Parks Ph.D., 2010-08-03 Ethics are more than a personal philosophy From the crimes of Bernie Madoff to the accusations of war crimes and torture to the massive greed inspired fraud perpetrated by the financial institutions around the world this new edition of The Complete Idiot s Guide to Understanding Ethics Second Edition helps clarify the history and evolution of ethics and their application to real life in the twenty first century Covers ethics in such hot button topics as politics war medicine and business and finance Features up to date ideas on ethical behavior on the Internet when dealing with privacy issues Discusses the personal ethics surrounding reproductive issues *To Tell You the Truth* Enid Levinger Powell, 2008-08-26 Are these stories autobiographical or fiction the author is asked Yes she says Life does not provide perfect plots and all the cool characters you need if you hope to hook a reader but imagination stitched to scraps of experience and observation can create a patchwork quilt called fiction The stories follow the Law of the Imagination Tell the truth and the lies take care of themselves Any links that a reader may invent are reasonable even if not true A teenage daughter enduring a home perm a saleswoman coveting a thin gold chain a woman seeing off her college bound son and visiting parents all on the same day In this collection of exquisitely nuanced stories it isnt so much what is said but what is left unspoken that gives Powells work such emotional complexity and firepower Proof positive that a good story is truer than the truth Joni B Cole author of Toxic Feedback Helping Writers Survive and Thrive What did you like best about this book This book is filled with extraordinary characters and diverse plotting I eagerly read through it while wondering what next the book held in store for me I believe its strength aside from the excellent writing skills lies in the way you captured the essence of our lives I identified with so many of the chapters saying to myself yes that s the way it is that s what happened that s how I felt I particularly liked Scenes with a View that captures the young daughter moving into her first place and the parents discomfort with it I remember how vulnerable I felt at that time How hard I tried to make my place perfect or at least good enough to gain my parents approval How can the author improve this book It would

be difficult to say how you could improve this book I thought the writing was superb characterization the same and the stories tugged at my heart I cried at the end Tears fill my eyes even as I write these words Congratulations on a lovely book If you are not a winner this year it is because there are so many excellent entries Writer s Digest Judge s commentary **The Mental Game of Trading** Jared Tendler,2021-04-09 A step by step system for mastering trading psychology Think about your most costly and recurring trading mistakes Chances are that they re related to common errors such as chasing price cutting winners short forcing mediocre trades and overtrading You ve likely tried to fix these errors by improving your technical skills and yet they persist That s because the real source of these mistakes is not technical they actually stem from greed fear anger or problems with confidence and discipline If you are like most traders you probably overlook or misunderstand mental and emotional obstacles Or worse you might think you know how to manage them but you don t and end up losing control at the worst possible time You re leaving too much money on the table which will either prevent you from being profitable or realizing your potential While many trading psychology books offer sound advice they don t show you how to do the necessary work That s why you haven t solved the problems hurting your performance With straight talk and practical solutions Jared Tendler brings a new voice to trading psychology In *The Mental Game of Trading* he busts myths about emotions greed and discipline and shows you how to look past the obvious to identify the real reasons you re struggling This book is different from anything else on the market You ll get a step by step system for discovering the cause of your problems and eliminating them once and for all And through real stories of traders from around the world who have successfully used Tendler s system you ll learn how to tackle your problems improve your day to day performance and increase your profits Whether you re an independent or institutional trader and regardless of whether you trade equities forex or cryptocurrencies you can use this system to improve your decision making and execution Finally you have a way to reach your potential as a trader Now s the time to make it happen *How to Get Lucky (Harriman Classics)* Max Gunther,2021-09-21 Max Gunther s lost classic now in a new Classics edition Some people think you re either born lucky or not But what if you could actively get lucky As Max Gunther shows in this page turning classic some people really are luckier than others and not by accident Lucky people arrange their lives in characteristic patterns They tend to position themselves in the path of onrushing luck they tend to go where events are moving fastest and where they can find their lucky break Lucky people take risks but not silly ones They stick with a cause a job or a partner but not when all hope is lost In short they move with life not against it This book gives you 13 different techniques by which you can discover and take advantage of life s good breaks while minimising the effects of its bad ones *Great Lakes and Midwest Catalog* Partners Book Distributing,2006 **The Complete Idiot's Guide to the Vietnam War, 2nd Edition** Timothy P.
