to their care and the vessels used for their treatment and evacuation This article by article Commentary takes into account developments in the law and practice to provide up to date interpretations of the Convention The new Commentary has been reviewed by humanitarian law practitioners and academics from around the world including naval experts It is an essential tool for anyone working or studying within this field Warships of the World to 1900 Lincoln P. Paine,2000 Lincoln P Paine s SHIPS OF THE WORLD AN HISTORICAL HISTORICAL ENCYCLOPEDIA was honored as one of the best reference books of the year by the New York Public Library and Library Journal described it as clearly the most fascinating book of the year Now in two equally fascinating new books Paine focuses on two of the most interesting areas of maritime history WARSHIPS OF THE WORLD TO 1900 and SHIPS OF DISCOVERY AND EXPLORATION WARSHIPS OF THE WORLD TO 1900 traces the history of naval warfare through the stories of more than two hundred of the most famous and important fighting ships from the earliest triremes and Viking longships to the Mary Rose Wasa Bonhomme Richard HMS Victory USS Constitution USS Monitor and Mikasa Each ship is described in a vivid short essay that captures its personality as well as its physical characteristics construction and history from the drawing board to the scrap yard or museum Paintings and photographs show the grandeur and grace of these vessels that helped shape world events An introductory essay maps and a chronology offer the reader a global perspective on the course of naval history from antiquity to the present *Royal Observer Corps* Air Ministry Personnel,2018-02-28 The key roles played by the Royal Observer Corps in the Second World War have all too often been overshadowed by more glamorous arms of the defense forces The teams in the Sector Stations plotting the battles raging above and the Spitfires and Hurricanes swooping upon the formations of enemy fighters and bombers present easily imagined and dramatic scenes Yet between the radar stations detecting the German aircraft approaching over the Channel and the Sector Controls were the little sandbagged posts of the Observer Corps that provided overland tracking of the enemy formations The Royal Observer Corps the Royal prefix being approved in 1941 proved a vital link in the communication chain in the defense of the UK particularly in the Battle of Britain as it provided the only means of tracking enemy aircraft once they had crossed the coastline The highly skilled Observers were also able to identify and count the enemy aircraft turning blips on a screen into actual types and numbers of German machines Even after the threat from the Luftwaffe receded after the Battle of Britain and the Blitz the ROC again came to the fore when the V1s opened a new reign of terror in 1944 Because these small fast weapons were so hard to detect the RAFs fighter controllers moved into the ROCs operations rooms so that they could respond to the V 1 threat more rapidly In this official history of the ROC written shortly after the war the corps operations throughout the conflict are set out in great detail This includes a section on the last flight of Rudolf Hess as well as one detailing the work of those who were selected for employment as Seaborne Observers on ships during the D Day landings where their specialist identification skills were used to prevent the all too prevalent instances of friendly fire This history provides an account of the ROC which is just as important in understanding the operations of the

corps as the Observers were in the defense of the United Kingdom during the Second War **Instruments of War** Spencer C. Tucker, 2015-07-28 This highly detailed and well illustrated single volume work documents the evolution of warfare across history through weaponry and technological change In war the weapons and technologies employed have direct effects on how battles are waged When new weapons are introduced they can dramatically alter the outcomes of warfare and consequently change the course of history itself This reference work provides a fascinating overview of the major weapon systems and military technologies that have had a major impact on world history Addressing weapons as crude as the club used by primitive man to the high tech weapons of today such as unmanned drones **Instruments of War Weapons and Technologies That Have Changed History** offers nearly 270 profusely illustrated entries that examine the key roles played by specific weapons and identify their success and failures The book begins with an introductory essay that frames the subject matter of the work and discusses the history of weapons as a whole The text is concise and accessible to general readers without extensive backgrounds in military history yet provides the detailed information necessary to convey the complexity of the evolution of warfare through technological change **Warship Boneyards** ,2001 **1637: No Peace Beyond the Line** Eric Flint, Charles E. Gannon, 2020-11-03 THE BATTLE FOR THE NEW WORLD IS A FIGHT TO THE FINISH A NEW RING OF FIRE NOVEL BY BEST SELLING WRITING TEAM ERIC FLINT AND CHARLES E GANNON A New Day in the New World It s 1637 in the Caribbean Commander Eddie Cantrell and his ally and friend Admiral Martin Tromp start it off with some nasty surprises for Spain whose centuries long exploitation and rapine of the New World has run unchecked Until now Yet life goes on in the Caribbean Relationships among the allied Dutch Swedes Germans up timers and even Irish mercenaries continue to evolve and deepen New friendships must be forged with the native peoples who will not only shape the colonists future in the Caribbean but will also decide whether they will be given access to a Louisiana oilfield that could change the balance of power But for now the only oil Imperial Spain knows about is the crude pouring out of the Allies pumps on Trinidad which threatens its interests in both the New and the Old Worlds So following in the footsteps of the conquistadors the empire s commanders are resolved to show that they do not take threats lightly or lying down Indeed their historical reaction is to respond with overwhelming and often genocidal force The battle for the New World has not merely begun it is a fight to the finish
