Secretaries Of God Women Prophets In Late Medieval And Early Modern England:

Secretaries of God Diane Watt, 1997 The English women prophets and visionaries whose voices are recovered here all lived between the twelfth and the seventeenth centuries and claimed through the medium of trances and eucharistic piety to speak for God Through prophecy they were often able to intervene in the religious and political discourse of their times the role of God's secretary gave them the opportunity to act and speak autonomously and publicly Back cover **Laura Battiferra and Her Literary Circle** Laura Battiferra degli Ammannati, 2007-11-01 Internationally known during her lifetime Laura Battiferra 1523-89 was a gifted and prolific poet in Renaissance Florence The author of nearly 400 sonnets remarkable for their subtlety intricate narrative structure and learned allusions Battiferra who was married to the prominent sculptor and architect Bartolomeo Ammannati traversed an elite literary and artistic network circulating her verse in a complex and intellectually fecund exchange with some of the most illustrious figures in Italian history In this bilingual anthology Victoria Kirkham gathers Battiferra's most essential writing including newly discovered poems which provide modern readers with a valuable social chronicle of sixteenth century Italy and the courtly culture of the Counter Reformation *Six Renaissance Men and Women* Elisabeth Salter, 2007 In this innovative study Elisabeth Salter reconstructs the lives of six men and women of the early Renaissance and leads us on a quest to reconstruct their lost cultural worlds The six men and women are all figures from the margins of the royal courts during the reigns of Henry VII and Henry VIII This book will appeal to historians of the late medieval period and the Renaissance and will serve as an exemplary model to scholars of biographical reconstruction *Women and Gender in Medieval Europe* Margaret Schaus, 2006 Publisher description [The Language of Heresy in Late Medieval English Literature](#) Erin K. Wagner, 2024-04-22 Vernacular writers of late medieval England were engaged in global conversations about orthodoxy and heresy Entering these conversations with a developing vernacular required lexical innovation The Language of Heresy in Late Medieval English Literature examines the way in which these writers complemented seemingly straightforward terms like heretic with a range of synonyms that complicated the definitions of both those words and orthodoxy itself This text proposes four specific terms that become collated with heretic in the parlance of medieval English writers of the 14th and 15th centuries jangler Jew Saracen and witch These four labels are especially important insofar as they represent the way in which medieval Christianity appropriated and subverted marginalized or vulnerable identities to promote a false image of unassailable authority [Heresy Trials and English Women Writers, 1400-1670](#) Genelle Gertz, 2012-06-14 By analyzing the interrogations of Margery Kempe Anne Askew Marian Protestant women Margaret Clitherow and Quaker women Genelle Gertz examines the complex dynamics of women's writing preaching and authorship under religious persecution and censorship and uncovers unexpected connections between the writings of women on trial for their religious beliefs **Unquiet Things** Colin Jager, 2015 In Great Britain during the Romantic period governmental and social structures were becoming more secular as religion was privatized and depoliticized

If the discretionary nature of religious practice permitted spiritual freedom and social differentiation however secular arrangements produced new anxieties Unquiet Things investigates the social and political disorders that arise within modern secular cultures and their expression in works by Jane Austen Horace Walpole Samuel Taylor Coleridge Lord Byron and Percy Shelley among others Emphasizing secularism rather than religion as its primary analytic category Unquiet Things demonstrates that literary writing possesses a distinctive ability to register the discontent that characterizes the mood of secular modernity Colin Jager places Romantic era writers within the context of a longer series of transformations begun in the Reformation and identifies three ways in which romanticism and secularism interact the melancholic mood brought on by movements of reform the minoritizing capacity of literature to measure the disturbances produced by new arrangements of state power and a prospective romantic thinking Jager calls after the secular The poems novels and letters of the romantic period reveal uneasy traces of the spiritual past haunted by elements that trouble secular politics at the same time they imagine new and more equitable possibilities for the future In the twenty first century Jager contends we are still living within the terms of the romantic response to secularism when literature and philosophy first took account of the consequences of modernity Catechisms and Women's Writing in Seventeenth-Century England Paula

Kaartinen,2002-05-10 Marjo Kaartinen has brought the world of monks friars and nuns freshly alive in the late fifteenth and early sixteenth century Their monastic vows obedience poverty chastity and stability still made a difference to them and to the laypeople around them even when they failed to live up to them Much of Kaartinen s story is told through the words of the religious themselves from self defence to self criticism and this makes the reading all the better Religious Life and English Culture in the Reformation helps us understand why some forms of Catholic sensibility lasted so long and why Protestant reformers drew from the very ideals they wanted to undermine *Manuscript Culture and Medieval Devotional Traditions* Jennifer N. Brown,Nicole R. Rice,2021 Essays exploring the great religious and devotional works of the Middle Ages in their manuscript and other contexts **The Oxford Handbook of the Protestant Reformations** Ulinka Rublack,2016-12-15 This is the first Handbook of the Reformations to include global Protestantism and the most comprehensive Handbook on the development of Protestant practices which has been published so far The volume brings together international scholars in the fields of theology intellectual thought and social and cultural history Contributions focus on key themes such as Martin Luther or the Swiss reformations offering an up to date perspective on current scholarly debates but they also address many new themes at the cutting edge of scholarship with particularly emphasis on the history of emotions the history of knowledge and global history This new approach opens up fresh

