New Progress of Regulations and Judicial Practice of Intellectual Property
Deli Cheng, Xinmiao Yu, Klaus Bacher, 2024-12-09

This open access book brings together two types of cases at home and abroad. One is the latest influential cases in the field of intellectual property rights in the past three years, and the other is the classic intellectual property cases in the world. The types of cases involve typical cases in the fields of patents, trademarks, copyrights, unfair competition, etc., involving a wide range of intellectual property laws and a complete range of categories. Some cases have been a sensation, and some legal issues have been raised or clarified for the first time in relevant judgments. Many cases not only have a wide range of social influence but also have typical legal application significance. Many cases involve facts and legal issues that go beyond the case and the adjudication itself and have greater reference significance. At the same time, we also attached the different opinions of some case judgments, such as the Concurring Opinion and the Dissenting Opinion in the US judgment, reflecting the different understandings of different judges on the application of the law. This part is also very meaningful.

Pisces Ascendant Secrets
Saket Shah, 2020-01-05

There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours, day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.
