Secrets Of South Sahara:

Secrets of South Sahara Mark Milburn, 1979 An Engraved Landscape: Rock carvings in the Wadi al-Ajal, Libya
Tertia Barnett, 2023-02-23 An Engraved Landscape is a contextual analysis of a substantial new corpus of engravings from the Wadi al Ajal situated in the Central Saharan region of south west Libya The wadi is renowned as the heartland of the Garamantian civilization which emerged from local mobile Pastoral communities in the 1st millennium BC and dominated trans Saharan trade and politics for over a thousand years Extensive archaeological and palaeoenvironmental investigations in recent years have provided detailed insight into the later prehistory and protohistory of the wadi and surrounding areas However prior to the fieldwork detailed in this work only a handful of carvings had been recorded in the wadi This work is based on systematic survey conducted between 2004 and 2009 which recorded around 2 500 previously unknown or unpublished engraved and inscribed rock surfaces All forms of engraving whether figurative or surface markings were viewed as significant residues of human interaction with the rock surface and were recorded The resulting database provides an opportunity to analyze the engravings in relation to their changing physical and cultural contexts and the discussion offers a fresh interpretation of Saharan rock art based on this substantial new evidence An Engraved Landscape also captures in detail a unique heritage resource that is currently inaccessible and threatened This record of the fragile engravings provides an important source of information for researchers and students **Scientific Reviews on Arid Zone Research** ,1988