perspectives onto important questions how did Protestant ways of conceiving the divine shape everyday life ideas of the feminine or masculine commercial practices politics notions of temporality or violence The aim of this Handbook is to bring to life the vitality of Reformation ideas In these ways the Handbook stresses that the Protestant Reformations in all their variety and with their important radical wings must be understood as one of the lasting long term historical transformations which changed Europe and subsequently significant parts of the world **Middle English Literature** Roger

Reformation Reputations David J. Crankshaw,George W. C. Gross,2020-11-10 This book highlights the pivotal roles of individuals in England s complex sixteenth century reformations While many historians study broad themes such as religious moderation this volume is centred on the perspective that great changes are instigated not by themes or isms but rather by people a point recently underlined in the 2017 quincentenary commemorations of Martin Luther s protest in Germany That sovereigns from Henry VIII to Elizabeth I largely drove religious policy in Tudor England is well known Instead the essays collected in this volume inspired by the quincentenary and based upon original research take a novel approach emphasizing the agency of some of their most interesting subjects Protestant and Roman Catholic clerical and lay men and women With an introduction that establishes why the commemorative impulse was so powerful in this period and explores how reputations were constructed perpetuated and manipulated the authors of the nine succeeding chapters examine the reputations of three archbishops of Canterbury Thomas Cranmer Matthew Parker and John Whitgift three pioneering bishops wives Elizabeth Coverdale Margaret Cranmer and Anne Hooper two Roman Catholic martyrs John Fisher and Thomas More one evangelical martyr other than Cranmer Anne Askew two Jesuits John Gerard and Robert Persons and one author whose confessional identity remains contested Anthony Munday Partly biographical though mainly historiographical these essays offer refreshing new perspectives on why the selected figures are famed or should be famed and discuss what their reformation reputations tell us today *The Palgrave Handbook of Infertility in History* Gayle Davis,Tracey

Loughran,2017-09-01 This ground breaking interdisciplinary volume provides an overdue assessment of how infertility has been understood treated and experienced in different times and places It brings together scholars from disciplines including history literature psychology philosophy and the social sciences to create the first large scale review of recent research on the history of infertility Through exploring an unparalleled range of chronological periods and geographical regions it develops historical perspectives on an apparently transhistorical experience It shows how experiences of infertility access to treatment and medical perspectives on this condition have been mediated by social political and cultural discourses The handbook reflects on and interrogates different approaches to the history of infertility including the potential of cross disciplinary perspectives and the uses of different kinds of historical source material and includes lists of research resources to aid teachers and researchers It is an essential go to point for anyone interested in infertility and its history Chapter 19 is open access under a CC BY 4 0 license via link [springer com](https://www.springer.com) Enrico; or, Byzantium Conquered Lucrezia

Marinella,2009-09-15 Lucrezia Marinella 1571 1653 is by all accounts a phenomenon in early modernity a woman who wrote and published in many genres whose fame shone brightly within and outside her native Venice and whose voice is simultaneously original and reflective of her time and culture In Enrico or Byzantium Conquered one of the most ambitious and rewarding of her numerous narrative works Marinella demonstrates her skill as an epic poet Now available for the first time in English translation Enrico retells the story of the conquest of Byzantium in the Fourth Crusade 1202 04 Marinella intersperses historical events in her account of the invasion with numerous invented episodes drawing on the rich imaginative legacy of the chivalric romance Fast moving colorful and narrated with the zest that characterizes Marinella s other works this poem is a great example of a woman engaging critically with a quintessentially masculine form and subject matter writing in a genre in which the work of women poets was typically shunned Archaic Style in English Literature, 1590-1674 Lucy Munro,2013-11-28 Ranging from the works of Shakespeare Spenser Jonson and Milton to those of Robert Southwell and Anna Trapnel this groundbreaking study explores the conscious use of archaic style by the poets and dramatists between 1590 and 1674 It focuses on the wide ranging complex and self conscious uses of archaic linguistic and poetic style analysing the uses to which writers put literary style in order to re embody and reshape the past Munro brings together scholarly conversations on temporality memory and historiography on the relationships between medieval and early modern literary cultures on the workings of dramatic and poetic style and on national history and identity Neither pure anachronism nor pure nostalgia the attempts of writers to reconstruct outmoded styles within their own works reveal a largely untold story about the workings of literary influence and tradition the interactions between past and present and the uncertain contours of English nationhood
