New Order In Postcommunist Eurasia:

New Order in Post-communist Eurasia Osamu Ieda, 1993 **Muslims of Post-Communist Eurasia** Galina M. Yemelianova, Egdūnas Račius, 2022-09-30 This book discusses the evolution of state governance of Islam and the nature and forms of local Muslims' rediscovery of their Muslimness across post communist Eurasia. It examines the effects on the Islamic scene of the political and ideological divergence of Central and South Eastern Europe from Russia and most of the Caucasus and Central Asia. Of particular interest are the implications of the proliferation of new global interpretations of Islam and their relationship with existing traditional Islamic beliefs and practices. The contributions in this book address these issues through an interdisciplinary prism combining history, religious studies, theology, social anthropology, sociology, ethnology and political science. They analyse the greater public presence of Islam in constitutionally secular contexts and offer a critique of the domestication and accommodation of Islam in Europe, comparing these to what has happened in the international Eurasian space. The discussion is informed by the works of such thinkers as Talal Asad, Bryan Turner, Veit Bader, Marcel Maussen and Bassam Tibi and utilises primary and secondary sources and ethnographic observation. Looking at how collectivities and individuals are defining what it means to be Muslim in a globalised Islamic context, this book will be of great interest to scholars of Religious Studies, Islamic Studies, Political Science, Sociology and Anthropology.

The International Politics of Eurasia: v. 10: The International Dimension of Post-communist Transitions in Russia and the New States of Eurasia S. Frederick Starr, Karen Dawisha, 2024-11-01 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states. Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states. The collapse of the Soviet Union and the discrediting of Marxism-Leninism as a source of political legitimacy have prompted a search for fresh principles of political organization that will shape the nature of political culture in all the post Soviet countries. This volume focuses on the International dimension of Post communist transitions.

New Order in Post-communist Eurasia Osamu Ieda, 1993 The Reincarnation of Russia John Löwenhardt, 1995 In *The Reincarnation of Russia* John Löwenhardt presents the first in-depth analysis of the initial and crucial stages of Russia's new statehood. He examines Russia's recent turbulent history beginning with the explosive Declaration of State Sovereignty in June 1990 through the adoption of the Yeltsin constitution in the elections of December 1993 and concluding with the early months of 1994. His analysis of Russia's struggle with the vestige of Soviet Communism and the attempt to create a more democratic form of government offers crucial insight into one of the critical turning points in contemporary history. Building on analysis of the failure of the Soviet system, Löwenhardt compares the emergence of Russia as a newborn state with other countries that have undergone transitions from authoritarianism toward democracy. Although it is often claimed that Russia is a unique case, the author argues that the lessons of other nations are relevant to the Russian situation. In conjunction with

this comparative analysis and with consideration of the significance of the communist and Russian past L wenhardt discusses political and economic developments including both foreign and domestic policy concerns in Russia over the last four years He provides a better understanding of the Russian condition and a guarded optimism regarding the ongoing process taking place in Russia today The Reincarnation of Russia will be welcomed by scholars with specialized interests in the democratization of Russia political leaders journalists and general readers concerned with the global impact of Russia s changing status Politics and Legitimacy in Post-Soviet Eurasia Martin Brusis,Joachim Ahrens,Martin Schulze Wessel,2016-01-26 Political legitimacy has become a scarce resource in Russia and other post Soviet states Their capacity to deliver prosperity has suffered from economic crisis war in Ukraine and confrontation with the West Will nationalism and repression enable political regimes to survive This book studies the politics of legitimation in Post Soviet Eurasia

