

FIVE SECRETS OF Successful Investors

The investors that profit year after year aren't the smartest. They're not the most experienced. And luck has nothing to do with it.

They do, however, share a few common traits that you see in the best investors throughout history. Start adopting these traits today and watch your profits improve!

1 THEY TRADE WITH THE TREND, NOT AGAINST IT.

There is one golden rule to follow regardless of your trading style: Up or down, the market trend is your friend. **3 out of 4** stocks follow the overall trend of the market. No matter how great a stock's fundamentals, if the market is in a downtrend, buying is risky. Instead, work on building a watchlist of quality stocks while you wait for an uptrend.

2 THEY TIME THEIR TRADING.

When the market is in an uptrend, it is still important to buy a stock when it has the most potential to go higher—and a stock chart can help you do that. When institutions—big mutual funds and pension funds—accumulate a stock, it shows up on a stock's chart. That's one sign that it's a good time to buy.

3 THEY USE RULES.

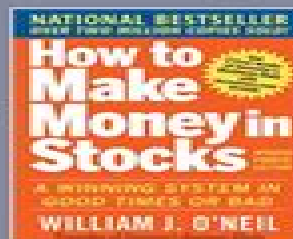

Use a set of clear-cut, actionable "if-then" rules to manage your portfolio and how you trade individual stocks.

Follow the rules instead of relying on tips, hunches or emotions. It'll give you a consistent approach to making profits and taking control of your portfolio. Most importantly, it will install DISCIPLINE.

"Follow the rules instead of relying on tips, hunches or emotions."

4 THEY KNOW THEIR INVESTING STYLE.

But where do you find good rules? If you are a growth investor, you'll benefit by following the detailed set of rules explained in **How to Make Money in Stocks** by William J. O'Neil. Other well-known books on growth stock investing include **One Up on Wall Street** by Peter Lynch and **Think and Grow Rich** by Napoleon Hill. Spend time researching successful investors who apply methods that fit your investing style and align with your goals.

5 THEY KEEP FOUR EMOTIONS IN CHECK.

These four emotions are responsible for bubbles, crashes and basically everything that investors aim to avoid.

FEAR and GREED work together to drive our worst buy and sell decisions.

To make matters worse, PRIDE steps in and leads us to rationalize losses.

And HOPE can make us hold on to stocks that demolish profits—if not entire portfolios.

The Binary Secret Helmut Strauss, 2015 Dear reader I am very happy that you have found your way to The binary secret First I would like to briefly introduce myself My name is Helmut Strauss I am in my early forties happily married and have two children We live in a small town in Germany I am not a financial expert nor am I a financial service provider I am a carpenter by trade and run my own shop With this shop I have fulfilled a dream of mine In the past I gladly let my hard earned money work for me in the financial sector Unfortunately like almost everybody the financial crisis hit me pretty hard back in 2008 This is why after the collapse I initially switched over to other investment opportunities which were only partially tied to the financial sector But among those products I didn t find anything suitable for me either not something I could stand behind 100% That s why I invested all of my money into my shop and grew it into a small thriving enterprise My wife takes care of customer relations while I immerse myself in my carpentry work As we all know life writes its own story and so it happened that a customer of mine told me about the subject of binary options The idea of enabling somebody to trade stocks currencies indices and commodities in a simple manner fascinated me more and more I started making inquiries research the legalities and began involving my wife Suddenly the desire grew in me to try my hand at trading with binary options Now I wanted to trade myself My wife doesn t know a thing about the financial sector and has refused to busy herself with it for as long as I ve known her Therefore I expected it to be difficult to convince her to approve of my wish But after an

evening at a friend's house during which our host expressed a keen interest in the subject she too started pricking her ears We talked about the subject she listened attentively and the idea to publish an e book about the subject of binary options was born My sister worked as an editor at a publishing house at the time so the idea of using her experience and contacts was self evident My order books were full and I was in the middle of production for a few dozen customers But after I had showed my two women everything and had explained to them the concept of Binary Options they were also on fire and were ecstatic about the idea to give everyone the chance to participate in the trading of stocks currencies indices and commodities And that without risk and with only small financial exposure A market which until recently was reserved exclusively for the wealthy was now accessible for practically everybody Hence it was clear to us that this e book had the highest priority over everything else Our family is very social minded and we like to help people This mind set is reflected in the Concept of Brokerage Houses this is why it fits perfectly into our life and our day to day business After a long and very intense test phase in which I thoroughly investigated several portals I can now with a clear conscience depict my findings in this book For a few weeks I made it my full time job to research binary options I sacrificed my complete annual vacation During that time I talked with many people from that sector combed through forums and watched instructional videos I tested trading on various platforms and got my own picture of this wonderful new market After all these weeks I am increasingly enthusiastic about the subject of binary options and now can't wait to share my experiences with you I have tried to make the specific terminology of the market comprehensible as much as possible because unfortunately the financial sector has its own language and to make the subject accessible to you where possible in an entertaining and vivid manner I have also dealt with the subject of auto binary options a simple way to trade without any previous knowledge Have fun reading Helmut Strauss This ebook was realised with the friendly assistance of Autobinary <http://bunitd.com/b/8/id/106769/m/576> Cedar Finance <http://bunitd.com/b/8/id/106769/m/849> Regal Option <http://bunitd.com/b/11/id/106769/m/599> 24 Option <http://option.go2jump.org> SHkMR **Successful Stock Signals for Traders and Portfolio Managers** Tom K.
