

Long, Bony Fingers

Bert's memories from childhood were few. An accident when he was four years old caused the extraterrestrials to temporarily discontinue any intense meetings with him. They did, however, continue to track him. Just prior to the accident at age four, during one meeting with him they had placed the tracking device into his nostril and also placed the monitor into the back of his head.

Eventually we were told by the extraterrestrials that they were Andromes (pronounced an-drom'-ease) from Andromeda. The Andromes try to install the tracking device and monitor as early as possible in the human child. The variables are the physical condition of the child, the Andromes' schedule and the opportunities to access the child.

After Bert's accident at age four, the Andromes watched his medical progress throughout his recovery in the hospital but didn't attempt to have a meeting with him. Doing so could have caused further stress to his already weakened condition.

The Andromes who tracked Bert were not from the same ship that I knew from childhood. They were another group of Andromes stationed in another Androme ship. We now know that there are several of these ships assigned around Earth.

When Bert was about seven years old he was involved in a short meeting with them. During the meeting he recalled watching an Androme female while she was holding another human child, a young girl, above her and talking to her as an adult sometimes does with a child. Bert remembered how the black eyes of this rather short lady fascinated him. The kindness that she showed to both the little girl and Bert was almost like that of a mother. The meeting itself seemed to be simply a sharing of time, perhaps so that they would remain in his memory, perhaps for other reasons of which he was never made aware.

Viliborghi's exceptionally vivid dream comes this fascinating work of fiction that takes you into the interesting place called High Times. As you delve deep into High Times: An Alien Paradise, you'll find satisfaction, intrigue, romance, revelation, humor, mystery, good times, and insight into the future of humankind. Meet an ensemble of charming characters who will show you the beauty and delight of living and working in High Times. Follow Horn, who narrates this story, as he tells you of how he enjoys waking up everyday to work as a saxophone player in a band at High Times. So what makes High Times that interesting? It is an unusual restaurant, nightclub, bar, dance hall. High Times, or HT, as fondly called by its employees, is not the typical place for entertainment and eating. It even has a romantic, heated indoor, basement, heart-shaped swimming pool. The founders of High Times have built HT mostly to get friends together, especially those who have common interests in an environment of intimacy where the best of conversation, dance music, and most of all, good warm feelings can be cultivated and expressed. But is this all there is to it, or is there some mystery and intrigue behind the facade of High Times? Find out in author Mark Russell Viliborghi's High Times: An Alien Paradise. Book Reviews: A topsy-turvy, psychedelic science fiction tale starring an eclectic array of beings, human and otherwise, based on an exceptionally lucid dream experienced by author Viliborghi. Viliborghi's hero is Horn, a musician at a small nightclub called High Times. For Horn, life is so exciting that he can't wait to see what comes next. He lives to play music, loves his band mates, is well paid, and maintains a nice flat in a nearby post-war apartment building. Actually, he explains, "I have accidentally found myself in a million-dollar lifestyle without the responsibilities or stresses. We who work at High Times are all riding a train through Shangri-La. I hope it never ends, and I just knew life could be this good. But not all is how it appears. As Horn soon discovers, there is a mysterious presence in the basement of the apartment complex. The place gives me that funny feeling," he says, "the one where you walk backwards out so that you don't turn your back on whatever is there." High Times is comprised of two narratives, each carefully intertwined by Viliborghi. The first is the more straightforward: Horn recruits a new female lead singer for his band and promptly falls in love. The band plays gigs and earns the respect of the community. Meanwhile, the author delves into the stories of the other denizens of the apartment complex, including a young couple named Jack and Jill. But the book is also a sci-fi adventure, and much of the book is concerned with Horn's search for life in the basement. High Times appears to be a kind of portal which connects the nightclub and the apartment complex to a powerful alien being. Viliborghi's writing often falls flat, but his plotting is solid, and the book moves from the early scenes to the surprising, exciting ending with a good deal of ballast. Extraterrestrial happenings make this an intriguing ride. Kirkus Discoveries. *A Nest of Magpies*, Sybil Marshall, 1994-10-15.
