masterfully told memoir but it's also an important one that pushes back against powerful taboos. The New York Times Book Review, Explosive Good Morning America, Sublime Bookpage, starred review. When Catherine Cho and her husband set off from London to introduce their newborn son to family scattered across the United States, she could not have imagined what lay in store. Before the trip's end, she develops psychosis, a complete break from reality which causes her to lose all sense of time and place, including what is real and not real. In desperation, her husband admits her to a nearby psychiatric hospital where she begins the hard work of rebuilding her identity. In this unwaveringly honest, insightful, and often shocking memoir, Catherine reconstructs her sense of self, starting with her childhood as the daughter of Korean immigrants moving through a traumatic past relationship and on to the early years of her courtship with and marriage to her husband James. She masterfully interweaves these parts of her past with a vivid, immediate recounting of the days she spent in the ward. The result is a powerful exploration of psychosis and motherhood, at once intensely personal yet holding within it a universal experience of how we love, live, and understand ourselves in relation to each other.

Thirty Years in September - A Nurse's Memoir Kate Genovese, 2013-04-01

When sixteen-year-old Kate Genovese went to visit her sister Denise in the hospital in 1968, she claims something clicked: that very moment I wanted to make Denise better again, heal her shattered body and make her laugh. I couldn't put words to my feelings, but I knew I wanted to do more than just visit. That day, Kate discovered her calling in life nursing and spent the next thirty years on an adventure that has been at once rewarding and devastating, tumultuous and spiritual. Her memoir poignantly describes the adventures of her nursing career, beginning with her trial some days as an LPN where she lost her nursing license because of a drug addiction, her recovery and going back to school once again to obtain her RN. The memoir meanders through the eighties and nineties where she writes about her experiences with insurance companies and federal Medicare systems which have proven to be somewhat flawed in the method in which they fund patients. Interspersed within the memoir are hilarious anecdotes about nursing mishaps, magical accounts of patients having near-death experiences, and tales of strength, hope, and courage in a world of sickness and death.

_____ Kate Genovese has been a registered nurse for over 30 years. She has worked in the substance abuse field with physically and sexually abused children, as well as school nursing for five years. Kate presently works for a visiting nurse association. Her other books, *Loving Joe Gallucci* and *Two Weeks Since My Last Confession*, are also available in print and ebook formats.
