

The background of the book cover is a dramatic landscape photograph. It shows a dark, silhouetted landmass in the foreground, possibly a headland or a large rock formation, with a bright, glowing sun or moon low on the horizon behind it. The sky is filled with textured, layered clouds in shades of blue, grey, and white, suggesting a misty or stormy atmosphere. The overall color palette is cool and atmospheric, with the warm light of the sun providing a focal point.

Secrets Of Ancient And Sacred Places:

Secrets of Ancient and Sacred Places Paul Devereux, 1999-06-23 This unique book provides a new perspective on the past and reveals how sights we all know and which are universally recognised still retain and reveal to us the old knowledge of our world and our ancestors In our march of progress we have gained untold material wealth but certain vital aspects of being human conscious and part of nature seem to have slipped from our grasp Guidelines that might help our future way ironically lie in the past In short we need to discover the secrets of ancient and sacred places Paul Devereux takes a refreshing look at the often hidden ignored or often overlooked aspects of selected major sites world wide that significantly UNESCO the cultural agency of the United Nations has also included in its world heritage list of important natural or cultural sites

Secret Societies Philip Gardiner, 2007-06-15 With his recent best selling books and hundreds of articles as well as radio and TV appearances Philip Gardiner has started a crusade for uncovering the truth and nothing could be more indicative of that search than his latest foray into the dark and often sinister world of secret societies Yet again Gardiner finds himself on a journey across the world to uncover the ancient secrets of the world s most powerful men In one dramatic episode he finds himself driven out of Berlin in a black Mercedes by a secret organization that was believed to have disappeared after the second World War and eventually arrives in a modern Nazi watering hole Gardiner however survives this incredible journey and brings us the secrets of the Order held sacred for so long Gardiner delves into a world that is often hidden from our eyes and finds himself in situations that seem to mirror the fictional world of the Da Vinci Code Throughout **Secret Societies** Gardiner Uncovers an ancient secret society thought to have died out many years ago Gets to the core of the secret societies belief systems Explores the secret origins of Freemasonry and the links to secret Serpent Cults Investigates the secret hidden meaning of King Arthur and Robin Hood Examines the claimants to the name of Illuminati and analyzes the history of the group in Europe and America Reveals the secret links within the Vatican and the Nazi Party Looks in depth at the white powdered gold theory supposedly kept secret by orders throughout time and radically re appraises it Shows the link between the so called enlightenment experience and the control of our minds Nobody in the genre involves themselves in the tale in the same way that Gardiner does and here he shows that the search for ultimate truth can often be a terrifying one
