The Sensation of Security Erika Robb Larkins,2023-05-15 The Sensation of Security explores how private security guards are a permanent conspicuous fixture of everyday life in the Brazilian city of Rio de Janeiro Drawing on long term ethnographic research with security laborers managers company owners and elite global consultants Erika Robb Larkins examines the provision of security in Rio from the perspective of security personnel providing an analysis of the racialized logics that underpin the ongoing work of securing the city Larkins shows how guards communicate a *sensação de segurança* a sensation of security to clients and customers who have the capital to pay for it Cultivated through performances by security laborers the sensation of security is a set of culturally shaped racialized and gendered impressions related to safety order well being and cleanliness While the *sensação de segurança* indexes an outward facing task of allaying fears of crime and maintaining order in elite spaces it also refers to the emotional labor and embodied worlds that security workers navigate

Security/Capital George S. Rigakos,2016-03-18 What is security and what is its relationship to capitalism George S Rigakos explosive treatise charts the rise of the security industrial complex Starting from a critical appraisal of productive labour in the works of Karl Marx and Adam Smith Rigakos builds a conceptual model of pacification based on practices of dispossession exploitation and the fetish of security commodities Rigakos argues that a defining characteristic of the global economic system is its ability to productively sell in security to those it makes insecure Materially and ideologically the security industrial complex is the blast furnace of global capitalism fuelling the perpetuation of the system while feeding

relentlessly on the surpluses it has exacted *Municipal Corporate Security in International Context* Kevin Walby, Randy K Lippert, 2015-04-10 Corporate security is a form of regulation that involves centralized management of access control physical security personnel security and information security inside an organization For all the research on public policing national security and private contract security in sociology criminology and related disciplines little scholarly attention has been paid to corporate security Increasingly corporate security is playing an important role in municipal and other government organizations as well as its traditional private corporate domain This book is the first social scientific contribution on corporate security to draw together the sociologies of security and policing legal and social theory and debates about municipal government In this book Walby and Lippert conceptualize various types of corporate security including its public and private forms and analyze a range of practices such as asset protection and physical security provision The authors explore a number of heretofore neglected themes including use of legal knowledge professionalization legitimation work and corporate security links with other security agencies and public police The book provides empirical analyses of developments in several countries but especially Canada and the US where corporate security including its entry into municipal government is particularly advanced Because corporate security cuts across security policing law and government as well as issues of professionalization public space and democracy the readership for *Municipal Corporate Security in International Context* spans disciplinary and national boundaries It is essential reading for academics and students engaged in studying security urban governance politics and legal regulation It will be of great interest to corporate security professionals and government policymakers too **Twilight Policing** Dr. Tessa G. Diphooorn, 2015-10-20 South Africa boasts the largest private security sector in the entire world reflecting deep anxieties about violence security and governance *Twilight Policing* is an ethnographic study of the daily policing practices of armed response officers a specific type of private security officer and their interactions with citizens and the state police in Durban South Africa This book shows how their policing practices simultaneously undermine and support the state resulting in actions that are neither public nor private but something in between something twilight Their performances of security are also punitive disciplinary and exclusionary and they work to reinforce post apartheid racial and economic inequalities Ultimately *Twilight Policing* helps to illuminate how citizens survive volatile conditions and to whom they assign the authority to guide them in the process **Crime and Security** Benjamin Goold, 2017-07-05 The pursuit of security is now central to the development of public policy and a driving force behind the spread of private policing Just as new theoretical frameworks are needed to deal with the increasing tendency of crime control policies to focus on risk reduction new forms of governance are also required to deal with the rapid growth of the private security industry This volume brings together a wide range of contributions from leading scholars in the field and includes international and comparative perspectives on the challenges posed by the rise of the security society **Imperial Subjects** Colin Mooers, 2014-08-28 This highly original work posits that the changes in the

nature of citizenship caused by neoliberal globalization must be understood as the result of an ongoing imperial project. Although they may seem admirable policies such as humanitarian and citizenship rights are really an imperial venture led by global institutions and corporations in order to export capitalist market forces worldwide. This entails a form of neoliberal citizenship in which social security is replaced by market insecurity and rising inequality. In this light the citizen becomes an imperial subject whose needs and desires have been colonized by the global market. However emerging social forces in Latin America and elsewhere have begun to challenge this imperialist logic fostering a resistance that may bring forth a new global vision of citizenship. This unique analysis draws together neoliberal citizenship, new imperialism and the creation of financial subjects into an innovative theoretical exploration. By expanding the debate on global citizenship, *Imperial Subjects* will engage readers in political and social sciences interested in contemporary political thought, citizenship and globalization.