Autocratic and Democratic External Influences in Post-Soviet Eurasia Anastassia Obydenkova,Alexander Libman,2016-03-09 As the Ukrainian Crisis shows both political regimes and national borders in Eurasia are still in a state of flux Bringing together literatures on the external influences of democratization the post Soviet space and support for autocracy Autocratic and Democratic External influences in Post Soviet Eurasia provides a comprehensive overview of the interaction of domestic and international politics during times of regime transition Demonstrating the interplay of these forces the book explores the rich variation in motives and channels of autocratic and democratic influences International scholars consider two channels of external influence on regime transition the role of supranational organizations established by non democracies and the role of non governmental organizations and through a set of carefully chosen case studies offer a new theoretical discussion on the phenomenon of multi level regime transition **Eurasia's New Frontiers** Thomas W. Simons,2011-05-02 As a global power the United States will always be interested in Eurasia and engaged with its peoples and nations Eurasia is too large and important a part of the world to be ignored It casts a shadow of the old Soviet threat forward in time and its axis the Russian Federation is nuclear armed So are its neighbors China to the east India and Pakistan to the south and there are others in the queue Eurasia s new nations are players on today s most urgent global issues terrorism counterproliferation of weapons of mass destruction economic stability and growth including its energy centerpiece stable political development including democratization its long term key So the context for why Eurasia matters is very large from Eurasia s New Frontiers In Eurasia s New Frontiers Thomas W Simons Jr a distinguished veteran of the U S Foreign Service with extensive experience in the Communist and post Communist worlds assays the political economic and social developments in the fifteen successor states to the Soviet Union that comprise Eurasia from Estonia to Azerbaijan and from Tajikistan to Ukraine centered on Russia He makes a compelling case that the United States can play a large role in shaping the future of this vast and strategic region and at less cost than during Soviet times This can only be accomplished however if U S policy toward Eurasia shifts from alternating hand wringing and indifference to steady and flexible

engagement that focuses on its fledgling individual nation states Throughout Eurasia Simons shows civil society is anemic market reforms have been discredited and political development has been stunted Authoritarian and semiauthoritarian regimes are firmly in place from Belarus to Central Asia in Ukraine Moldova and even Russia some democratic forms have taken hold but everywhere politics features struggle among elites over access to economic resources albeit often defined in terms of sovereignty Almost everywhere states are consolidating as resurgent Russia presses on its neighbors they can now press back alone or with help from the outside world Simons believes that the post Soviet space needs stable development of state institutions within which new civil societies can take root and grow Potentially strong state institutions are in his view Soviet Communism s secret gift to Eurasia and they may well enable the region to become in time an arc of promise an anchor of relative stability in a troubled part of the world For that to happen Simons argues the nationalism that gives content to these new state structures must be the right kind civic and inclusionary rather than ethno religious and exclusionary Because Russia is so diverse and its nationalism so state oriented Simons also sees it as more likely to develop that kind of civic nationalism than some of its new neighbors The United States has a limited but real role to play in helping or hindering its emergence everywhere in Eurasia If it wishes to help though the U S must realize that in this part of the world the path to democracy leads through state development The U S will continue to advocate for its core values but it can best act as a City on the Hill for Eurasia if its policy centers on the emerging new states of today for they must be the incubators of tomorrow s civil societies

The Elgar Companion to the Eurasian Economic Union Alexander Libman, Evgeny Vinokurov, 2024-03-14 This insightful Companion provides an in depth systematic analysis of the Eurasian Economic Union EAEU an economic union of several post Soviet Eurasian states

Organized Crime, Political Transitions and State Formation in Post-Soviet Eurasia A. Kupatadze, 2012-01-25 Based on over 130 interviews with criminals law enforcement officials and government representatives from post Soviet Georgia Ukraine and Kyrgyzstan this book situates organized crime in the debate on state formation and examines the diverging patterns in organized crime following the aftermath of these countries Coloured Revolutions

Domestic Violence in Postcommunist States Katalin FÁibiÁin, 2010-07-16 Domestic violence has emerged as a significant public policy issue of transnational character and mobilization in the postcommunist era in Europe and Eurasia as global forces have interacted with the agendas of governments local and international women s groups and human rights activists The result of extensive collaboration among scholars and activist practitioners many from postcommunist countries this volume examines the development of state policies changes in public perceptions and the interaction of national and international politics

Democracy and Authoritarianism in the Postcommunist World Valerie Bunce, Michael McFaul, Kathryn Stoner, 2010 Examines in depth three waves of democratic change that took place in eleven different former Communist nations

The Economic Dimension of Eurasian Integration Natalia A. Piskulova, 2021-02-24 How impactful has the Eurasian Economic Union EAEU been since it was signed in 2015 This book

provides a thorough and critical analysis of economic integration in the EAEU from the perspective of international economic relations. It focuses on trade, FDI, manufacturing, energy, transport and logistics, science and education, digital economy, labour and ecology. The book also addresses the global positioning of the EAEU by evaluating its existing and potential trade agreements both with third countries and regional blocks. Although the EAEU is an established regional entity that has achieved a number of quantitative and qualitative economic results, there needs to be inclusive dialogue at the intra-regional, within the EAEU, and interregional for instance BRICS levels to further deepen the economic integration in the EAEU. This book will be of interest to academics and policymakers working in Eurasian economic integration, international economic relations and regional studies.

