Looking Beyond The Entry Issue Implications For Education And Service:

Transforming RN Education Nancy L. Diekelmann, Marsha L. Rather, 1993 This book provides a provocative exchange on education for the returning RN Contributors look at the challenges that returning RNs face throughout their careers This is a thorough guide to RN education from curriculum development to teaching strategies Nursing the Nation Jean C. Whelan, 2021-02-12 Nursing the Nation explores how nurses became employees of hospital and care agencies rather than independent individual contractors It also demonstrates how nurses missed opportunities to control their own destinies in practice but gained the ability to establish themselves as the most critical part of health care today *Perspectives in Nursing, 1987-1989* National League for Nursing, 1988 This book includes major presentations from the National League for Nursing's 18th biennial convention A revolution in the American way of health care is underway and it's likely to be as far reaching as any economical and social upheaval we've known The stakes are high Who gets how much money out of one of America's top three industries Who suffers how much pain and for how long In short who lives who dies who pays and who decides Joseph A Califano Jr on back cover We are at a time of change in our profession throughout the world and the pressure of shortages will accelerate that change and make health policymakers likely to interfere in our affairs more than we might wish To try to dilute that interference we must be able to answer the questions the policymakers ask us and the international environment will provide us with answers to those questions We must all be aware of the extent to which our governments and the corporations that employ nurses work in the international environment picking up ideas all of the time Trevor Clay on back cover **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1988

The War on Sex David M. Halperin, Trevor Hoppe, 2017-03-09 The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States This state of the art collection tells a different story while progress has been made in marriage equality reproductive rights access to birth control and other areas government and civil society are waging a war on stigmatized sex by means of law surveillance and social control The contributors document the history and operation of sex offender registries and the criminalization of HIV as well as highly punitive measures against sex work that do more to harm women than to combat human trafficking They reveal that sex crimes are punished more harshly than other crimes while new legal and administrative regulations drastically restrict who is permitted to have sex By examining how the ever intensifying war on sex affects both privileged and marginalized communities the essays collected here show why sexual liberation is indispensable to social justice and human rights Contributors Alexis Agathocleous Elizabeth Bernstein J Wallace Borchert Mary Anne Case Owen Daniel McCarter Scott De Orio David M Halperin Amber Hollibaugh Trevor Hoppe Hans Tao Ming
