**The Secret Doctrine** H.P. Blavatsky,1917 *The Secret Doctrine* Helena Petrovna Blavatsky,1925 **Making Transcendents** Robert Ford Campany,2009-02-18 Honorable Mention Joseph Levenson Prize pre 1900 category Association for Asian Studies By the middle of the third century B C E in China there were individuals who sought to become transcendents xian deathless godlike beings endowed with supernormal powers This quest for transcendence became a major form of religious expression and helped lay the foundation on which the first Daoist religion was built Both xian and those who aspired to this exalted status in the centuries leading up to 350 C E have traditionally been portrayed as secretive and hermit like figures This groundbreaking study offers a very different view of xian seekers in late classical and early medieval China It suggests that transcendence did not involve a withdrawal from society but rather should be seen as a religious role situated among other social roles and conceived in contrast to them Robert Campany argues that the much discussed secrecy surrounding ascetic disciplines was actually one important way in which practitioners presented themselves to others He contends moreover that many adepts were not socially isolated at all but were much sought after for their power to heal the sick divine the future and narrate their exotic experiences The book moves from a description of the roles of xian and xian seekers to an account of how individuals filled these roles whether by their own agency or by others or often by both Campany summarizes the repertoire of features that constituted xian roles and presents a detailed example of what analyses of those cultural repertoires look like He charts the functions of a basic dialectic in the self presentations of adepts and examines their narratives and relations with others including family members and officials Finally he looks at hagiographies as attempts to persuade readers as to the identities and reputations of past individuals His interpretation of

these stories allows us to see how reputations were shaped and even co-opted sometimes quite surprisingly into the ranks of xian. Making Transcendents provides a nuanced discussion that draws on a sophisticated grasp of diverse theoretical sources while being thoroughly grounded in traditional Chinese hagiographical, historiographical and scriptural texts. The picture it presents of the quest for transcendence as a social phenomenon in early medieval China is original and provocative as is the paradigm it offers for understanding the roles of holy persons in other societies. The Early Chinese Empires Mark Edward Lewis, 2010-10-30 In 221 bc the First Emperor of Qin unified the lands that would become the heart of a Chinese empire. Though forged by conquest, this vast domain depended for its political survival on a fundamental reshaping of Chinese culture. With this informative book we are present at the creation of an ancient imperial order whose major features would endure for two millennia. The Qin and Han constitute the classical period of Chinese history, a role played by the Greeks and Romans in the West. Mark Edward Lewis highlights the key challenges faced by the court officials and scholars who set about governing an empire of such scale and diversity of peoples. He traces the drastic measures taken to transcend without eliminating these regional differences: the invention of the emperor as the divine embodiment of the state; the establishment of a common script for communication and a state-sponsored canon for the propagation of Confucian ideals; the flourishing of the great families whose domination of local society rested on wealth, landholding and elaborate kinship structures; the demilitarization of the interior and the impact of non-Chinese warrior nomads in setting the boundaries of an emerging Chinese identity. The first of a six-volume series on the history of imperial China, The Early Chinese Empires illuminates many formative events in China's long history of imperialism, events whose residual influence can still be discerned today. **Jade** Richard Alexander, 1928

**Traditional Japanese Arts and Culture** Stephen Addiss, Gerald Groemer, J. Thomas Rimer, 2006-01-31 This admirable and necessary volume allows the original writers to speak to us directly. Though all this is carefully documented, we are at the same time spared any layers of scholarly interpretation. Rather, the richness of the original reaches us complete. Donald Richie, Japan Times, May 14, 2006. Japanese artists, musicians, actors and authors have written much over the centuries about the creation, meaning and appreciation of various arts. Most of these works, however, are scattered among countless hard-to-find sources or make only a fleeting appearance in books devoted to other subjects. Compiled in this volume is a wealth of original material on Japanese arts and culture from the prehistoric era to the Meiji Restoration, 1867. These carefully selected sources, including many translated here for the first time, are placed in their historical context and outfitted with brief commentaries allowing the reader to make connections to larger concepts and values found in Japanese culture. The book is a treasure trove of material on the visual and literary arts, but it contains as well primary texts on topics not easily classified in Western categories such as the martial and culinary arts, the art of tea and flower arranging. More than 60 color and black and white illustrations enrich the collection and provide further insights into Japanese artistic and cultural values. **Strange Writing** Robert Ford, 1996-01-01 This is the first comprehensive Western language study of the important Chinese genre of

writing known as accounts of the anomalies zhiguai in its formative period The book sets forth a new view of the nature and origins of the genre     *Karmic Relationships* Rudolf Steiner,2002-05-28 During 1924 before his last address in September Rudolf Steiner gave over eighty lectures on the subject of karma to members of the Anthroposophical Society These profoundly esoteric lectures examine the underlying laws inherent in reincarnation and karma and explore in detail the incarnations of specific historical figures In Rudolf Steiner s words the study of karma is a matter of penetrating into the most profound mysteries of existence for within the sphere of karma and the course it takes lie those processes which are the basis of the other phenomena of world existence A study of the karma of the anthroposophical movement and society the spiritual gates of the sun and moon and much more 9 lectures various cities 25 Jan to 20 Jul 1924 GA235 236 240     *Tai Chi Chuan and the Code of Life* Graham Horwood,2008 New Age     *The Secret Doctrine: Anthropogenesis* Helena Petrovna Blavatsky,1977 Vol 1 Cosmogogenesis A Facsimile of the Original Edition of 1888     *The Buddhist Tradition* William Theodore de Bary,2011-03-16 This book compiled from basic Buddhist writings presents a survey of Buddhist thought in India China and Japan covering the central doctrines and practices that has profoundly influenced human life in Asia Developments in practical ethics social attitudes philosophical speculation and religious and aesthetic contemplation are represented by selected excerpts from basic writings with succinct introductions and commentary From these one may observe not only the remarkable vitality of Buddhism in its spread through Asia but also the essential links between widely diverse forms showing how the spiritual message of the Buddha found expression in different historical and cultural circumstances Thus both its continuity in time and its wide range of influence mark Buddhism as a major spiritual force in the world Buddha as the Awakened One has exemplified to millions of followers throughout the ages a living Truth a dynamic wisdom and an active compassion It is these qualities that have inspired hope and courage in men who were asked to face to the stark reality of man s condition the inevitable involvement in suffering which arises from his persistent egoism and refusal to recognize his finitude     *To the Kowloon Station* Jacob Adelman,2005