Cultural Change in East-Central European and Eurasian Spaces Susan C. Pearce, Eugenia Sojka, 2021-03-05. This book weaves together research on cultural change in Central Europe and Eurasia, notably Bosnia and Herzegovina, Kazakhstan, Latvia, Poland, Russia, and Ukraine. Examining massive cultural shifts in erstwhile state communist nations since 1989, the authors analyze how the region is moving in both freeing and restrictive directions. They map out these directions in such arenas as LGBTQ protest cultures, new Russian fiction, Polish memory of Jewish heritage, ethnic nationalisms, revival of minority cultures, and loss of state support for museums. From a comparison of gender constructions in 30 national constitutions to an exploration of a cross-national artistic collaborative, this insightful book illuminates how the region's denizens are swimming in changing tides of transnational cultures, resulting in new hybridities and innovations. Arguing for a decolonization of the region and for the significance of culture, the book appeals to a wide interdisciplinary readership interested in cultural change, post-communist societies, and globalization.

Hybridisation of Political Order and Contemporary Revisionism Nik Hyněk, Vít Strátecký, 2022-08-01. This volume argues that contemporary political and security revisionism should not be considered a homogenous attack against the international order but rather a bag of tailor-made strategies to exploit opportunities found in various highly localised contexts. Scholars with backgrounds in Security Studies, Area Studies, International Relations, and Political Theory are brought to examine revisionist tendencies in Central Eastern Europe, Post-Soviet Space, China, and the Transatlantic Space. In doing so, they try to remedy the existing disciplinary separatism or policing which has obfuscated any theorisation of the connections between international and domestic politics for many decades. Part of the analytical focus is on novel phenomena, especially the utilization of cyberspace and new social media and technological innovation. One of the conclusions of this volume is that the rise in contemporary revisionism shows the oft-forgotten importance of the first image of international politics: political leaders, in other words, do indeed matter. The fact that they matter is only reinforced when they represent regional or even great powers and especially revisionist regimes and states with the propensity to produce complex effects. The chapters in this book were originally published as a special issue of the journal *Europe Asia Studies*.

Russia and the Challengers H. Belopolsky, 2015-12-11. An examination of why Russia chose to jeopardize its embryonic partnership with the West in favour of alignment with states like China, Iran, and

Iraq and what this means for the stability of the emerging international system **Power, Politics and Confrontation in Eurasia** Roger E. Kanet,Matthew Sussex,2016-04-29 The central objective of this edited volume is to help unlock a set of intriguing puzzles relating to changing power dynamics in Eurasia a region that is critically important in the changing international security landscape Eurasian Integration E. Vinokurov,A. Libman,2012-12-15 The Eurasian continent which has for over a century lagged behind in global markets is currently gaining economic and political momentum This book investigates emerging economic linkages in the area examining the factors shaping this integration the benefits and risks involved and the future of these states on the global stage **Post Communist States in the World Community** William E. Ferry,Roger E. Kanet,2016-01-09 Post Communist States in the World Community provides a selection of papers on various aspects of the foreign and security policies of the post communist states of Europe presented originally at the Fifth World Congress of Central and East European Studies in Warsaw The articles cover Russian foreign and security policy Russian policy in Europe the foreign policies of the countries of East Central Europe and Russian policy in East Asia

Regional Integration and Future Cooperation Initiatives in the Eurasian Economic Union Lagutina, Maria,2019-12-27 The integration of the Eurasian Economic Union has been under constant development as officials try to successfully implement new economic policies within its various regions Introducing a new policy such as this creates the formation of new markets the improvement of cooperation initiatives as well as a new legislative base and supplementations These continual alterations require updated analysis and research for political leaders to follow regarding provincial incorporation methods Regional Integration and Future Cooperation Initiatives in the Eurasian Economic Union is an essential reference source that discusses the conceptual and empirical frameworks of the current phase of Eurasian integration as well as its economic impact Featuring research on topics such as multilateral cooperation free trade and international views this book is ideally designed for politicians economists strategists public relations specialists research scholars policymakers students and academicians seeking coverage on regional integration issues in modern Eurasia
