 Television Technology **Freeing the Presses** Timothy E. Cook, 2006-08-01 Most Americans consider a free press essential
 to democratic society either as an independent watchdog against governmental abuse of power or as a wide open
 marketplace of ideas But few understand that far reaching public policies have shaped the news citizens receive In an age
 when mass communication ranges from independent cable channels to the Internet it is essential to assess these policies and
 their effects if we want the media to continue fulfilling their role Freeing the Presses offers a pathbreaking inquiry into the
 theory and practice of freedom of the press at a critical time in the growing overlap between modern media and political
 discussion Six political communication scholars draw upon history sociology political science legal philosophy and journalism
 to investigate whether the freedoms and privileges given to the news media and to reporters actually produce the results we
 expect Their discussion covers past present and future media performance and engages a wide range of provocative
 questions *Narrative: The Basics* Bronwen Thomas, 2015-11-19 Providing an up to date and accessible overview of the
 essentials of narrative theory Narrative The Basics guides the reader through the major approaches to the study of narrative
 using contemporary examples from a wide range of narrative forms to answer key questions including What is narrative What
 are the universals of narrative What is the relationship between narrative and ideology Does the reader have a role in
 narrative Has the digital age brought radically new forms of narrative Each chapter introduces key theoretical terms
 providing thinking points and suggestions for further study With an emphasis on applying theory to example studies it is an
 ideal introduction to the current study of narrative *Basic Knowledge of University Teaching* Andreas
 Osterroth, 2025-04-15 The book shows concisely and clearly how to plan conduct and evaluate university courses It is suitable
 for beginners without any pedagogical or didactic training but also for experienced instructors who want to enrich their
 teaching with new ideas Teaching is a challenging task as most lecturers are excellently trained in their subject area but
 have never learned how to convey complex content as efficiently as possible In addition to the fundamental didactics that
 should underpin a course practical methods are also described along with explanations on how to conduct evaluations
