Love Or Constraint:

The Oxford Handbook of the Philosophy of Love Christopher Grau, Aaron Smuts, 2024 The Oxford Handbook of the Philosophy of Love offers a wide array of original essays from leading philosophers on the nature and value of love *The doctrine of divine love; or, Outlines of the moral theology of the Evangelical Church.* Tr. by S. Taylor Ernst Wilhelm C. Sartorius, 1884 **Love Analyzed** Roger Lamb, 2018-02-20 Philosophers have turned their attention in recent years to many previously unmined topics among them love and friendship In this collection of new essays in philosophical and moral psychology philosophers turn their analytic tools to a topic perhaps most resistant to reasoned analysis erotic love Also included is one previously published paper by Martha Nussbaum Among the problems discussed are the role that qualities of the beloved play in love the so called union theory of love intentionality and autonomy in love and traditional issues surrounding jealousy and morality *The Constraining Power of the Love of Christ. A Sermon, Preached on ... Oct. 28. 1806, in the Episcopal Chapel, Cowgate, for the Benefit of the Charitable Female Society, Edinburgh* Miles Jackson, 1806

A New Kirchhoff-Love Beam Element and its Application to Polymer Mechanics Matthias C. Schulz, 2022-09-21 The novel finite element formulations fall into the category of geometrically exact Kirchhoff Love beams A prominent characteristic of this category is that the absence of shear deformation is strongly enforced by removing two degrees of freedom Further the corresponding beam theories exhibit not only translational but also rotational degrees of freedom and their configurations thus form a non additive and non commutative space Sophisticated interpolation schemes are required that need to be tested not only for locking spatial convergence behavior and energy conservation but also for observer invariance and path independence For the three novel beam element formulations all these properties are analytically and numerically studied and confirmed if applicable Two different rotation parameterization strategies are employed based on the well known geodesic interpolation used in many Simo Reissner beams and the lesser known split into the so called textit smallest rotation and a torsional part Application of the former parameterization results in a mixed finite element formulation intrinsically free of locking phenomena Additionally the first geometrically exact Kirchhoff Love beam element is presented which strongly enforces inextensibility by removing another degree of freedom Furthermore the numerical efficiency of the new beam formulations is compared to other beam elements that allow for or suppress shear deformation When modeling very slender beams the new elements offer distinct numerical advantages Standard molecular dynamics simulations which are commonly used to study polymers suffer from a lack of a careful mathematical basis and the use of an expensive explicit time integration scheme To circumvent these shortcomings and to be able to simulate stretching experiments on relevant time scales the problem is described by a stochastic partial differential equation which can be solved using the finite element method with a backward Euler temporal discretization In detail the polymer is represented by a Kirchhoff Love beam with a linear elastic constitutive model Inertial and electrostatic forces are neglected It is deformed by a distributed load mimicking

collisions with molecules of the surrounding fluid Naturally this load heavily fluctuates over time and space and mean values need to be computed in a Monte Carlo manner To vastly speed up the fitting process to experimental data in a Bayesian framework a surrogate model based on a Gaussian process is set up which directly computes the mean values for given material parameters The uncertainties and correlations of the material parameters are studied and compared to the literature

The Truth About Love Patricia Love,2001-06-05 Offering a revelatory new perspective on loving relationships the author of Hot Monogamy guides readers through the natural stages of love high and low and shows how not to break up before the breakthrough

Moments on the Mount George Matheson,2022-11-08 THERE are two motives which have influenced us in the production of this little book We have sought on the one hand to supply aids to devotion either for the use of the family or of the individual and on the other to furnish points of suggestion to the student who is a prospective preacher Perhaps it may be thought that these two aims are incongruous and it would be too much to hope that in both we have succeeded yet devotion is not the absence of thought and thought is not necessarily the absence of devotion At all events the presence in the mind of two so reactionary aims may have had the beneficial result of preserving these meditations either from the fault of too much abstractness or from the sin of too little depth IT is only in the cool of the day that I can hear Thy footsteps O my God Thou art ever walking in the garden Thy presence is abroad everywhere and always but it is not everywhere nor always that I can hear Thee passing by The burden and heat of the day are too strong for me The struggles of life excite me the ambitions of life perturb me the glitter of life dazzles me it is all thunder and earthquake and fire But when I myself am still I catch Thy still small voice and then I know that Thou art God Thy peace can only speak to my peacefulness Thy rest can only be audible to my calm the harmony of Thy tread cannot be heard by the discord of my soul Therefore betimes I would be alone with Thee away from the heat and the battle I would feel the cool breath of Thy Spirit that I may be refreshed once more for the strife I would be fanned by the breezes of heaven that I may resume the dusty road and the dolorous way Not to avoid them do I come to Thee but that I may be able more perfectly to bear them Let me hear Thy voice in the garden in the cool of the day

