New Medievalism:

Rethinking the New Medievalism R. Howard Bloch, Alison Calhoun, Jacqueline Cerquiglini-Toulet, Joachim Küpper, Jeanette Patterson, 2014-04-30 Twenty years after Stephen Nichols transformed the study of medieval literature leaders in the field pay tribute to his work and expand on it In the early 1990s Stephen Nichols introduced the term new medievalism to describe an alternative to the traditional philological approach to the study of the romantic texts in the medieval period While the old approach focused on formal aspects of language this new approach was historicist and moved beyond a narrow focus on language to examine the broader social and cultural contexts in which literary works were composed and disseminated Within the field this transformation of medieval studies was as important as the genetic revolution to the study of biology and has had an enormous influence on the study of medieval literature Rethinking the New Medievalism offers both a historical account of the movement and its achievements while indicating in Nichols s innovative spirit still newer directions for medieval studies The essays deal with questions of authorship theology and material philology and are written by members of a wide philological and critical circle that Nichols nourished for forty years Daniel Heller Roazen s essay for example demonstrates the conjunction of the old philology and the new In a close examination of the history of the words used for maritime raiders from Ancient Greece to the present pirate plunderer bandit Roazen draws a fine line between lawlessness and lawfulness between judicial action and war between war and public policy Other contributors include Jack Abecassis Marina Brownlee Jacqueline Cerquiglini Toulet Andreas Kablitz and Ursula Peters

The New Medievalism Marina S. Brownlee, Kevin Brownlee, Stephen G. Nichols, 1991-10 This is a substantial and readable volume and it is supplied with a rich array of documentation in the notes and bibliography It deals with a question of critical importance for current research on medieval literature namely the relationship between this literature and us This is an important collection and one may congratulate the editors of their ambitious undertaking Paul Zumthor *Speculum*

Medievalism and the Academy II David Metzger, 2000 The second part of *Medievalism and the Academy* identifies the four specific questions that have come to focus recent scholarship in medievalism What is difference what is theory woman God The impact of cultural studies on contemporary medieval studies is investigated in this latest volume of *Studies in Medievalism* which also offers an account of the developing interest of contemporary cultural theorists in the medieval period Rather than dismissing the connection between medieval studies and cultural criticism as an expression of academic self interest the essays identify specific questions which engage both such as race history women religion and literature Topics include the use of Augustine by postcolonial theorists the influence of studies in medieval mysticism on the development of women's studies programs and the influence of Foucault and New Historicism on the study of medieval history Contributors ELLIE RAGLAND TIMOTHY RICHARDSON MICHAEL BERNARD DONALD CLAY KINSNER LINDA SEXSON REBECCA DOUGLASS LOUISE SYLVESTER RICHARD GLEJZER CHARLES WILSON ANDREW J DELL OLIO *Medievalism* Elizabeth Nicole Emery, Richard J. Simmons, 2013-01-11 *Medievalism* the later reception of the Middle Ages has been used by many writers not just during the Victorian period but from the Renaissance to the present as a means of commenting on their own societies and systems of values Until recently this self interest was used to distinguish between *Medievalism* a selective often romanticised view of the past and medieval studies with its quest for an authentic Middle Ages The essays in this collection suggest that the search for knowledge of a real Middle Ages has always been a problematic one and that the vitality of the vision of *Medievalism* is demonstrated by its

Heterarchy in World Politics Philip G. Cerny, 2022-12-30 Heterarchy in World Politics challenges the fundamental framing of international relations and world politics IR theory has always been dominated by the presumption that world

politics is at its core a system of states. However, this has always been problematic, challengeable, time bound and increasingly anachronistic. In the 21st century world politics is becoming increasingly multi nodal and characterized by heterarchy, the coexistence and conflict between differently structured micro and meso quasi hierarchies that compete and overlap not only across borders but also across economic financial sectors and social groupings. Thinking about international order in terms of heterarchy is a paradigm shift away from the mainstream competing paradigms of realism, liberalism and constructivism. This book explores how since the mid 20th century the dialectic of globalization and fragmentation has caught states and the interstate system in the complex evolutionary process toward heterarchy. These heterarchical institutions and processes are characterized by increasing autonomy and special interest capture. The process of heterarchy empowers strategically situated agents, especially agents with substantial autonomous resources and in particular economic resources in multi nodal competing institutions with overlapping jurisdictions. The result is the decreasing capacity of macro states to control both domestic and transnational political economic processes. In this book, the authors demonstrate that this is not a simple breakdown of states and the states system; it is in fact the early stages of a structural evolution of world politics. This book will interest students, scholars and researchers of international relations theory. It will also have significant appeal in the fields of world politics, security studies, war studies, peace studies, global governance studies, political science, political economy, political power studies and the social sciences more generally.

Globalisation and Governance in the Pacific Islands Stewart Firth, 2006-12-01. The Pacific Islands are feeling the effects of globalisation. Free trade in sugar and garments is threatening two of Fiji's key industries. At the same time other opportunities are emerging. Labour migration is growing in importance and Pacific governments are calling for more access to Australia's labour market. Fiji has joined Samoa, Tonga, Tuvalu and Kiribati as a remittance economy with thousands of its citizens working overseas. Meantime Papua New Guinea and Solomon Islands grapple with an older kind of globalisation in which overseas companies exploit mineral and forest resources. The Pacific Islands confront unique problems of governance in this era of globalisation. The modern democratic state often fits awkwardly with traditional ways of doing politics in that part of the world. Just as often politicians in the Pacific exploit tradition or invent it to serve modern political purposes. The contributors to this volume examine Pacific globalisation and governance from a wide range of perspectives. They come from Papua New Guinea, Solomon Islands, Hawaii, the Federated States of Micronesia, Samoa, Fiji, New Zealand and Jamaica as well as Australia. Publisher's description.

[Reconstructing the Middle Ages](#) Carolina Armenteros, 2009-05-27. *Reconstructing the Middle Ages* looks at nineteenth century medievalism in France using as a case study Gaston Paris, philologist, literary critic and professor of medieval studies. Gaston Paris's method

traditionally seen as a combination of romanticism and positivism exemplifies several elements of nineteenth century medievalism in the Parisian academia in late nineteenth century France The text investigates Gaston Paris s theories about three medieval literary genres epic fabliaux and Arthurian tales to understand how Paris s view of medieval literature and history cross related with nationalism at a time when France was particularly vulnerable and at which French academics were especially eager to make a long lasting contribution Examining the work of Gaston Paris and his interaction with other scholars in the Parisian milieu *Reconstructing the Middle Ages* offers a look at academic medievalism and the history philology linguistics and literary and textual criticism in late nineteenth century France In particular the book shows that when it comes to the self image of France medievalism was a topic that reached far beyond the walls of academia as it was related to national pride memory and identity