Transnational and Comparative Criminology James Sheptycki, Ali Wardak, 2012-09-10. Re-imagining Policing in Canada Dennis Cooley, 2005-12-15. Policing in Canada is in the process of change similar to other nations in the western world. Many of the policing services that were provided by public forces in the past are being gradually handed over to private security agencies. Complex networks of policing that reflect a mix of public and private security providers are emerging and this transformation has serious implications for how Canadians interact with one another. For instance, if residents of a gated community or members of a downtown business association pay for their own policing services rather than relying on the public police whose law is being enforced. With this collection Dennis Cooley has brought together some of the top minds in criminology and policing to examine the phenomenon of the changing nature of policing in Canada. The essays describe the character and constitution of security in Canada and explore the implications of these changes in terms of larger questions about power, social control, justice and law. Wide ranging and topical. *Re-imagining Policing in Canada* will prove essential reading for policy makers and scholars alike.

C. Wright Mills and the Criminological Imagination Jon Frauley, 2016-03-03. In spite of its widespread use within criminology, the term criminological imagination as derived from C. Wright Mills' classic *The Sociological Imagination* has yet to be fully developed and clarified as an analytic concept capable of guiding theorizing or empirical enquiry. This volume, with a preface by Elliot Currie, engages with and reflects on this concept, exploring C. Wright Mills' work for criminological enquiry. Bringing together the latest work of leading scholars in the fields of criminology and sociology from around the world, *C. Wright Mills and the Criminological Imagination* investigates the emergence and lineage of a criminological concept indebted to Mills' thought, adapting and applying it to a specifically criminological context. With attention to theoretical concerns and as well as the application of the criminological imagination in concrete empirical research, this volume sheds new light on the

methodological and analytical aspects of the criminological imagination as a multifaceted concept and explores the possibilities that it offers for the emergence of an imaginative criminological practice As such it will appeal to scholars across the social sciences with interests in sociology and social theory criminology criminal justice studies law and research methods The Routledge Handbook of International Crime and Justice Studies Bruce Arrigo, Heather Bersot, 2013-08-15 This book presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective *Rural Crime Prevention* Alistair Harkness, 2020-04-30 Rural crime has long been overlooked in the field of crime prevention Sustained academic interrogation is necessary therefore to reduce the extensive economic and social costs of rural crime as well as to challenge some of the myths regarding the prevention of rural crime *Rural Crime Prevention Theory Tactics and Techniques* critically analyses challenges considers and assesses a suite of crime prevention initiatives across an array of international contexts This book recognises the diversity and distinct features of rural places and the ways that these elements impact on rates experiences and responses Crucially *Rural Crime Prevention* also incorporates non academic voices which are embedded throughout the book linking theory and scholarship with practice Proactive responses to rural offending based on sound evidence can serve to facilitate feelings of safety and security throughout communities enhance individual wellbeing and alleviate pressure on the overburdened and typically under resourced formal elements of the criminal justice system This book provides an opportunity to focus on the prevention of crime in regional rural and remote parts of the globe An accessible and compelling read this book will appeal to students and scholars of criminology policing sociology and practitioners interested in learning about the best practice international approaches to rural crime prevention in the twenty first century **Democratic Policing in a Changing World** Peter K. Manning, 2015-11-17 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world Yet it is rarely defined and it is little understood by the public and even by many of its practitioners Peter K Manning draws on political philosophy sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing In the process he delineates today s relationship between democracy and policing *Democratic Policing in a Changing World* documents the failure of police reform showing that each new approach such as crime mapping and hot spots policing fails to alter any fundamental practice and has in fact increased social inequalities He offers a new and better approach for scholars policy makers police governments and societies Invisible Victims Laura Huey, 2012-05-11 Despite Western society s preoccupation with safety and protection its most vulnerable members still lack access to the level of security that many of us take for granted In this trailblazing study Laura Huey illustrates the issue of a security gap faced by increasing homeless populations while they are among the most likely victims of crime they are also among the least served by existing forms of state and private security *Invisible Victims* presents the first comprehensive integrated study of the risks faced by homeless people and their attempts to find safety and security in

often dangerous environments Huey draws not only on current debates on security within criminology but also on a decade s worth of her own field research on the victimization and policing of the homeless A theoretically and empirically informed examination of the myriad issues affecting the homeless Invisible Victims makes a compelling case for society to provide necessary services and above all a basic level of security for this population
