed analysis of ruination place attachment meaning making and material culture Lake District Natural History Walks Christopher Mitchell, 2004 Discover the Lake District's hidden wildlife geology and archaeology while enjoying walks in beautiful surroundings With walks from one to six miles readers can become nature detectives and solve the hidden mysteries
