Cekaite, Lorenza Mondada, 2020-07-15 Rooted in multimodal conversation analysis and based on video recordings of naturally occurring social interactions, this book presents a novel analytical perspective for the study of touch. The authors focus on how different forms of touch are interactionally organized in everyday institutional and professional practices, showing how touch is multimodally achieved in social interaction, how it acquires its significance, how it is embedded in the current activity and in its social context, and how it is systematically intertwined with talk, facial expressions, and body posture. Including work by a wide range of renowned researchers, this volume provides rich visual illustrations of situations featuring touch as a social and intersubjective practice. The studies make a compelling contribution to the field by clearly examining and demonstrating the social meaning of touch for the participants in social interaction in a broad range of contexts. Presenting a new methodology for the study of touch, this is key reading for all researchers and scholars working in conversation analysis, multimodality, and related areas.

God's Touch Bruce Gordon Epperly, 2001-01-01 The mounting evidence of the interconnectedness of spirituality, health, and medicine suggests giving new attention to the healing ministry of Jesus. Through a fresh reading of the Gospel narratives, Bruce Epperly reveals the centrality of whole person healing within Jesus' mission as teacher and social reformer, and stresses that churches should seek to recover a healing ministry that touches both the spirit and the body. *God's Touch* traces the links between Jesus' approach to wholeness of mind, body, spirit, and relationships and the practices of complementary and alternative medicine today. **Cinema and Contact** Laura McMahon, 2017-07-05 Drawing on

the work of contemporary French philosopher Jean Luc Nancy Cinema and Contact investigates the aesthetics and politics of touch in the cinema of three of the most prominent and distinctive filmmakers to have emerged in France during the last fifty years Robert Bresson Marguerite Duras and Claire Denis Countering the dominant critical account of touch elaborated by recent models of embodied spectatorship this book argues that cinema offers a privileged space for understanding touch in terms of spacing and withdrawal rather than immediacy and continuity Such a deconstructive configuration of touch is shown here to have far reaching implications inviting an innovative rethinking of politics aesthetics and theology via the textures of cinema The first study to bring the thought of Nancy into sustained dialogue with a series of detailed analyses of films Cinema and Contact also forges new interpretative perspectives on Bresson Duras and Denis tracing a compelling two way exchange between cinema and philosophy

Close Relationships Robert J. Sternberg,Aleksandra Kostić,2022-03-15 This book is an up to date compendium of

knowledge on the secret language of close relationships namely nonverbal routes of communication In close relationships as everyone learns sooner or later the usefulness of words can be somewhat limited because people mean different things by the same words b mean the same thing by different words c sometimes find it hard to express their feelings in words and d lie Nonverbal signals therefore often provide the best means of communication The book points out how decoding interpreting nonverbal signals is a major key to success because often what people say wholly belies how they feel nonverbal signals reveal their true feelings rather than what they want other people to think their feelings are This book helps decode those secret signals The book is written by the leading worldwide experts in the field of nonverbal communication to ensure accuracy comprehensiveness and timeliness

Communicating Ruth H. Finnegan, 2002 Annotation Focusing on embodied and material processes rather than cognitive or mentalist models and on practice rather than text this book reveals why a limited view of human communication is unsatisfactory