Wynn,2018-11-23 Cairo is a city obsessed with honor and respectability and love affairs Sara a working class woman has an affair with a married man and becomes pregnant only to be abandoned by him Ayah and Zeid a respectably engaged couple argue over whether Ayah s friend is a prostitute or a virgin Malak a European belly dancer who sometimes gets paid for sex wants to be loved by a man who won t treat her like a whore just because she s a dancer and Alia a Christian banker who left her abusive husband is the mistress of a wealthy Muslim man Haroun who encourages business by hosting risqu parties for other men and their mistresses Set in transnational Cairo over

two decades Love Sex and Desire in Modern Egypt is an ethnography that explores female respectability male honor and Western theories and fantasies about Arab society L L Wynn uses stories of love affairs to interrogate three areas of classic anthropological theory mimesis kinship and gift She develops a broad picture of how individuals love and desire within a cultural and political system that structures the possibilities of and penalties for going against sexual and gender norms Wynn demonstrates that love is at once a moral horizon an attribute that naturally inheres in particular social relations a social phenomenon strengthened through cultural concepts of gift and kinship and an emotion deeply felt and desired by individuals **Hedwig; or, Love and gratitude, a drama [in verse] tr. by mrs. Ahearn,2001 A discussion of the implications of the emergence of love letter correspondences for social relations in Nepal *Love Deformed, Love Transformed* David C. Bellusci,2019-07-01 How is human love deformed in sexual addiction How can human love be transformed David Bellusci considers three signs of addiction and then by looking at neurotic tendencies within a psychoanalytical framework as well as the neurobiological nature of sexual pleasure explores the causes of sexual addiction Behavioral expression of addiction is examined in pornography masturbation cybersex and multiple sexual partners Working within a Christian anthropology drawn from Thomas Aquinas Bellusci considers the morality of pleasure how pleasure suggests an antinomy of satisfaction dissatisfaction He explores how the fallen human condition effects the will and the consent to sin He concludes with a focus on how the addict may be supported at the psychological relational and spiritual levels Love in America Francesca M. Cancian,1990-08-31 In the last twenty five years Americans have gained considerable freedom in thier personal lives Relationships are now more flexible and self development has become a primary goal for both men and women Most scholars have criticized this trend to greater freedom arguing that it undermines family bonds and promotes selfishness and extreme independence Francesca Cancian is more optimistic In this book she shows that many American couples succeed in

combining self development with commitment and that interdependence not independence is their ideal In interdependent relationships love and self development do not conflict but reinforce each other Love in America compares traditional forms of marriage with these newer forms of close relationships Starting with the nineteenth century Cancian shows how gender roles became polarized with love which was identified with emotional expression no practical help being the responsibility of women while self development was regarded as a masculine concern These traditional images of love and relationships are still held by many Americans today even though as Cancian points out this can lead to marital conflict and individual stress and illness By contrast new images of love emphasizing self development for men and women and flexible androgynous roles began to emerge around 1900 accelerating in the 1960s She concludes that this trend to self development and androgyny will continue but that whether it will lead to more interdependent relationships or to more independence and isolation depends partly on economic and political changes in the wider society The evidence for Cancian s argument comes from sociological historical and psychological sources Her book will interest readers in these disciplines as well s appeal to a wide general audience *The Christian Advocate* ,1908 **Wisconsin Congregational Church Life** ,1915 *Principles and Methods of Moral Training with Special Reference to School Discipline* James Welton,Francis George Blandford,1909
